Letter of transmittal of the Commissioner of Labor in charge to the Secretary of the Interior xi

PROGRESS OF THE NATION.

AGES ..... xv–xxvii
Distribution of the population by quinquennial ages: 1880 and 1890 xv
Distribution of the white and colored population by quinquennial ages: 1880 and 1890 xvi
Distribution of the native white and foreign white population by quinquennial ages: 1880 and 1890 xvii
Distribution of native white persons of native and foreign parentage by quinquennial ages: 1890 xviii
Number and percentage of males and females distributed according to general nativity and color by selected age periods: 1890 xx
Excess of males over females distributed according to general nativity and color by quinquennial ages: 1890 xxi
Distribution of the population of cities having 25,000 inhabitants or more, and of the remainder of the country, according to general nativity and color by quinquennial ages: 1890 xxv
Percentage which each element of the population constituted of the whole number of persons of each quinquennial age: 1890 xxvi

SCHOOL ATTENDANCE ..... xxvii–xxx
Distribution by sex according to general nativity and color: 1890 xxvii
Distribution by sex according to specified age periods: 1890 xxvii
Distribution by sex, general nativity, and color according to specified age periods: 1890 xxviii
Distribution by sex according to months of school attendance: 1890 xxix
Distribution by sex, general nativity, and color according to months of school attendance: 1890 xxix
Distribution by sex and specified age periods according to months of school attendance: 1890 xxx

ILLITERACY ..... xxx–lx
Illiterate male and female population, classified by general nativity and color: 1890 xxxi
Distribution of the illiterate population by general nativity and color: 1880 and 1890 xxxi
Number of illiterates and the percentage which they constituted of the total number of persons of each element of the population: 1880 and 1890 xxxii
Illiterate population, classified according to sex, by states and territories: 1880 and 1890 ..... xxxiii, xxxiv
Illiterate population, classified according to general nativity and color, by states and territories: 1880 and 1890 ..... xxxv, xxxvi
Illiterate male and female population, classified according to general nativity and color, by states and territories: 1890 ..... xxxvii, xxxviii
Illiterate native white population of native parentage, classified according to sex, by states and territories: 1890 xxxix
Illiterate native white population of foreign parentage, classified according to sex, by states and territories: 1890 xl
Illiterate negro population, classified according to sex, by states and territories: 1890 xli
Distribution of the illiterate male and female population by specified age periods: 1890 xlii
Distribution of the illiterate population by general nativity and color according to sex and specified age periods: 1890 xliii
Illiterate native white population of native parentage 10 to 14 years of age, classified according to sex, by states and territories: 1890 xliv
Illiterate native white population of foreign parentage 10 to 14 years of age, classified according to sex, by states and territories: 1890 xlv
Illiterate foreign white population 10 to 14 years of age, classified according to sex, by states and territories: 1890 xlvi
Illiterate colored population 10 to 14 years of age, classified according to sex, by states and territories: 1890 xlvii
Illiterate native white population of native parentage 15 to 19 years of age, classified according to sex, by states and territories: 1890 xlviii
Illiterate native white population of foreign parentage 15 to 19 years of age, classified according to sex, by states and territories: 1890 xlix
Illiterate foreign white population 15 to 19 years of age, classified according to sex, by states and territories: 1890 l
Illiterate colored population 15 to 19 years of age, classified according to sex, by states and territories: 1890 li
Illiterate native white population of native parentage 20 years of age and over, classified according to sex, by states and territories: 1890 lii
Illiterate native white population of foreign parentage 20 years of age and over, classified according to sex, by states and territories: 1890 liii
Illiterate foreign white population 20 years of age and over, classified according to sex, by states and territories: 1890 liv
Illiterate colored population 20 years of age and over, classified according to sex, by states and territories: 1890 lv
Illiterate population, classified by sex, for cities having 25,000 inhabitants or more: 1890 ..... lvi, lvii
Illiterate population, classified by general nativity and color, for cities having 25,000 inhabitants or more: 1890 ..... lviii, lix

Page.

CAN NOT SPEAK ENGLISH ..... lx-lxv
Persons who can not speak English, classified by sex according to general nativity and color: 1890 lxi
Persons who can not speak English, classified according to general nativity and color, by states and territories: 1890 lxii
Persons who can not speak English, classified by sex according to specified age periods: 1890 lxiii
Persons who can not speak English, classified by general nativity and color according to specified age periods: 1890 lxiv
Persons who can not speak English, for cities having 25,000 inhabitants or more: 1890 lxv

CITIZENSHIP OF FOREIGN BORN MALES 21 YEARS OF AGE AND OVER ..... lxvi-lxxv
Number of foreign born males who are aliens, who have been naturalized, or who have taken out their first papers: 1890 lxvi
Percentage of foreign born males who are aliens, who have been naturalized, or who have taken out their first papers, by states and territories: 1890 lxvi
Percentage of foreign born males who are aliens, who have been naturalized, or who have taken out their first papers, for cities having 100,000 inhabitants or more: 1890 lxvii
Number of aliens who had been in this country certain specified years: 1890 lxviii
Percentage of aliens who had been in this country certain specified years, by states and territories: 1890 lxix
Percentage of aliens who had been in this country certain specified years, for cities having 100,000 inhabitants or more: 1890 lxx
Percentage of aliens who can and who can not speak English, by states and territories: 1890 lxxi
Percentage of aliens who can and who can not speak English, for cities having 100,000 inhabitants or more: 1890 lxxii
Number of aliens in the United States distributed by country of birth: 1890 lxxii
Number of aliens in the 124 principal cities distributed by country of birth: 1890 lxxiv

OCCUPATIONS ..... lxxv-clxxi
Changes in the classification of certain occupation designations for 1890 from the classifications of 1870 and 1880 lxxvi
Classification of occupations according to the character of the service rendered: 1890 ..... lxxvii, lxxviii
SEX ..... lxxx-cxiii
Number of persons of each sex engaged in gainful occupations: 1880 and 1890 lxxx
Total number of persons engaged in gainful occupations, by states and territories: 1880 and 1890 lxxxi
Number of persons of each sex engaged in gainful occupations, by states and territories: 1880 and 1890 lxxxiii
Number of persons of each sex 10 to 15 years of age in 1880 and 10 to 14 years of age in 1890 engaged in gainful occupations, by states and territories lxxxv
Number of persons of each sex 16 years of age and over in 1880 and 15 years of age and over in 1890 engaged in gainful occupations, by states and territories lxxxvii
Distribution of males and females engaged in gainful occupations according to number and percentage in each class of occupations: 1880 and 1890 lxxxviii
Percentage of males and of females in each class of occupations of total males and females engaged in gainful occupations: 1890 lxxxix
Number and percentage of increase from 1880 to 1890 of persons of each sex engaged in gainful occupations and in each class of occupations xc
Number and percentage of increase from 1880 to 1890 of total persons engaged in gainful occupations, by states and territories xcii
Differences in designations of occupations: 1850 to 1890 ..... xciv-xcix
Number of persons engaged in each specified occupation, classified by sex: 1870 to 1890 ..... ci-ciii
Number of persons 16 years of age and over in 1870 and 1880 and 15 years of age and over in 1890 engaged in each specified occupation, classified by sex ..... civ-cvi
Number of persons 16 years of age and over, free males in 1850 and free persons in 1860, engaged in each specified occupation ..... cvii, cviii
Number of males and females engaged in each class of occupations, by states and territories: 1870 to 1890 ..... cix, cx
Percentage of males and of females in each class of occupations of total males and females engaged in gainful occupations, by states and territories: 1870 to 1890 ..... cxi, cxii

GENERAL NATIVITY AND COLOR ..... cxiii-cxxi
Number of males and females engaged in gainful occupations for each element of the population: 1890 cxiii
Number and percentage of males and females engaged in gainful occupations for each element of the population, by states and territories: 1890 ..... cxiv, cxv
Percentage of each element of the population in each class of occupations of the whole number engaged in gainful occupations, classified by sex: 1890 cxvi
Distribution by general nativity and color of the whole number of persons engaged in each class of occupations, classified by sex: 1890 cxvii
Number and percentage of males and females engaged in each of the principal occupations distributed according to general nativity and color: 1890 ..... cxviii, cxix
Number of each element of the population engaged in gainful occupations distributed according to number and percentage engaged in certain specified occupations, classified by sex: 1890 ..... cxx, cxxi

AGE PERIODS ..... cxxi-cxxvi
Number of males and females engaged in gainful occupations, classified by selected age periods: 1890 cxxi
Number of persons engaged in gainful occupations for each element of the population, classified by sex and age periods: 1890 cxxii
Distribution by age periods of the whole number of males and females engaged in gainful occupations and in each class of occupations: 1890 cxxiii
Percentage of males and of females in each class of occupations of total males and females engaged in gainful occupations, classified by age periods: 1890 cxxiii

OCCUPATIONS—Continued. Page.
AGE PERIODS—Continued.
Number and percentage of males 20 years of age and over engaged in gainful occupations, by states and territories: 1890 ... cxxiv
Number and percentage in each class of occupations of total males 20 years of age and over engaged in gainful occupations, by states and territories: 1890 ... cxxv
CONJUGAL CONDITION ... cxxvi-cxxxi
Number of males and females engaged in gainful occupations, classified by conjugal condition: 1890 ... cxxvi
Number of males and females engaged in gainful occupations distributed according to conjugal condition, by states and territories: 1890 ... cxxvii, cxxviii
Number of males and females engaged in gainful occupations distributed according to general nativity and color by conjugal condition: 1890 ... cxxix
Number of males and females engaged in each class of occupations distributed according to conjugal condition: 1890 ... cxxix
Number and percentage of males and females engaged in each of the principal occupations distributed according to conjugal condition: 1890 ... cxxx, cxxxi
ILLITERACY ... cxxxi-cxxxiii
Number of illiterate males and females engaged in gainful occupations, classified by general nativity and color: 1890 ... cxxxi
Proportion of illiterate males and females engaged in gainful occupations in each class of occupations: 1890 ... cxxxii
Number and percentage of illiterate males and females engaged in each of the principal occupations: 1890 ... cxxxiii
CAN NOT SPEAK ENGLISH ... cxxxiv-cxxxvi
Number of males and females who can not speak English engaged in gainful occupations, classified by general nativity and color: 1890 ... cxxxiv
Proportion of males and females who can not speak English engaged in gainful occupations in each class of occupations: 1890 ... cxxxv
Number and percentage of males and females who can not speak English engaged in each of the principal occupations: 1890 ... cxxxv, cxxxvi
MONTHS UNEMPLOYED ... cxxxvi-cxlii
Number of males and females unemployed at principal occupation, classified by general nativity and color: 1890 ... cxxxvii
Number of males and females unemployed at principal occupation, expressed in periods of months, classified by general nativity and color: 1890 ... cxxxvii
Proportion of males and females unemployed at principal occupation in each class of occupations: 1890 ... cxxxviii
Proportion of males and females unemployed at principal occupation, expressed in periods of months, in each class of occupations: 1890 ... cxxxviii
Number and percentage of males and females unemployed in each of the principal occupations: 1890 ... cxxxix
Relative lengths of time in which males and females were unemployed in each of the principal occupations, expressed in periods of months: 1890 ... cxli, cxlii
FOREIGN BORN PERSONS DISTRIBUTED ACCORDING TO COUNTRY OF BIRTH ... cxliii-clv
Number of foreign born persons engaged in gainful occupations distributed according to principal countries of birth: 1880 and 1890 ... cxliii
Proportion of native born and foreign born males and females engaged in gainful occupations in each class of occupations: 1880 and 1890 ... cxliv
Number of foreign born males and females engaged in gainful occupations in each class of occupations distributed according to principal countries of birth: 1880 and 1890 ... cxlvi
Percentage of foreign born males and females engaged in gainful occupations in each class of occupations distributed according to principal countries of birth: 1880 and 1890 ... cxlvii
Distribution of foreign born persons engaged in gainful occupations of each of the specified nationalities according to the percentage in each class of occupations: 1880 and 1890 ... cxlix
Number and percentage of foreign born males and females engaged in each of the principal occupations distributed according to country of birth: 1890 ... cl-clv
WHITE PERSONS DISTRIBUTED ACCORDING TO BIRTHPLACE OF MOTHERS ... clv-clxiii
Number of white persons engaged in gainful occupations having mothers born in foreign countries distributed according to birthplace of mothers: 1890 ... clv
Number and percentage of white persons in each class of occupations having mothers born in foreign countries distributed according to birthplace of mothers: 1890 ... clvi
Number of white males and females in each class of occupations having mothers born in foreign countries distributed according to birthplace of mothers: 1890 ... clvii
Number and percentage of white males and females engaged in each of the principal occupations distributed according to birthplace of mothers: 1890 ... clix-clxiii
FOREIGN BORN MALES 21 YEARS OF AGE AND OVER DISTRIBUTED ACCORDING TO CITIZENSHIP ... clxiii-clxvii
Number of foreign born males engaged in gainful occupations distributed according to citizenship: 1890 ... clxiii
Number of foreign born males engaged in gainful occupations in each class of occupations distributed according to citizenship: 1890 ... clxiii
Number and percentage of foreign born males engaged in each of the principal occupations distributed according to citizenship: 1890 ... clxiv
Distribution of aliens engaged in gainful occupations in each class of occupations according to number of years in the United States: 1890 ... clxv
Distribution of aliens engaged in each of the principal occupations according to number of years in the United States: 1890 ... clxvi

OCCUPATIONS—Continued. Page.
CITIES HAVING 50,000 INHABITANTS OR MORE ..... clxvii-clxxi
Number of persons engaged in gainful occupations in each of the 58 principal cities: 1880 and 1890 clxviii
Number of males and females engaged in gainful occupations in each of the 58 principal cities: 1890 clxx

SOLDIERS AND WIDOWS ..... clxxii-clxxiv
Distribution of surviving veterans and widows of veterans, both United States and Confederate, by general nativity and color: 1890 clxxii
Distribution of surviving veterans and widows of veterans, both United States and Confederate, by specified age periods: 1890 clxxiii

INMATES OF SOLDIERS' HOMES ..... clxxiv, clxxv

GENERAL TABLES.

AGES 1–134
Table 1.—Ages of the aggregate population of the United States, classified by sex, general nativity, and color: 1890 2–5
Table 2.—Ages of the aggregate population, classified by sex, general nativity, and color, by states and territories: 1890 6–103
Table 3.—Ages by periods of years of the aggregate population, classified by sex, by states and territories: 1890 ..... 104, 105
Table 4.—Ages by periods of years of the native white population of native parentage, classified by sex, by states and territories: 1890 ..... 106, 107
Table 5.—Ages by periods of years of the native white population of foreign parentage, classified by sex, by states and territories: 1890 ..... 108, 109
Table 6.—Ages by periods of years of the foreign white population, classified by sex, by states and territories: 1890 ..... 110, 111
Table 7.—Ages by periods of years of the colored population, classified by sex, by states and territories: 1890 ..... 112, 113
Table 8.—Ages by periods of years of the aggregate population, classified by sex, general nativity, and color, for cities having 25,000 inhabitants or more: 1890 114–134

SCHOOL ATTENDANCE 135–192
Table 9.—Total persons attending school during the census year, classified by general nativity and color, by states and territories: 1890 137
Table 10.—Total persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 138
Table 11.—White persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 139
Table 12.—Native white persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 140
Table 13.—Native white persons of native parentage attending school during the census year, classified by sex and age periods, by states and territories: 1890 141
Table 14.—Native white persons of foreign parentage attending school during the census year, classified by sex and age periods, by states and territories: 1890 142
Table 15.—Foreign white persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 143
Table 16.—Colored persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 144
Table 17.—Negro persons attending school during the census year, classified by sex and age periods, by states and territories: 1890 145
Table 18.—Total persons attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 146–149
Table 19.—Native white persons of native parentage attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 150–153
Table 20.—Native white persons of foreign parentage attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 154–157
Table 21.—Foreign white persons attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 158–161
Table 22.—Colored persons attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 162–165
Table 23.—Negro persons attending school during the census year, classified by sex, age periods, and months of school attendance, by states and territories: 1890 166–169
Table 24.—Total persons in the United States attending school during the census year, classified by sex, general nativity, color, age periods, and months of school attendance: 1890 ..... 170, 171
Table 25.—Total persons attending school during the census year, classified by sex and age periods, for cities having 25,000 inhabitants or more: 1890 ..... 172, 173
Table 26.—Native white persons of native parentage attending school during the census year, classified by sex and age periods, for cities having 25,000 inhabitants or more: 1890 ..... 174, 175
Table 27.—Native white persons of foreign parentage attending school during the census year, classified by sex and age periods, for cities having 25,000 inhabitants or more: 1890 ..... 176, 177
Table 28.—Foreign white persons attending school during the census year, classified by sex and age periods, for cities having 25,000 inhabitants or more: 1890 ..... 178, 179
Table 29.—Colored persons attending school during the census year, classified by sex and age periods, for cities having 25,000 inhabitants or more: 1890 ..... 180, 181
Table 30.—Total persons attending school during the census year, classified by sex, age periods, and months of school attendance, for cities having 25,000 inhabitants or more: 1890 182–192

REPORT ON EDUCATION.

Preliminary matter ..... i–viii
Analysis 1–46
General tables 46–141

LETTER OF TRANSMITTAL.

DEPARTMENT OF THE INTERIOR,
OFFICE OF SECRETARY,
DIVISION OF THE ELEVENTH CENSUS,
WASHINGTON, D. C., December 9, 1895.

SIR:

I have the honor to transmit herewith the general tables and explanatory text comprising Part II of the Report on Population, giving the statistics relating to ages, school attendance, illiteracy, inability to speak English, citizenship of foreign born males 21 years of age and over, occupations, soldiers and widows, and inmates of soldiers' homes. A monograph on Education, compiled from reports of schools as returned at the Eleventh Census, forms an appendix to Part II.

Part I contains statistics of the total population by states and territories, counties, and minor civil divisions; subdivisions of sex, general nativity, color, state or territory of birth, country of birth, foreign parentage, conjugal condition, and school, militia, and voting ages, and statistics of dwellings and families, with full explanatory text. The appendix to Part I contains statistics pertaining to the number of Indians in Indian territory and on Indian reservations and to the population of Alaska, which were not included in the general enumeration.

I am, very respectfully, your obedient servant,

CARROLL D. WRIGHT,
Commissioner of Labor in charge.

Hon. HOKE SMITH,
Secretary of the Interior.

PROGRESS OF THE NATION—PART II.

PROGRESS OF THE NATION—PART II.

AGES.

The distribution of the population by single years of age, as derived from the returns of the census enumerators, does not furnish very satisfactory data. The tendency on the part of most persons is to give their age in round numbers. In very many instances, also, the person supplying the information to the enumerator does not know the exact age of every member of the household and can only give the approximate age. This results in a much larger proportion of the population being returned at 25, 30, 35, 40, and 45 years of age, and so on, with a corresponding loss in the number returned for the years immediately preceding and succeeding them than is really the case. This has been apparent at each decennial enumeration, and is readily recognized in the present census; and from the plan now in vogue of enumerating ages to the nearest birthday or, where this can not be determined, of giving the approximate age, no adjustment of the concentration on certain years is possible. No matter how specific the instructions to the enumerators on this point may be, the natural tendency is, and probably always will be, to give the nearest 5 or 10 year period, especially where definite information is not at hand. This can be obviated only, and even then but partially, by requiring the return of ages, so far as possible, by the exact day, month, and year of birth, and allowing a return of the age by the approximate year in only those cases where it is manifestly impossible to ascertain the date of birth, on the assumption that a fairly good approximation is better than no return at all. So far as the exact age can be ascertained for those persons for whom the date of birth can be supplied, to that extent some basis can be reached for determining the probable error in the return of ages for those persons for whom only partial data were obtainable.

The concentration on certain years is not so marked when quinquennial ages only are considered, as shown by the following table, which gives the distribution of the population of the United States on June 1, 1890, by quinquennial ages, as compared with a similar distribution of the population in 1880:

AGE PERIODS.	1890		1880	
	Number.	Per cent.	Number.	Per cent.
All ages	62,622,250	100.00	50,155,783	100.00
Under 5 years	7,634,693	12.19	6,914,516	13.79
5 to 9 years	7,573,998	12.09	6,479,660	12.92
10 to 14 years	7,033,509	11.23	5,715,186	11.39
15 to 19 years	6,557,563	10.47	5,011,415	9.99
20 to 24 years	6,196,676	9.90	5,087,772	10.14
25 to 29 years	5,227,777	8.35	4,080,621	8.14
30 to 34 years	4,578,630	7.31	3,368,943	6.72
35 to 39 years	3,866,161	6.17	3,000,419	5.98
40 to 44 years	3,135,518	5.09	2,468,811	4.92
45 to 49 years	2,731,640	4.36	2,089,445	4.17
50 to 54 years	2,326,262	3.71	1,839,883	3.67
55 to 59 years	1,672,336	2.67	1,271,434	2.53
60 to 64 years	1,458,034	2.33	1,104,219	2.20
65 to 69 years	1,010,110	1.61	725,876	1.45
70 to 74 years	701,751	1.12	495,442	0.99
75 to 79 years	393,062	0.63	281,065	0.56
80 to 84 years	203,851	0.33	146,362	0.29
85 to 89 years	75,240	0.12	49,835	0.10
90 to 94 years	23,645	0.04	16,100	0.03
95 to 99 years	5,648	0.01	4,763	0.01
100 years and over	3,981	0.01	4,016	0.01
Age unknown	162,165	0.26	.....	.....

From the preceding table it appears that for each of the first three quinquennial ages, namely, under 5 years, 5 to 9 years, and 10 to 14 years, the percentage was less in 1890 than in 1880, the largest difference being for those under 5 years of age, or 12.19 per cent of the whole population in 1890 as compared with 13.79 per cent in 1880. The entire body of young persons comprehended by these three age periods, that is, all persons under 15 years of age, constituted only 35.51 per cent of the population in 1890 as against 38.10 per cent in 1880. The percentage was slightly larger in 1890 than in 1880 for persons from 15 to 19 years of age and somewhat less for persons from 20 to 24 years of age. For the older age periods there was uniformly a slightly larger percentage of persons of each of the quinquennial ages in 1890 than there was in 1880.

The average age of the population in 1890 was 25.11 years as compared with 24.13 years in 1880. The average age of the males in 1890 was 25.31 years as against 24.27 years in 1880, while that of females in 1890 was 24.91 years as against 23.98 years in 1880.

Considering the white and colored elements of the population separately, it is seen for the whites that each of the three quinquennial ages comprehended by persons under 15 years of age showed a decrease in the percentage in 1890 as compared with 1880, the percentage of children under 15 years of age being 34.64 in 1890 as compared with 37.15 in 1880. For all the remaining age periods for the whites, with the exception of the period from 20 to 24 years, there has been a slight increase in the percentages. Among the colored the percentage of children under 5 years of age was very much less in 1890 than in 1880, the loss being relatively very nearly twice as great as for the whites. The percentage of colored children from 5 to 9 years of age was also less in 1890 than in 1880, the loss being relatively also slightly larger than for the whites. The percentage of colored persons from 10 to 14 years of age was considerably larger in 1890 than in 1880, this being in direct contrast to white persons of the same age for whom there had been in 1890 relatively a slight loss. Colored persons under 15 years of age constituted 41.85 per cent of all the colored in 1890 and 44.22 per cent of all the colored in 1880. Colored persons from 15 to 19 years of age constituted a much larger percentage of all the colored in 1890 than in 1880, while those between 20 and 29 years of age showed slightly decreased percentages in 1890 as compared with 1880. There were also slight differences in the percentages for the remaining age periods, as shown by the following table:

AGE PERIODS.	WHITE.				COLORED. (a)			
	1890		1880		1890		1880	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.

For the native white the same decreases in the percentages for children under 15 years of age in 1890 are apparent as have already been indicated for the entire white element, this class constituting 39.93 per cent of all the native white in 1890 as against 42.61 per cent in 1880. Native white persons from 15 to 19 years of age constituted a slightly larger percentage in 1890 than in 1880, and native white persons from 20 to 24 years of age a slightly less percentage.

For the foreign white there was in 1890 as in 1880 but a very small percentage under 15 years of age, or 8.02 per cent in 1890 as against 6.45 per cent in 1880. This is to be expected, as practically four-fifths of all the immigrants to this country were 15 years of age and upward when they arrived. Foreign white persons between 20 and 29 years of age constituted a considerably larger percentage in 1890 than in 1880, while for those between 30 and 54 years of age the percentages in 1890 were in each case considerably less than in 1880.

The native white element in 1890 has been still further subdivided into those of native and foreign parentage, but for these two classes no comparison can be made for 1880, as at that census no such distinction was made. The following table shows the number and percentage of native white persons of native and foreign parentage in 1890 of each quinquennial age:

AGE PERIODS.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.	
	Number.	Per cent.	Number.	Per cent.
All ages	34,358,348	100.00	11,503,675	100.00

Native white persons of native parentage constituted, in 1890, a considerably smaller percentage at each quinquennial age up to and including 30 to 34 years than native white persons of foreign parentage, those of native parentage under 15 years of age constituting 37.69 per cent as against 46.64 per cent for those of foreign parentage of the same age. Native white persons of foreign parentage under 35 years of age in 1890 constituted 88.39 per cent of the whole number of such persons as compared with 71.63 per cent of native white persons of native parentage. For each of the remaining age periods those of native parentage have relatively the larger percentage.

The fluctuations in the percentages showing the distribution of the population at the censuses of 1880 and 1890, according to quinquennial ages, especially for the earlier periods of life, are probably due to several causes. One of the most potent reasons for the decline in the proportion of children among native white persons of native extraction is found in the disinclination of native born mothers of the present generation to rear large families. If the data were available, it would probably be found that, relatively considered, the number of children born to native born women of native extraction was considerably less than the number born to any other class of mothers, although it would probably also be found that the proportion of children living at the time the census was taken to the whole number of children of native born women of native extraction was greater. In Massachusetts, where information of this character has been compiled, it was shown by the state census of 1885 that, although a much larger number of native born mothers had had a considerably less number of children than foreign born mothers, a much larger percentage of the whole number of children of native born mothers were living at the time of the state census than of the children of foreign born mothers, the exact percentage of living children of native born mothers being 71.50 and of foreign born mothers, 66.34. Of the children of mothers of purely native parentage, 71.14 per cent were living, and of those of mothers of purely foreign parentage, 67.15 per cent were living. By the same census it was shown that of the whole number of native born women who were or had been married, 20.18 per cent had had no children, as against only 13.27 per cent of foreign born women who were or had been married. (*a*) Another important consideration is found in the great disproportion of the sexes in different parts of the country, females being largely in excess in the older and more easterly states and males in the newer and more westerly states and territories. This is due to the migration westward in large numbers of the native white male element and to the advent since 1820 of more than 15,000,000 of foreigners, principally adults, and largely

a Census of Massachusetts, 1885; Population and Social Statistics, Part II, pages cv, cix, and cxiv.

comprised of males, and of whom considerably more than one-half have come since 1870. The influence of this great body of foreign born is seen in the large proportion of native white persons of foreign parentage found in the earlier periods of life—that is, the children of immigrants who have been born in this country, and in the very small proportion of foreign white persons under 15 years of age. In 1890 somewhat more than one-half of all the native whites of foreign parentage were under 20 years of age and very nearly nine-tenths under 35 years of age; of all the foreign whites in 1890 less than one-tenth were under 15 years of age. There has been, also, an apparent diminution in the number of marriages, proportionally, among native white women of native extraction, but this decline can not be determined with any degree of accuracy, owing to the abnormal conditions just alluded to concerning white persons of foreign birth or extraction. The statistics of conjugal condition in 1890 showed that of all the native white females of native parentage who were 15 years of age and upward, 69.30 per cent were or had been married, as compared with 49.00 per cent for native white females of foreign parentage and 79.24 per cent for foreign white females of the same age, but just what part of these differences can be ascribed to the failure of native born women of native extraction to assume the marriage relation can not be definitely stated. If a comparison is made with females of negro descent who were 15 years of age and upward in 1890, it is found that the percentage of those who were or had been married among this class was only slightly larger, or 69.79 per cent. The greater mortality of the negro race as compared with the whites also has an important bearing upon the question of age distribution. Besides these reasons, the losses and disturbed conditions arising from the civil war should be borne in mind, as well as the fact that to the varying degree of care and accuracy with which each enumeration is made some of the changes noted may be due.

The following table of percentages shows, for 1880 and 1890, the distribution by general nativity and color for certain age periods, being a summary of the preceding tables showing quinquennial ages in detail:

Age unknown	44,893	30,568	940	8,643	4,742

a Persons of negro descent, Chinese, Japanese, and civilized Indians. b Females in excess.

As shown by the above table, it appears for the aggregate population that, with the exception of the period from 15 to 19 years, the males exceeded the females at each quinquennial age up to 80 years. From that point the females were slightly in excess. Among those for whom the age was unknown, the males were largely in excess. The same conditions as just noted were apparent for each element of the population, but in addition the females were in excess for the periods from 20 to 24 years and 25 to 29 years among the native whites of foreign parentage, and for the periods from 20 to 24 years and 40 to 44 years among the colored.

The uneven distribution of the sexes over the country is shown by geographical divisions, as follows:

GENERAL NATIVITY AND COLOR.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.
Aggregate	1,513,510	a45,949	a20,382	827,541	214,861	537,439
Native white—native parents	587,458	a84,599	a4,523	325,687	155,692	195,201
Native white—foreign parents	59,467	a46,228	a2,042	53,415	6,695	47,627
Foreign white	781,849	81,656	20,656	431,821	51,089	196,627
Total colored (b)	84,736	3,222	a34,473	16,618	1,385	97,984

a Females in excess. b Persons of negro descent, Chinese, Japanese, and civilized Indians.

There was a small excess of females in the North Atlantic and South Atlantic divisions in 1890, but in each of the other three divisions there was a large excess of males. In each of these three divisions this excess is common to each element of the population, although by far the larger part of the excess is made up of native white males of native parentage and of foreign white males. Considered as regards the whole number in each class, the proportion of foreign white males in excess is very much larger than that for any other class. In the North Atlantic division the foreign white and colored males were in excess, but this excess was more than offset by the large preponderance of females among the native whites of both native and foreign parentage. In the South Atlantic division foreign white males only were in excess; females were in the majority in each of the other three classes, the excess of females among the colored being especially large. Foreign white males predominated, as compared with foreign white females, in each of the five geographical divisions of the country. With the exception of the South Atlantic division, the colored males were in excess. This excess was due mainly to the Chinese, there being 99,739 more males than females among the Chinese. There were also 1,521 more males than females among

the Japanese and 2,394 more males than females among the civilized Indians reported in the census. There were, on the other hand, 18,918 more females than males among persons of negro descent. The distribution of each of these classes of colored by geographical divisions follows:

COLOR.	The United States.	GEOGRAPHICAL DIVISIONS.				
		North Atlantic.	South Atlantic.	North Central.	South Central.	Western.

a Females in excess. b Includes all persons of negro descent.

The excess of males or females relative to the aggregate population of the several states and territories comprising the five geographical divisions of the country has been considered in detail under "Sex", in Part I, pages lxxi–lxxviii. If each element of the population is so analyzed, it is seen that, although the females were in excess among the native whites of native parentage in the North Atlantic and South Atlantic divisions, there was an excess of males in Maine and Vermont, in the North Atlantic division, and in Delaware, West Virginia, and Florida, in the South Atlantic division. In the remaining states comprising these two divisions the females were in excess. In the states and territories comprising the remaining three divisions the males were uniformly in excess.

Among the native whites of foreign parentage there was also an excess of males in Maine and Vermont, in the North Atlantic division, although the division as a whole showed a large excess of females. In the South Atlantic division there was, as already stated, a small excess of females among the native whites of foreign parentage. This excess was common to Delaware, Maryland, District of Columbia, South Carolina, and Georgia, the remaining states of this division, namely, Virginia, West Virginia, North Carolina, and Florida, showing a slight excess of males. For the remainder of the country, with the exception of Ohio, in the North Central division, and Kentucky and Louisiana, in the South Central division, where females predominated slightly, there was an excess of males.

Among the foreign whites there were three states only, New Hampshire, Massachusetts, and Rhode Island, in the North Atlantic division, in which there was an excess of females. The excess of foreign white females in Massachusetts was especially large, being 30,399, and this was relatively the case in Rhode Island, where there were 4,251 females in excess. The excess of foreign white females in New Hampshire was nominal only, or 700 in all. This excess of females among the foreign whites in these three states is due to the large number of female factory operatives, chiefly Irish and French Canadians, and also to the large number of female servants, principally from the provinces, employed in these states, especially in Massachusetts.

Among the colored there was uniformly an excess of males in the states and territories comprising the North Central and Western divisions. In the other three divisions the excess is variable, and generally small, with the exception of the South Atlantic and South Central divisions, where the negro race predominates.

The distribution by age periods of the excess of males (or females) for each element of the population, for each of the five geographical divisions, is shown in the table on the following page.

a Females in excess. b Persons of negro descent, Chinese, Japanese, and civilized Indians.

The figures contained in this table illustrate the varying conditions with respect to age and sex which govern the population in the different sections of the country, and show very clearly the influence of native and foreign immigration upon its composition. This becomes more apparent when the excess of males (or females) in each geographical division is distributed according to conjugal condition, as shown by the following table:

GEOGRAPHICAL DIVISIONS.	Total.	Single.	Married.	Widowed.	Divorced.	Unknown.
The United States	1,513,510	2,761,588	79,032	a1,339,178	a22,794	34,862
North Atlantic	a45,949	389,668	28,400	a466,604	a5,175	7,762
South Atlantic	a20,382	224,356	a12,366	a228,633	a3,222	a517
North Central	827,541	1,160,853	16,373	a350,482	a9,000	9,797
South Central	214,861	480,373	a2,534	a263,126	a6,020	6,168
Western	537,439	506,338	49,159	a30,333	623	11,652

a Females in excess.

In the whole country there was an excess in 1890 of 2,761,588 single males, 79,032 married males, and 34,862 males for whom the conjugal condition was unknown, this excess of males being partially offset by an excess of 1,339,178 widowed females and 22,794 divorced females, leaving a net excess of 1,513,510 males, as before stated. The excess of single males is common to each geographical division, but among the married the males were in excess in the North Atlantic, North Central, and Western divisions, and females in the South Atlantic and South Central divisions. Widowed females were uniformly in excess in each geographical division, and this was largely the case with divorced females, except in the Western division, where divorced males were slightly in excess. Among those for whom the conjugal condition was unknown, the males were in excess in all but the South Atlantic division.

The distribution of the excess of males (or females) according to conjugal condition is shown, for the United States, by general nativity and color, as follows:

GENERAL NATIVITY AND COLOR.	Total.	Single.	Married.	Widowed.	Divorced.	Unknown.
Aggregate	1,513,510	2,761,588	79,032	a1,339,178	a22,794	34,862
Native white—native parents	587,458	1,371,961	a102,732	a688,704	a14,108	21,041
Native white—foreign parents	59,467	392,441	a245,969	a84,573	a3,322	890
Foreign white	781,849	693,906	415,707	a336,530	128	8,638
Total colored (b)	84,736	303,280	12,026	a229,371	a5,492	4,293

a Females in excess. b Persons of negro descent, Chinese, Japanese, and civilized Indians.

Single males were in excess in 1890 for each element of the population, married males for the foreign white and colored, and married females for the native whites of both native and foreign parentage. Widowed females were in excess in each case, and divorced females, with the exception of the foreign white. Among those for whom the conjugal condition was unknown, males were in excess in all cases.

The following table shows, for the United States, the excess of males (or females) according to conjugal condition, distributed by age periods:

AGE PERIODS.	Total.	Single.	Married.	Widowed.	Divorced.	Unknown.
All ages	1,513,510	2,761,588	79,032	a1,339,178	a22,794	34,862
Under 15 years	337,816	339,193	a1,388	a17	a11	39
15 to 19 years	a69,141	242,886	a297,237	a4,708	a1,073	a9
20 to 24 years	13,110	904,194	a858,964	a28,846	a5,463	2,189

30 to 34 years	272,698	316,521	11,726	a53,020	a5,329	2,800
35 to 44 years	350,617	238,372	293,764	a175,506	a6,062	4,049
45 to 54 years	196,146	68,474	416,922	a289,450	a1,687	1,887
55 to 64 years	130,376	24,571	436,787	a332,734	1,114	638
65 years and over	50,150	2,342	451,526	a405,741	1,883	140
Age unknown	44,893	26,226	4,553	a5,792	82	19,824

a Females in excess.

The excess of single males in 1890 was apparent at each age period, and was largest from 20 to 24 years and next largest from 25 to 29 years, more than one-half of the whole excess of single males being found in these two age periods. Married females were in excess at each age period to 30 years, but for each age period thereafter married males were in excess. The excess of widowed females was common to each age period, and of divorced females to 55 years; from that point divorced males were in excess. Males for whom the conjugal condition was unknown were uniformly in excess at each age period.

The population of cities of 25,000 inhabitants or more in 1890 has been distributed by age periods, and the results for each city given in detail in the general tables. These cities, 124 in number, contained in the aggregate 13,989,568 inhabitants, or a little more than one-fifth of the entire population of the country. Of the whole number of persons in these cities, 4,565,730 were native white persons of native parentage, constituting a little more than one-eighth of all the native whites of native parentage; 4,543,044 were native white persons of foreign parentage, constituting very nearly two-fifths of all the native whites of foreign parentage; 4,029,709 were foreign white persons, constituting not quite one-half of all the foreign white, and 851,085 were colored persons, constituting about one-ninth of all the colored.

The table on the following page shows the population of these 124 cities, taken collectively, subdivided by general nativity and color and distributed by age periods, as compared with similar results for the remainder of the country.

GENERAL NATIVITY, COLOR, AND AGE PERIODS.	124 PRINCIPAL CITIES.		REMAINDER OF COUNTRY.	
	Number.	Per cent.	Number.	Per cent.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Briefly analyzed, it appears for the aggregate population, without regard to general nativity and color, that at each quinquennial age to 20 years the percentages of persons in 1890 were considerably smaller in the 124 cities as a whole than in the remainder of the country, but that at each age period thereafter the percentages were larger in the cities than in the remainder of the country, with the exception of the periods from 55 years and upward. The same conditions were apparent among the native whites of native parentage as for the entire population, but the differences were not quite so marked. Among the native whites of foreign parentage there was in the 124 cities, as compared with the remainder of the country, a slightly larger percentage of persons under 5 years of age, a somewhat smaller percentage of those from 5 to 9 years and from 10 to 14 years of age, a considerably increased percentage at each age period thereafter to 35 years, and a slightly smaller percentage for succeeding age periods. Among the foreign whites the differences were very small to 20 years, persons under that age in the 124 cities constituting 13.74 per cent of the whole number as compared with 13.73 per cent for the remainder of the country. Foreign white persons from 20 to 45 years of age constituted a larger percentage at each age period in the 124 cities than in the remainder of the country, while beyond that point the percentage in the 124 cities was considerably less. Among the colored the percentage of persons under 20 years of age was very much less in the 124 cities than in the remainder of the country, and this was the case at each quinquennial age. Colored persons from 20 to 64 years of age constituted a much larger percentage in the 124 cities, however, but for those 65 years of age and over the percentage in the 124 cities was somewhat less.

The influence of immigration upon the composition of the population is shown very graphically by the following table, which gives the percentage which each element of the population in 1890 constituted of the whole number of persons of each quinquennial age:

AGE PERIODS.	NATIVE WHITE.			Foreign white.	Total colored. (a)
	Total.	Native parents.	Foreign parents.		
All ages	73.23	54.86	18.37	14.57	12.20
Under 5 years	85.05	59.61	25.44	1.13	13.82
5 to 9 years	82.19	58.52	23.67	3.28	14.53
10 to 14 years	79.56	56.37	23.19	5.63	14.81
15 to 19 years	78.60	54.18	24.42	7.95	13.45
20 to 24 years	73.12	51.40	21.72	14.80	12.08
25 to 29 years	68.37	48.68	19.69	20.51	11.12
30 to 34 years	69.95	51.92	18.03	20.58	9.47
35 to 39 years	66.46	53.14	13.32	22.52	11.02
40 to 44 years	62.96	53.97	8.99	27.00	10.04
45 to 49 years	60.82	53.86	6.96	28.84	10.34
50 to 54 years	59.40	53.98	5.42	30.49	10.11
55 to 59 years	60.19	55.91	4.28	31.40	8.41
60 to 64 years	57.99	54.55	3.44	32.76	9.25
65 to 69 years	60.78	57.30	3.48	30.85	8.37
70 to 74 years	63.12	59.62	3.50	28.36	8.52
75 to 79 years	66.05	62.23	3.82	25.75	8.20
80 to 84 years	66.93	62.79	4.14	22.99	10.08
85 to 89 years	66.57	62.26	4 31	22.50	10.93
90 to 94 years	57.69	53.55	4.14	21.68	20.63
95 to 99 years	43.86	40.32	3.54	21.33	34.81
100 years and over	16.43	14.85	1.58	10.05	73.52
Age unknown	59.52	54.15	5.37	15.18	25.30

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Among the population at large, without regard to age, native white persons constituted 73.23 per cent, foreign white persons 14.57 per cent, and colored persons 12.20 per cent. This distribution was approximately maintained for one age period only, from 20 to 24 years. For each of the age periods prior thereto there was a much larger percentage of native white and colored and a relatively smaller percentage of foreign white. For each age period beyond 24 years the percentage of foreign white was much larger than the average without respect to age, and those for the native white and colored correspondingly less. The tendency of the colored to exaggerate their age, especially for those who have gone beyond the allotted time of life, is seen in the increased percentages reported for the age periods from 80 years and upward. This is especially the case for those from 90 to 94 years of age, of whom 20.63 per cent were colored; for those from 95 to 99 years, of whom 34.81 per cent were colored, and for those 100 years and over, of whom 73.52 per cent were colored. Persons 100 years of age and over in 1890 numbered 3,981, of whom 2,927 were colored. More than three-fourths of the persons reported as 100 years of age

and over, or 3,092 in all, were found in the southern states, and of this number very nearly nine-tenths were colored. Of the 5,648 persons from 95 to 99 years of age in 1890, 1,966, or a little more than one third, were colored, and of those from 90 to 94 years of age, or 23,645 in all, 4,879, or a little more than one-fifth, were colored.

SCHOOL ATTENDANCE.

The whole number of persons attending school during any portion of the census year ending May 31, 1890, was 11,674,878, of whom 5,954,142 were males and 5,720,736 were females. White persons numbered 10,667,171, and constituted 91.37 per cent of the total number attending school, and colored persons 1,007,707, or 8.63 per cent. There were 10,153,289 native white persons attending school, constituting 86.97 per cent of the whole number, and 513,882 foreign white persons, constituting 4.40 per cent of the whole number. Native white persons comprised 7,204,755 of native parentage and 2,948,534 of foreign parentage, constituting 61.71 and 25.26 per cent, respectively, of the entire number of persons attending school. The distribution by sex according to general nativity and color does not present marked differences, as shown by the following table:

GENERAL NATIVITY AND COLOR.	BOTH SEXES.		MALES.		FEMALES.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Aggregate	11,674,878	100.00	5,954,142	100.00	5,720,736	100.00
Total white	10,667,171	91 37	5,464,413	91 77	5,202,758	90.95
Native white	10,153,289	86.97	5,196,313	87 27	4,956,976	86.65
Native parents	7,204,755	61.71	3,695,420	62 06	3,509,335	61.34
Foreign parents	2,948,534	25.26	1,500,893	25.21	1,447,641	25.31
Foreign white	513,882	4.40	268,100	4.50	245,782	4.30
Total colored (*a*)	1,007,707	8.63	489,729	8.23	517,978	9.05
Persons of negro descent	999,324	8.56	484,969	8.15	514,355	8.99

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the whole number of persons attending school, 8,330, or 0.07 per cent, were under 5 years of age; 3,726,044, or 31.92 per cent, were from 5 to 9 years; 5,607,358, or 48.03 per cent, were from 10 to 14 years; 2,155,141, or 18.46 per cent, were from 15 to 19 years, and 178,005, or 1.52 per cent, were 20 years of age and over. These figures, together with a similar distribution for males and females, are given in the following table:

AGE PERIODS.	BOTH SEXES.		MALES.		FEMALES.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
All ages	11,674,878	100.00	5,954,142	100.00	5,720,736	100 00
Under 5 years	8,330	0.07	4,245	0.07	4,085	0.07
5 to 9 years	3,726,044	31.92	1,888,039	31.71	1,838,005	32.13
10 to 14 years	5,607,358	48.03	2,831,005	47.55	2,776,353	48 53
15 to 19 years	2,155,141	18.46	1,111,989	18.67	1,043,152	18.24
20 years and over	178,005	1.52	118,864	2.00	59,141	1 03

The following table shows a similar distribution by age periods for each of the principal classes of persons attending school during the census year:

AGE PERIODS.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED. (*a*)		NEGRO. (*b*)	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
All ages	7,204,755	100.00	2,948,534	100.00	513,882	100.00	1,007,707	100.00	999,324	100.00
Under 5 years	4,610	0.06	3,086	0.10	222	0.04	412	0.04	409	0.04
5 to 9 years	2,254,297	31.29	1,057,624	35.87	147,759	28.75	266,364	26.43	264,515	26.47
10 to 14 years	3,345,072	46.43	1,425,997	48.36	297,740	57.94	538,549	53 44	534,864	53.52
15 to 19 years	1,472,714	20.44	434,547	14.74	58,196	11.33	189,684	18.83	187,464	18.76
20 years and over	128,062	1.78	27,280	0.93	9,965	1.94	12,698	1.26	12,042	1.21

a Persons of negro descent, Chinese, Japanese, and civilized Indians. *b* Includes all persons of negro descent.

From this table it is seen that by far the largest proportion of foreign white persons attending school were from 10 to 14 years of age, and that this was also the case with the colored as a class, including persons of negro descent. There was a larger percentage of persons of this age among native white persons, both of native and

foreign parentage, than for any other age period, but the percentage was not nearly as large as for the foreign white. The largest percentage of persons from 5 to 9 years of age was that for native white persons of foreign parentage, and the smallest percentage of those from 15 to 19 years of age was that for foreign white persons.

The following table shows the distribution by age periods and by general nativity and color for males and females, respectively:

SEX AND AGE PERIODS.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED. (a)		NEGRO. (b)	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Males	3,695,420	100.00	1,500,893	100.00	268,100	100.00	489,729	100.00	484,969	100.00
Under 5 years	2,348	0.06	1,591	0.11	112	0.04	194	0.04	192	0.04
5 to 9 years	1,144,455	30.97	536,214	35.73	75,680	28.23	131,690	26.89	130,721	26.96
10 to 14 years	1,694,627	45.86	719,881	47.96	151,903	56.66	264,594	54.03	262,575	54.14
15 to 19 years	767,972	20.78	225,113	15.00	32,980	12.30	85,924	17.54	84,672	17.46

20 years and over	42,044	1.20	9,186	0.63	2,540	1.03	5,371	1.04	5,233	1.02

a Persons of negro descent, Chinese, Japanese, and civilized Indians. *b* Includes all persons of negro descent.

In connection with the age distribution of persons attending school, it is interesting to know the proportion which they bore to the whole number of persons of each specified age. Omitting the small number of persons attending school under 5 years of age and 20 years of age and over, the following table shows, in the aggregate and by general nativity and color, the whole number of persons by age periods from 5 to 19 years, the number attending school at each age, and the percentage of persons attending school of the whole number of persons:

GENERAL NATIVITY, COLOR, AND AGE PERIODS.	Total number of persons.	Number of persons attending school.	Per cent of persons attending school of total persons.
Aggregate:			
5 to 9 years	7,573,998	3,726,044	49.20
10 to 14 years	7,033,509	5,607,358	79.72
15 to 19 years	6,557,563	2,155,141	32.86
Native white—native parents:			
5 to 9 years	4,431,900	2,254,297	50.87
10 to 14 years	3,964,906	3,345,072	84.37
15 to 19 years	3,552,524	1,472,714	41.46
Native white—foreign parents:			
5 to 9 years	1,792,917	1,057,624	58.99
10 to 14 years	1,630,687	1,425,997	87.45
15 to 19 years	1,601,528	434,547	27.13
Foreign white:			
5 to 9 years	248,351	147,759	59.50
10 to 14 years	396,379	297,740	75.11
15 to 19 years	521,295	58,196	11.16
Total colored: (a)			
5 to 9 years	1,100,830	266,364	24.20
10 to 14 years	1,041,537	538,549	51.71
15 to 19 years	882,216	189,684	21.50

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the native whites of native parentage, about one-half of those from 5 to 9 years of age, considerably more than four-fifths of those from 10 to 14 years of age, and a little more than two-fifths of those from 15 to 19 years of age attended school during the census year. Among the native whites of foreign parentage there was a considerably larger percentage attending school from 5 to 9 and from 10 to 14 years of age, and a much less percentage from 15 to 19 years of age, than for the native whites of native parentage, or about three fifths, very nearly nine-tenths, and a little more than one-fourth, respectively. Among the foreign white, there was about the same percentage from 5 to 9 years as for the native whites of foreign parentage, but a much less percentage for

each of the other two age periods. Among the colored, not quite one-fourth of those from 5 to 9 years of age attended school, a little more than one-half of those from 10 to 14 years of age, and about one-fifth of those from 15 to 19 years of age.

The distribution of persons attending school according to months of school attendance follows:

MONTHS OF SCHOOL ATTENDANCE	BOTH SEXES.		MALES.		FEMALES.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Aggregate	11,674,878	100.00	5,954,142	100.00	5,720,736	100.00
1 month or less	660,289	5.65	340,860	5.73	319,429	5.58
2 to 3 months	1,739,136	14.90	935,068	15.70	804,068	14 06
4 to 5 months	2,029,276	17.38	1,090,935	18.32	938,341	16.40
6 months or more	7,246,177	62.07	3,587,279	60.25	3,658,898	63.96

Persons attending school 1 month or less during the census year constituted a little more than 5 per cent of the whole number, those attending from 2 to 3 months not quite 15 per cent, those attending from 4 to 5 months a little over 17 per cent, and those attending 6 months or more about 62 per cent. There were between 1 and 2 per cent more males than females attending school from 2 to 3 months, about 2 per cent more from 4 to 5 months, and very nearly 4 per cent less males attending school 6 months or more. A detailed statement by general nativity and color for persons attending school, distributed according to months of school attendance, follows:

MONTHS OF SCHOOL ATTENDANCE.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED. (a)		NEGRO. (b)	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Aggregate	7,204,755	100.00	2,948,534	100.00	513,882	100.00	1,007,707	100.00	999,324	100 00
1 month or less	374,232	5.19	167,945	5.69	38,745	7.54	79,367	7.88	79,020	7.91
2 to 3 months	1,174,142	16.30	186,649	6.33	39,427	7.67	338,918	33.63	338,093	33.83
4 to 5 months	1,426,818	19.80	280,898	9.53	47,964	9.33	273,596	27.15	272,809	27.30
6 months or more	4,229,563	58.71	2,313,042	78.45	387,746	75.46	315,826	31.34	309,402	30.96

a Persons of negro descent, Chinese, Japanese, and civilized Indians. b Includes all persons of negro descent.

One of the most significant results shown by the above table is the relatively small percentage of native white persons of native parentage who attended school 6 months or more during the census year, as compared with the percentage of native white persons of foreign parentage and of foreign white persons. Of all the native white persons of native parentage, less than three-fifths attended school 6 months or more as compared with more than three-fourths for the other two classes mentioned. This is readily accounted for when it is remembered that very nearly two-fifths of all the native whites of foreign parentage and not quite one-half of all the foreign whites were found in cities of 25,000 inhabitants or more in 1890, as against a little more than one-eighth of all the native whites of native parentage. In other words, a very much larger proportion of the first two classes named were living in closely settled districts, where schools were numerous and easily accessible, and where the law or custom insures attendance at school for a much longer period than is possible in the rural districts, where the purely native element of our population is much the more numerous. Aside from those attending school 1 month or less, there is a very even distribution of colored for the other three periods of school attendance.

Relatively the same conditions as just noted are apparent for males and females separately, as follows:

SEX AND MONTHS OF SCHOOL ATTENDANCE.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED. (a)		NEGRO. (b)	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Males	3,695,420	100.00	1,500,893	100.00	268,100	100.00	489,729	100.00	484,969	100.00
1 month or less	194,340	5.26	85,378	5.69	20,651	7.70	40,491	8.27	40,269	8.30
2 to 3 months	639,158	17.30	104,137	6.94	22,839	8.52	168,934	34.49	168,458	34.74
4 to 5 months	771,438	20.87	159,986	10.66	27,231	10.16	132,280	27.01	131,823	27.18
6 months or more	2,090,484	56.57	1,151,392	76.71	197,379	73.62	148,024	30.23	144,419	29.78
Females	3,509,335	100.00	1,447,641	100.00	245,782	100.00	517,978	100.00	514,355	100.00
1 month or less	179,892	5.13	82,567	5.70	18,094	7.36	38,876	7.50	38,751	7.53
2 to 3 months	534,984	15.24	82,512	5.70	16,588	6.75	169,984	32.82	169,635	32.98
4 to 5 months	655,380	18.68	120,912	8.35	20,733	8.44	141,316	27.28	140,986	27.41
6 months or more	2,139,079	60.95	1,161,650	80.25	190,367	77.45	167,802	32.40	164,983	32.08

a Persons of negro descent, Chinese, Japanese, and civilized Indians. b Includes all persons of negro descent.

Considering the distribution of persons attending school according to months of school attendance in connection with age, the following table is obtained:

MONTHS OF SCHOOL ATTENDANCE.	UNDER 10 YEARS.		10 TO 14 YEARS.		15 YEARS AND OVER.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Aggregate	3,734,274	100.00	5,607,358	100.00	2,333,146	100.00
1 month or less	273,529	7.32	252,259	4.50	134,501	5.76
2 to 3 months	559,369	14.98	741,598	13.22	438,169	18.78
4 to 5 months	561,163	15.03	955,862	17.05	512,251	21.96
6 months or more	2,340,313	62.67	3,657,639	65.23	1,248,225	53.50

The largest percentage of persons attending school 6 months or more was found among those from 10 to 14 years of age and the smallest percentage among those 15 years of age and over. The percentage of children under 10 years of age attending school 6 months or more was only slightly less than that for those from 10 to 14 years of age. A similar statement for each sex is presented in the following table:

SEX AND MONTHS OF SCHOOL ATTENDANCE.	UNDER 10 YEARS.		10 TO 14 YEARS.		15 YEARS AND OVER.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Males	1,892,284	100.00	2,831,005	100.00	1,220,853	100 00
1 month or less	137,473	7 27	129,369	4 57	74,018	6.01
2 to 3 months	279,129	14.75	391,599	13.83	264,340	21.48
4 to 5 months	283,523	14.98	503,823	17.80	303,589	24.66
6 months or more	1,192,159	63.00	1,806,214	63.80	588,906	47.85
Females	1,842,090	100.00	2,776,353	100.00	1,102,293	100.00
1 month or less	136,056	7.39	122,890	4 43	60,483	5.49
2 to 3 months	280,240	15.21	349,999	12.61	173,829	15.77
4 to 5 months	277,640	15.07	452,039	16 28	208,662	18.93
6 months or more	1,148,154	62.33	1,851,425	66.68	659,319	59.81

Analyzing the results for males and females, it is seen that there is a much larger percentage of females 15 years of age and over who attended school 6 months or more than of males of the same age. It will also be noticed that the percentage of females 15 years of age and over who attended school 6 months or more is not so widely different from those reported for females under 10 years and from 10 to 14 years of age who attended school for the same period of months, but that for the males the difference is very much more marked. Of all the females 15 years of age and over who attended school during the census year, 59.81 per cent attended 6 months or more as compared with 62.33 per cent for females under 10 years of age and 66.68 per cent for females from 10 to 14 years of age. These percentages are contrasted with similar percentages for males, being 47.85 per cent for males 15 years of age and over, 63.80 per cent for males 10 to 14 years of age, and 63.00 per cent for males under 10 years of age.

ILLITERACY.

The inquiries regarding a person's ability to read and write are limited in the census to the population 10 years of age and over. For this reason the figures contained in the illiteracy tables do not comprehend children under that age.

The whole number of persons 10 years of age and over in the United States in 1890 was 47,413,559, of whom 6,324,702, or 13.34 per cent, were returned as illiterate—that is, either could read but could not write or could neither read nor write. As compared with 1880, this shows a manifest improvement, there being at that census 36,761,607 persons 10 years of age and over, and of that number 6,239,958, or 16.97 per cent, were returned as illiterate.

Of the whole number of illiterate persons in 1890 there were 1,167,853, or 18.46 per cent, who could read but could not write, and 5,156,849, or 81.54 per cent, who could neither read nor write. In 1880 illiterate persons who could read but could not write numbered 1,316,507, or 21.10 per cent, and those who could neither read nor write 4,923,451, or 78.90 per cent.

Of the whole number of illiterate persons in 1890 the females were somewhat in excess, there being 3,008,222 illiterate males, or 47.56 per cent of the whole number, and 3,316,480 illiterate females, or 52.44 per cent. In 1880 there were 2,966,421 illiterate males, or 47.54 per cent of all the illiterates, and 3,273,537 illiterate females, or 52.46 per cent of all the illiterates.

The following table shows the number of illiterate males and females in 1890, for the whole country, classified by general nativity and color:

GENERAL NATIVITY AND COLOR.	MALE POPULATION 10 YEARS OF AGE AND OVER.			FEMALE POPULATION 10 YEARS OF AGE AND OVER.		
	Total.	Illiterates.		Total.	Illiterates.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	24,352,659	3,008,222	12.35	23,060,900	3,316,480	14.38
Total white	21,578,245	1,517,722	7.03	20,352,829	1,694,852	8.33
Native white	16,796,497	973,408	5.83	16,347,690	1,086,595	6.65
Native parents	12,901,102	888,415	6.89	12,474,664	1,002,308	8.03
Foreign parents	3,895,395	89,993	2.31	3,873,026	84,287	2.18
Foreign white	4,781,748	539,314	11.28	4,005,139	608,257	15.19
Total colored (*a*)	2,774,414	1,490,500	53.72	2,708,071	1,621,628	59.88
Persons of negro descent	2,646,171	1,438,923	54.38	2,682,801	1,603,745	59.78

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Illiterate females in 1890 constituted 14.38 per cent of all females 10 years of age and over and illiterate males 12.35 per cent of all males 10 years of age and over. In 1880 illiterate females constituted 18.16 per cent and illiterate males 15.83 per cent of the total number of each sex 10 years of age and over. As shown by the above table, the percentage of illiterate females was slightly larger than that of illiterate males for each class in 1890, with the single exception of the native white of foreign parentage. In 1880 the printed census report gave the statistics of illiteracy for white and colored males and females only. Comparing the results for these two classes, it is seen that in 1890 the illiterate white males constituted 7.03 per cent of the whole number of white males 10 years of age and over as against 8.59 per cent in 1880. For the females, there were 8.33 per cent of illiterates in 1890 as against 10.22 per cent in 1880. Illiterate colored males constituted 53.72 per cent of all colored males 10 years of age and over in 1890 and 67.32 per cent in 1880. Illiterate colored females constituted 59.88 per cent of the total colored females 10 years of age and over in 1890 and 72.70 per cent in 1880.

The following table shows the distribution of the illiterate population of the United States in 1880 and 1890 by general nativity and color:

GENERAL NATIVITY AND COLOR.	TOTAL ILLITERATE POPULATION 10 YEARS OF AGE AND OVER.			
	1890		1880	
	Number.	Per cent.	Number.	Per cent.
Aggregate	6,324,702	100.00	6,239,958	100.00
Total white	3,212,574	50.79	3,019,080	48.38
Native white	2,065,003	32.65	2,255,460	36.14

Foreign parents	174,280	2.76	.....	.....
Foreign white	1,147,571	18.14	763,620	12.24
Total colored (*a*)	3,112,128	49.21	3,220,878	51.62
Persons of negro descent	3,042,068	48.11	.....	.....

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

The illiterate white population constituted a larger percentage of the whole number of illiterates in 1890 than in 1880, the percentages being, as shown by the above table, 50.79 in 1890 and 48.38 in 1880. This was due to the large number of foreign white immigrants during the decade, illiterate foreign white persons constituting 18.14 per cent of all the illiterates in 1890 as against 12.24 per cent in 1880. Native white illiterates constituted only 32.65 per cent of the whole number of illiterates in 1890 as compared with 36.14 per cent in 1880. Native white illiterates of native parentage in 1890 constituted 29.89 per cent and native white illiterates of foreign parentage 2.76 per cent of the whole number of illiterates. In 1880 this distinction as to parentage for the native white population was not made. The illiterate colored population constituted 49.21 per cent of all the illiterates in 1890 and 51.62 per cent in 1880. Persons of negro descent were tabulated separately in 1890, and the illiterates among this class constituted 48.11 per cent of the total number of illiterates, leaving 1.10 per cent for the illiterate Chinese, Japanese, and civilized Indian population.

The following table shows for each element of the population the number of illiterates and the percentage which they constituted of the total number of persons in each class, both for 1880 and 1890:

GENERAL NATIVITY AND COLOR.	POPULATION 10 YEARS OF AGE AND OVER IN 1890.			POPULATION 10 YEARS OF AGE AND OVER IN 1880.		
	Total.	Illiterates.		Total.	Illiterates.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	47,413,559	6,324,702	13.34	36,761,607	6,239,958	16.97
Total white	41,931,074	3,212,574	7.66	32,160,400	3,019,080	9.39
Native white	33,144,187	2,065,003	6.23	25,785,789	2,255,460	8.75
Native parents	25,375,766	1,890,723	7.45	.....	.....	.....
Foreign parents	7,768,421	174,280	2.24	.....	.....	.....
Foreign white	8,786,887	1,147,571	13.06	6,374,611	763,620	11.98
Total colored (a)	5,482,485	3,112,128	56.76	4,601,207	3,220,878	70.00
Persons of negro descent	5,328,972	3,042,668	57.10	.....	.....	.....

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

With the exception of the foreign white, the percentage of illiterates for each class was smaller in 1890 than in 1880. The decrease in the percentage of illiteracy among the colored is particularly noticeable, there being but 56.76 per cent of illiterates in 1890 as compared with 70.00 per cent in 1880. Among this class, also, there has been an absolute decrease in the number of illiterates, or 3,112,128 in 1890 as compared with 3,220,878 in 1880. The percentage of illiterates among persons of negro descent in 1890 was slightly larger than for the colored as a class, or 57.10 per cent as against 56.76 per cent. Among the foreign white there were 13.06 per cent of illiterates in 1890 as compared with 11.98 per cent in 1880.

As already stated, there has been a decrease in the number of illiterate colored persons in 1890 as compared with 1880, the actual decrease being 108,750, and the percentage of decrease 3.38. There has also been a decrease since 1880 of 190,457 illiterate native white persons, or 8.44 per cent. There has been, on the other hand, an increase of 383,951, or 50.28 per cent, among illiterate foreign white persons, the net increase for the whole body of illiterates in 1890 being 84,744, or 1.36 per cent.

The series of tables following gives, by states and territories, the number and percentage of illiterates, classified by sex, in 1880 and 1890, in the first table; the number and percentage of illiterates among the white, native white, foreign white, and colored population, both in 1880 and 1890, in the second table; and the number and percentage of illiterates among each sex, classified in detail by general nativity and color, including persons of negro descent, for 1890 only, in the succeeding tables.

ILLITERATE POPULATION 10 YEARS OF AGE AND OVER, CLASSIFIED BY SEX: 1880 AND 1890.

a Includes all persons of negro descent.

Classifying the illiterate population in 1890 by age periods, the following table is obtained:

AGE PERIODS.	POPULATION 10 YEARS OF AGE AND OVER.			MALE POPULATION 10 YEARS OF AGE AND OVER.			FEMALE POPULATION 10 YEARS OF AGE AND OVER.		
	Total.	Illiterates.		Total.	Illiterates.		Total.	Illiterates.	
		Number.	Per cent.		Number.	Per cent.		Number.	Per cent.
All ages	47,413,559	6,324,702	13.34	24,352,659	3,008,222	12.35	23,060,900	3,316,480	14.38
10 to 14 years	7,033,509	731,688	10.40	3,574,787	396,489	11.09	3,458,722	335,199	9.69
15 to 19 years	6,557,563	653,554	9.97	3,248,711	351,336	10.81	3,308,852	302,218	9.13

25 to 34 years	9,806,407	1,172,057	11.95	5,123,975	556,284	10.86	4,682,432	615,773	13.15
35 to 44 years	7,051,679	1,056,693	14.98	3,705,648	476,807	12.87	3,346,031	579,886	17.33
45 to 54 years	5,057,902	871,205	17.22	2,627,024	393,420	14 98	2,430,878	477,785	19.65
55 to 64 years	3,130,370	589,219	18.82	1,630,373	259,879	15.94	1,499,997	329,360	21.96
65 years and over	2,417,288	535,955	22.17	1,223,719	224,653	18.21	1,193,569	311,302	26.30
Age unknown	162,165	42,664	26.31	103,529	23,071	22.28	58,636	19,593	33.41

Taking the illiterates as a class, without regard to sex, it is seen that 10.40 per cent of the total number of persons from 10 to 14 years of age, 9.97 per cent of those from 15 to 19 years of age, and 10.84 per cent of those from 20 to 24 years of age in 1890 were illiterate. Beyond this point the percentage of illiterates increases constantly, being 11.95 per cent for those from 25 to 34 years of age, 14.98 per cent for those from 35 to 44 years of age, 17.22 per cent for those from 45 to 54 years of age, 18.82 per cent for those from 55 to 64 years of age, and 22.17 per cent for those 65 years of age and over. For those for whom the age was unknown the percentage of illiterates was 26.31. Comparing males and females, it is seen for the age periods from 10 to 14 years and from 15 to 19 years that the percentage of illiterates among the males was larger than for females in each case, but that for the remaining age periods the percentage of illiterates among the females was uniformly larger, and for the older age periods was very much larger, than that of males.

The following table gives for the whole country the details by age periods for each of the principal elements of the population:

SEX AND AGE PERIODS.	NATIVE WHITE POPULATION OF NATIVE PARENTAGE 10 YEARS OF AGE AND OVER.			NATIVE WHITE POPULATION OF FOREIGN PARENTAGE 10 YEARS OF AGE AND OVER.			FOREIGN WHITE POPULATION 10 YEARS OF AGE AND OVER.			COLORED POPULATION (a) 10 YEARS OF AGE AND OVER.			NEGRO POPULATION (b) 10 YEARS OF AGE AND OVER.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

b Includes all persons of negro descent.

Among illiterate native white persons of native parentage there was a larger percentage of illiterates for those from 10 to 14 years of age than for those from 15 to 19 years of age and from 20 to 24 years of age, but for each age period thereafter there was a constantly increasing percentage. Among each of the other elements of the population there was a slightly increased percentage of illiterates at each age period, except for illiterate native white males of foreign parentage 20 to 24 years of age, illiterate native white females of foreign parentage 15 to 19 years of age, and for illiterate foreign white males 25 to 34 years of age and 35 to 44 years of age, where the percentage of illiterates was in each case slightly less than for the age period immediately preceding. The largest percentages of illiterates were found, as previously stated, among persons of negro descent. Over 80 per cent of this class from 45 to 54 years of age was returned as illiterate, 86.27 per cent of those from 55 to 64 years of age, and 90.18 per cent of those 65 years of age and over. Among the females of this class the percentages of illiterates were even larger, being 87.10 per cent for illiterate females 45 to 54 years of age, 89.91 per cent for those from 55 to 64 years of age, and 92.07 per cent for those 65 years of age and over.

The number and percentage of illiterates in 1890, classified by sex, among each of the principal elements of the population 10 to 14 years of age, 15 to 19 years of age, and 20 years of age and over, respectively, are given in detail, by states and territories, in the tables following.

ILLITERATE NATIVE WHITE POPULATION OF NATIVE PARENTAGE 10 TO 14 YEARS OF AGE, CLASSIFIED BY SEX: 1890.

STATES AND TERRITORIES.	NATIVE WHITE POPULATION OF NATIVE PARENTAGE 10 TO 14 YEARS OF AGE.			NATIVE WHITE MALE POPULATION OF NATIVE PARENTAGE 10 TO 14 YEARS OF AGE.			NATIVE WHITE FEMALE POPULATION OF NATIVE PARENTAGE 10 TO 14 YEARS OF AGE.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the 124 cities considered, the largest percentages of illiterates were found, with few exceptions, in the southern cities, owing almost wholly to the large number of illiterate colored, as shown in the following table, comprising all such cities in which the illiterates constituted more than 10 per cent of all persons 10 years of age and over:

CITIES.	Illiterate persons 10 years and over.	Per cent of illiterate persons of total persons 10 years and over.	Illiterate colored persons (a) 10 years and over.	Per cent of illiterate colored persons of total colored persons 10 years and over.
Augusta, Ga	8,586	32.29	6,913	55.38

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

b Includes 2,049 illiterate foreign white persons, constituting 23.98 per cent of all foreign white persons 10 years of age and over.

In the case of a few of the above cities there was, in addition to the illiterate colored, a considerable number of illiterate native whites of native parentage, there being 1,565 such persons in Augusta, Ga., 1,217 in Atlanta, Ga., 1,483 in Nashville, Tenn., 1,319 in New Orleans, La., 1,596 in Washington, D. C., and 1,220 in Louisville, Ky. There were also 1,340 illiterate native whites of foreign parentage and 5,216 illiterate foreign whites in New Orleans, La., 1,692 illiterate foreign whites in Washington, D. C., and 2,190 illiterate foreign whites in Louisville, Ky. With these exceptions, the number of illiterates among the various elements of the population, aside from the colored, was comparatively small in the cities named.

Other cities having large percentages of illiterates were Fall River, Mass., with 8,882 illiterates, or 15.16 per cent of all persons 10 years of age and over, of whom 8,375 were foreign whites; Scranton, Pa., with 7,380 illiterates, or 12.97 per cent, of whom 6,216 were foreign whites; Holyoke, Mass., with 3,516 illiterates, or 12.71 per cent, of whom 3,285 were foreign whites; Manchester, N. H., with 4,074 illiterates, or 11.22 per cent, of whom 3,856 were foreign whites; and Youngstown, Ohio, with 2,550 illiterates, or 10.23 per cent, of whom 2,188 were foreign whites.

In three cities, namely, Sioux city, Iowa, Lincoln, Neb., and Fort Wayne, Ind., the illiterates constituted less than 2 per cent of all persons 10 years of age and over.

CAN NOT SPEAK ENGLISH.

The statistics of illiteracy afford information as to the number of persons 10 years of age and over who are unable to read and write in any language, but do not furnish data for determining the extent to which persons of suitable age have not acquired, for one reason or another, the ability to speak English. In the present census an inquiry was made as to the number of persons 10 years of age and over who could speak English, and in case a person could not speak English a further inquiry was made as to the particular language spoken. The tabulation of this information has been limited, for want of time, to the number simply who could not speak English, without specifying in detail the various languages spoken by them.

The whole number of persons 10 years of age and over in 1890 who could not speak English was 1,718,496, subdivided by sex, general nativity, and color, as follows:

GENERAL NATIVITY AND COLOR.	BOTH SEXES.		MALES.		FEMALES.	
	Number.	Per cent	Number.	Per cent.	Number.	Per cent.
Aggregate	1,718,496	100 00	858,889	100 00	859,607	100.00
Total white	1,609,069	93.63	773,029	90.00	836,040	97.26
Native white	238,025	13.85	106,533	12.40	131,492	15.30
Native parents	168,149	9.78	75,874	8.83	92,275	10 74
Foreign parents	69,876	4.07	30,659	3.57	39,217	4.56
Foreign white	1,371,044	79 78	666,496	77.60	704,548	81.96
Total colored (*a*)	109,427	6.37	85,860	10.00	23,567	2.74

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the whole number of persons 10 years of age and over in 1890 who could not speak English, very nearly four-fifths, or 79.78 per cent, were foreign white; not quite one-tenth, or 9.78 per cent, were native white of native parentage; 4.07 per cent were native white of foreign parentage, and 6.37 per cent were colored, principally Chinese and Indians.

The number of persons who can not speak English is very evenly divided as to sex, but there is a larger percentage of females for each element of the population except for the colored, where the males largely predominate. Of all the males in 1890 who could not speak English, the colored constituted 10.00 per cent, as against 2.74 per cent of all the females. Native white females who could not speak English constituted 15.30 per cent and foreign white females 81.96 per cent, as against 12.40 and 77.60 per cent, respectively, for males.

The following table shows the percentage of the total number of persons in each class, subdivided by sex, who can not speak English:

GENERAL NATIVITY AND COLOR.	ALL PERSONS 10 YEARS OF AGE AND OVER.			MALES 10 YEARS OF AGE AND OVER.			FEMALES 10 YEARS OF AGE AND OVER.		
	Total.	Can not speak English.		Total.	Can not speak English.		Total.	Can not speak English.	
		Number.	Per cent.		Number.	Per cent.		Number.	Per cent.
Aggregate	47,413,559	1,718,496	3.62	24,352,659	858,889	3.53	23,060,900	859,607	3.73
Total white	41,931,074	1,609,069	3.84	21,578,245	773,029	3.58	20,352,829	836,040	4.11
Native white	33,144,187	238,025	0.72	16,796,497	106,533	0.63	16,347,690	131,492	0.80
Native parents	25,375,766	168,149	0.66	12,901,102	75,874	0.59	12,474,664	92,275	0.74
Foreign parents	7,768,421	69,876	0.90	3,895,395	30,659	0.79	3,873,026	39,217	1.01
Foreign white	8,786,887	1,371,044	15.60	4,781,748	666,496	13.94	4,005,139	704,548	17.59
Total colored (*a*)	5,482,485	109,427	2.00	2,774,414	85,860	3.09	2,708,071	23,567	0.87

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Considered first without regard to sex, it is seen that of the whole number of persons 10 years of age and over in 1890 there were 3.62 per cent who could not speak English. Of the whole number of foreign white persons 10 years of age and over there were 15.60 per cent who could not speak English, and 2 per cent of the colored. Of the native white of either native or foreign parentage 10 years of age and over, there was less than 1 per cent in 1890 who could not speak English.

Foreign white males 10 years of age and over in 1890 who could not speak English constituted 13.94 per cent of all foreign white males of that age, and foreign white females 10 years of age and over 17.59 per cent of all foreign white females of that age. Colored males who could not speak English constituted 3.09 per cent of all colored males 10 years of age and over, and colored females who could not speak English 0.87 per cent of all colored females 10 years of age and over. The whole number of males and females who could not speak English constituted 3.53 and 3.73 per cent, respectively, of all the males and females 10 years of age and over.

The presence of the French Canadians in the New England and border states, the Pennsylvania Dutch, the French of Louisiana, and the Mexicans of the southwest, mainly in New Mexico, Texas, Arizona, and Colorado, who through their peculiar environment have not learned to speak English, even though of native birth and parentage, is shown by the table on the following page, which gives, by states and territories, the number of persons who can not speak English and the percentage of the whole number of persons 10 years of age and over in 1890, classified by general nativity and color.

TOTAL PERSONS 10 YEARS OF AGE AND OVER WHO CAN NOT SPEAK ENGLISH, CLASSIFIED BY GENERAL NATIVITY AND COLOR: 1890.

STATES AND TERRITORIES.	ALL PERSONS 10 YEARS OF AGE AND OVER.			NATIVE WHITE PERSONS OF NATIVE PARENTAGE 10 YEARS OF AGE AND OVER.			NATIVE WHITE PERSONS OF FOREIGN PARENTAGE 10 YEARS OF AGE AND OVER.			FOREIGN WHITE PERSONS 10 YEARS OF AGE AND OVER.			COLORED PERSONS (a) 10 YEARS OF AGE AND OVER.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

In the North Atlantic division there were 4.08 per cent and in the North Central division 4.32 per cent of the whole number of persons 10 years of age and over in each division in 1890 who could not speak English. In both of these divisions the foreign whites constituted by far the largest proportion of the non-English speaking class, numbering 509,670 out of a total of 567,106 persons in the North Atlantic division, and 690,756 out of a total of 730,752 persons in the North Central division. The presence of the descendants of the Pennsylvania Dutch who have not learned to speak the English language is apparent from the number of native white persons of native parentage reported in Pennsylvania as being unable to speak English. There were in Maine, also, a considerable number of native white persons, both of native and foreign parentage, principally descendants of French Canadians, who could not speak English.

In the South Atlantic division less than 1 per cent of the population 10 years of age and over in 1890 could not speak English, and this would be very nearly the case in the South Central division if it were not for the French and their descendants in Louisiana, and of the Mexicans and their descendants in Texas; including these two classes, the percentage of persons who could not speak English in 1890 was 2.18. Of the 48,146 native white persons of native parentage in the South Central division who could not speak English, 41,390 were found in Louisiana and 6,403 in Texas. In the same way, 19,874 native white persons of foreign parentage and 1,496 persons of the same class, out of a total of 21,836 native white persons of foreign parentage in the South Central division who could not speak English, were found in Texas and Louisiana, respectively. There were also 15,353 colored persons in Louisiana in 1890 who could not speak English, principally creole negroes and their descendants.

In the Western division not quite one-tenth, or 9.23 per cent, of the population 10 years of age and over in 1890 could not speak English, principally due to the Mexicans and their descendants in New Mexico, Arizona, Colorado, and California, and also to the Chinese and Indians generally in this division. In New Mexico very nearly two-thirds, or 65.11 per cent, and in Arizona very nearly three-tenths, or 28.23 per cent, of the population 10 years of age and over could not speak English. Among the native whites of native parentage, 69.95 per cent in New Mexico, 5.53 per cent in Arizona, and 4.71 per cent in Colorado could not speak English, while among the native whites of foreign parentage, 31.09 per cent in New Mexico and 20.32 per cent in Arizona could not speak English. This was also the case with respect to foreign white persons, 39.25 per cent in New Mexico and 54.06 per cent in Arizona not being able to speak English. For colored persons in this division, comprising chiefly Chinese and Indians, the percentages of those who could not speak English were large in almost every case, being 81.09 per cent for New Mexico, due to the Pueblo Indians, more than 50 per cent for Oregon, California, Idaho, and Utah, and very nearly 50 per cent for Washington.

Distributing the total number of persons who can not speak English, subdivided by sex according to age periods, the following table is obtained:

AGE PERIODS.	BOTH SEXES.		MALES.		FEMALES.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
All ages	1,718,496	100.00	858,889	100.00	859,607	100 00
10 to 14 years	98,704	5 74	49,222	5.73	49,482	5.76
15 to 19 years	137,747	8.02	69,754	8.12	67,993	7.91
20 to 24 years	195,383	11.37	103,682	12.07	91,701	10.67
25 to 34 years	409,049	23.80	222,450	25.90	186,599	21.71
35 to 44 years	305,106	17.76	156,487	18.22	148,619	17.29
45 to 54 years	230,171	13.39	106,366	12.38	123,805	14.40
55 to 64 years	167,706	9.76	71,472	8.32	96,234	11.19
65 years and over	162,925	9.48	70,136	8.17	92,789	10.79
Age unknown	11,705	0.68	9,320	1.09	2,385	0.28

Of the whole number of persons in 1890, without regard to sex, who could not speak English, a little more than one-fourth were less than 25 years of age, very nearly one-fourth, or 23.80 per cent, were from 25 to 34 years of age, 17.76 per cent were from 35 to 44 years of age, 13.39 per cent were from 45 to 54 years of age, and very nearly one-tenth were from 55 to 64 years of age and 65 years of age and over, respectively. There was a slightly larger percentage of males for the earlier age periods to 45 years, and for the remaining age periods a slightly smaller percentage than for females.

The following table shows the distribution by age periods of all persons who can not speak English, without regard to sex, according to general nativity and color:

AGE PERIODS.	NATIVE WHITE—NATIVE PARENTS.		NATIVE WHITE—FOREIGN PARENTS.		FOREIGN WHITE.		TOTAL COLORED. (a)	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
All ages	168,149	100.00	69,876	100.00	1,371,044	100.00	109,427	100.00
10 to 14 years	26,340	15.66	22,221	31.80	43,595	3.18	6,548	5.98
15 to 19 years	22,347	13.29	15,684	22.44	91,910	6.70	7,806	7.13
20 to 24 years	19,113	11.37	9,433	13.50	155,544	11.35	11,293	10.32
25 to 34 years	29,486	17.54	12,156	17.40	336,150	24.52	31,257	28.57
35 to 44 years	24,010	14.28	5,756	8.24	248,343	18.11	26,997	24.67
45 to 54 years	18,733	11.14	2,267	3.24	196,219	14.31	12,952	11.84
55 to 64 years	14,009	8.33	1,139	1.63	147,117	10.73	5,441	4.97
65 years and over	13,485	8.02	1,041	1.49	145,251	10.59	3,148	2.88
Age unknown	626	0.37	179	0.26	6,915	0.51	3,985	3.64

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

The percentages of native white persons of native parentage who can not speak English are quite evenly distributed among all age periods, but for native white persons of foreign parentage by far the larger proportion is found among the earlier age periods. Among the foreign white the reverse is true, and this is largely the case among the colored, but not to the same extent as for the foreign white.

The number of persons who can not speak English, and percentage of all persons 10 years of age and over, living in each of the 124 cities having 25,000 inhabitants or more in 1890, is shown by the following table:

CITIES.	ALL PERSONS 10 YEARS OF AGE AND OVER.

Lacrosse, Wis	18,921	1,914	10.12

Of all the cities considered, Milwaukee, Wis., had the largest percentage of persons who could not speak English. In that city very nearly one-fifth, or 19.72 per cent, of the population 10 years of age and over, in 1890, could not speak English, comprising principally Germans and secondarily Poles. The next largest percentage was found in Manchester, N. H., where 17.31 per cent could not speak English, comprised almost wholly of French Canadians. This is also true of Fall River, Mass., where the French Canadian element is also strong, and in which the percentage of persons who could not speak English was next largest to that of Manchester, or 13.58 per cent. Besides these three cities there are eight other cities, namely, Davenport, Iowa, Detroit, Mich., Buffalo, N. Y., San Antonio, Tex., Portland, Ore., Holyoke, Mass., San Francisco, Cal., and Lacrosse, Wis., in which persons who could not speak English constituted more than one-tenth of the population 10 years of age and over in 1890.

CITIZENSHIP OF FOREIGN BORN MALES 21 YEARS OF AGE AND OVER.

This is the first time that information regarding the citizenship of foreign born males of voting age has been obtained as a part of the decennial census of this country. In view of the constantly increasing body of foreign born which is being added each year to our population, and especially as by far the greater proportion consists of males of adult age, information of this character becomes absolutely essential in order to determine, approximately at least, the extent to which the potential voter of foreign birth has taken steps toward acquiring citizenship.

The whole number of males of voting age, that is, 21 years of age and over, in 1890 was 16,940,311, of whom 4,348,459, or 25.67 per cent, were of foreign birth. These 4,348,459 foreign born adult males constituted very nearly one-half, or 47.01 per cent, of the entire foreign born element of the United States in 1890.

The following table shows the number and percentage of foreign born males 21 years of age and over in the United States in 1890 who are aliens, who have been naturalized, or who have taken out their first papers:

CITIZENSHIP.	Number.	Per cent.
Total	4,348,459	100.00
Aliens	1,189,452	27.35
Naturalized	2,545,753	58.54
First naturalization papers filed	236,061	5.43
Unknown	377,193	8.68

Of the whole number of adult males of foreign birth in 1890, therefore, considerably more than one-half, or 58.54 per cent, have become naturalized and are citizens of this country, 5.43 per cent have taken out their first naturalization papers, that is, have indicated their intention of becoming citizens, while for a little less than one-tenth, or 8.68 per cent, no information regarding citizenship was obtained. These three classes combined represent very nearly three-fourths, or 72.65 per cent, of all the foreign born males of voting age. The remaining one-fourth, or 27.35 per cent, are aliens, that is, males of suitable age who were reported in the census of 1890 as not having taken the first steps necessary to acquire citizenship. The comparatively large proportion represented by this alien element, numbering 1,189,452, is due, in part at least, to the excessive immigration in the years immediately preceding the census year. The following table shows, for each state and territory, the percentage of foreign born males 21 years of age and over who are aliens, who have been naturalized, or who have taken out their first papers, the totals of each line equaling 100 per cent:

STATES AND TERRITORIES.	Aliens.	Naturalized.	First naturalization papers filed.	Unknown.

New Mexico	35.42	52.89	4.54	7.15
Arizona	51.63	38.81	2.21	7.35
Utah	26.24	59.62	6.40	7.74
Nevada	39.71	54.08	2.45	3.76
Idaho	31.11	55.23	7.22	6.44
Washington	28.78	51.16	11.84	8.22
Oregon	35.87	47.56	7.16	9.41
California	46.38	43.32	4.25	6.05

It is seen from the table that in 1890 the largest percentages of aliens were found in the New England states and in the Rocky Mountain states and territories, and that the smallest percentages of aliens were found in the states of the Upper Mississippi Valley and on the Plains—that is, the states comprising the North Central division. In Maine, New Hampshire, and Arizona a little more than one-half of the whole number of foreign born adult males were aliens and in Rhode Island a little less than one-half. In Vermont, Massachusetts, Connecticut, Pennsylvania, Delaware, Florida, New Mexico, Nevada, Oregon, and California the percentages of aliens are also large, constituting in each case more than one-third of the whole number of adult males of foreign birth. The smallest percentages of aliens were found in Indiana and Oklahoma.

Of the whole number of foreign born males of voting age, 1,799,774, or 41.39 per cent, were found in the 124 cities having 25,000 inhabitants or more in 1890. The same cities also contained 540,066 aliens, or 45.40 per cent of all the aliens in the United States. The percentage of aliens of the total foreign born males of voting age in these 124 cities is 30.01, as against 27.35 per cent for the country at large. In other words, the proportion of aliens in the principal cities of the United States is somewhat greater than in the country as a whole.

The following table shows, for each of the 28 cities having 100,000 inhabitants or more in 1890, the percentage of foreign born males 21 years of age and over who are aliens, who have been naturalized, or who have taken out their first papers, the totals of each line equaling 100 per cent:

CITIES.	Aliens.	Naturalized.	First naturalization papers filed.	Unknown.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*
The 28 cities	30.23	58.00	4.45	7.32

Rochester, N. Y.	24.00	61.26	5.51	9.23
St. Paul, Minn.	15.54	65.83	10.89	7.74
Kansas city, Mo.	26.19	57.76	6.15	9.90
Providence, R. I.	50.83	39.26	4.18	5.73
Denver, Colo.	29.76	53.61	5.63	11.00
Indianapolis, Ind.	6.51	76.95	3.17	13.37
Allegheny, Pa.	31.20	56.37	5.07	7.36

The percentage of aliens in these 28 cities, or 30.23 per cent, is not essentially different from that already indicated for the 124 cities having 25,000 inhabitants or more, or 30.01 per cent. In Providence the percentage of aliens is 50.83; that is, a little more than one-half of all the foreign born males of voting age in that city in 1890 were aliens. In San Francisco and Boston the aliens constitute more than two-fifths of the foreign born males of voting age, and in Pittsburg and New York more than one-third. Indianapolis had the smallest percentage of aliens, or 6.51 per cent only, more than three-fourths of all the adult males of foreign birth in that city having become naturalized.

As already stated, the aliens number 1,189,452, and constitute more than one-fourth of all the foreign born males of adult age. The following table shows for the United States the number and percentage of aliens in 1890 who had been in this country less than 1 year, 1, 2, 3, or 4 years, 5 to 9 years, 10 to 14 years, and 15 years and over:

YEARS.	Number.	Per cent.
Total	1,189,452	100.00
Less than 1 year	65,621	5.52
1 year	96,502	8.11
2 years	129,539	10.89
3 years	130,714	10.99
4 years	97,087	8.16
5 to 9 years	316,600	26.62
10 to 14 years	121,599	10.22
15 years and over	209,148	17.58
Unknown	22,642	1.91

From this table it appears that considerably more than one-half of all the aliens in 1890 had been in this country 5 years or more, and, so far as length of residence is concerned, are eligible to citizenship. That is to say, 316,600, or 26.62 per cent of all the aliens, had been in this country from 5 to 9 years; 121,599, or 10.22 per cent, from 10 to 14 years, and 209,148, or 17.58 per cent, 15 years or more. The whole number of aliens who had been in this country 5 years and over is 647,347, or 54.42 per cent of all the aliens.

The percentage of aliens in the several states and territories who had been in the United States 5 years or more can be readily seen from the table on the following page, in which the percentages of aliens for each period of residence are given in detail.

STATES AND TERRITORIES.	Less than 1 year.	1 year.	2 years.	3 years.	4 years.	5 to 9 years.	10 to 14 years.	15 years and over.	Unknown.

California	1.40	2.92	5.15	5.80	4.96	26.45	20.18	26.50	6.64

In the North Atlantic division the aliens in 1890 who had been in this country 5 years or more constituted 49.86 per cent of all the aliens, although more than 60 per cent of the aliens in Maine, Vermont, and Rhode Island and very nearly 60 per cent of the aliens in Massachusetts had been in this country 5 years or more. In New Jersey and Pennsylvania, on the other hand, but little more than 40 per cent of the aliens had been here for the same period.

In the North Central division, with the exception of Missouri, there is not a very marked difference in the percentages of aliens in the several states of that division who had been in the United States at least 5 years, the percentage for the division being 53.97, or very nearly similar to that for the country at large. The percentage for Missouri is 68.71, the next highest being 58.60 for Wisconsin, while the smallest percentage in this division is 47.02 for Minnesota.

In the Western division very nearly two-thirds of all the aliens had been in this country 5 years or more. This proportion is fully maintained in New Mexico, Arizona, Utah, and Idaho, and is considerably exceeded in Nevada, California, and Oregon, particularly in Nevada, where the proportion is very nearly four-fifths. In Colorado, on the other hand, the proportion is less than two-fifths, and in Montana, Wyoming, and Washington it is less than one-half. It will also be noticed for this division that the percentage of aliens for whom no information was returned as to the number of years in the United States is unusually high, it being in the case of Idaho and California more than 6 per cent.

In the South Atlantic and South Central divisions the percentage of aliens who had been in this country upward of 5 years is considerably in excess of the percentage for the country as a whole, except in Delaware, Virginia, West Virginia, and Florida. The alien element in these two divisions is comparatively small, however, and the percentages do not have much significance on that account.

Considering the alien element in the 124 principal cities taken collectively, it is found that the percentage of aliens in these cities who had been in this country 5 years or more is practically the same as for the United States as a whole, as shown by the following table:

YEARS.	Number.	Per cent.
Total for the 124 cities...	540,066	100.00
Less than 1 year	27,205	5.04
1 year	39,689	7.35
2 years	59,296	10.98
3 years	63,340	11.73
4 years	49,756	9.21
5 to 9 years	156,546	28.99
10 to 14 years	57,590	10.66
15 years and over	78,376	14.51
Unknown	8,268	1.53

The following table shows, for each of the 28 cities having 100,000 inhabitants or more in 1890, the percentages of aliens who had been in this country for each of the periods considered:

Allegheny, Pa	6.61	8.89	9.66	13.11	7.54	31.62	7.87	13.82	0.88

Of all the cities considered, New Orleans has the highest percentage of aliens who had been in this country 5 years or more, or more than three-fourths of all the aliens in that city. The percentage is very nearly as large, also, in San Francisco, St. Louis, and Louisville. The smallest percentages are found in Minneapolis, St. Paul, Buffalo, and Omaha, where only about one-third of the aliens had been in the United States 5 years and upward.

Broadly stated, one-third of all the aliens in the United States in 1890 were unable to speak the English language. In other words, out of a total of 1,189,452 aliens, 388,192, or 32.64 per cent, were reported as not able to speak English. The percentage of aliens who can not speak English differs widely in the several states and territories, as shown by the following table:

STATES AND TERRITORIES.	ALIENS.	
	Can speak English.	Can not speak English.
	Per cent.	*Per cent.*
The United States	67.36	32.64
North Atlantic division	70.98	29 02

Oregon	43.73	56.27
California	51.17	48.83

The largest percentage of aliens who can not speak English is found in the Rocky Mountain states and territories and in Texas and Florida. The percentage is naturally larger, as a rule, in the northern states than in the southern states. It is largest of all in Arizona, where 63.66 per cent of all the aliens could not speak English. The next largest percentages are found in Texas, or 60.54 per cent; in Oregon, or 56.27 per cent, and in California, or 48.83 per cent. These large percentages are probably due, in great part, to the presence of the Chinese in the western states and of Mexicans in Texas.

The percentage of aliens who can not speak English is a trifle less for the 124 principal cities, taken collectively, than for the country at large, or 30.49 for the principal cities, as compared with 32.64 for the country as a whole.

The following table shows the percentage of aliens who can not speak English in each of the 28 cities having 100,000 inhabitants or more in 1890:

CITIES.	ALIENS.		CITIES.	ALIENS.	
	Can speak English.	Can not speak English.		Can speak English.	Can not speak English.
	Per cent.	*Per cent.*		*Per cent*	*Per cent.*
The 28 cities	68.11	31.89	Washington, D. C	92 09	7.91
			Detroit, Mich	65 56	34 44
New York, N. Y	63 33	36.67	Milwaukee, Wis	42.64	57.36
Chicago, Ill	69.55	30.45	Newark, N. J	62.59	37 41
Philadelphia, Pa	80.20	19.80	Minneapolis, Minn	77 20	22.80
Brooklyn, N. Y	73.47	26.53	Jersey city, N. J	73 27	26.73
St. Louis, Mo	77.12	22.88	Louisville, Ky	83.39	16.61
Boston, Mass	93.35	6.65	Omaha, Neb	70.90	29.10
Baltimore, Md	65.42	34.58	Rochester, N. Y	72 47	27.53
San Francisco, Cal	43.06	56.94	St. Paul, Minn	71.33	28.67
Cincinnati, Ohio	65 95	34 05	Kansas city, Mo	78.52	21 48
Cleveland, Ohio	59 55	40.45	Providence, R. I	90 48	9.52
Buffalo, N. Y	52.37	47.63	Denver, Colo	72.59	27.41
New Orleans, La	72.92	27.08	Indianapolis, Ind	73.14	26.86
Pittsburg, Pa	62.65	37.35	Allegheny, Pa	66.13	33 87

The largest percentages are found in Milwaukee and San Francisco, where more than one-half of all the aliens can not speak English, and the smallest percentages in Boston, Washington, and Providence, where the aliens who can not speak English constituted in each case less than 10 per cent of all the aliens.

Briefly recapitulated, it appears, first, that the foreign born males of voting age numbered in 1890 more than four and one-third millions, and constituted very nearly one-half of all the foreign born in this country; second, that very nearly 1,200,000, or more than one-fourth of all the foreign born males of voting age, are aliens; third, that of this alien element considerably more than one-half have been in this country 5 years and over; and fourth, that very nearly one-third of all the aliens can not speak English.

The following table shows the distribution of the male alien element of our population according to country of birth, giving the number and percentage of aliens born in each country respectively:

COUNTRY OF BIRTH.	Number.	Per cent.	COUNTRY OF BIRTH.	Number.	Per cent.

If the number of aliens born in each of the principal countries could be compared with the whole number of males of voting age born in the same countries, the proportion of aliens among the potential voters of each of the various nationalities contributing principally to our foreign born population could be exactly stated. The foreign born males of voting age have not been separately tabulated according to country of birth, however, and this comparison can only be made with the whole number of persons, including women and children, born in each country. The relative tendency toward citizenship of the adult male element of the respective nationalities, therefore, can only be approximately ascertained.

The following table shows, for the United States, the total number of persons, including women and children, born in each of the principal countries, the number of aliens born in the same countries, and the percentage of aliens of the total number of persons of each nationality:

PRINCIPAL COUNTRIES OF BIRTH.	Number of persons born as specified.	Number of aliens born as specified.	Per cent of aliens of total persons.
Total	9,249,547	1,189,452	12 86

a Includes Great Britain, not specified

Of all the nationalities considered, the Chinese had in 1890 assumed the duties and responsibilities of citizenship to a less extent than any other, nearly nine-tenths of the whole number of Chinese in the country being aliens. As a matter of fact, practically all the Chinese males of adult age are undoubtedly aliens. Next to the Chinese, the largest proportions of aliens to total persons are found among the Italians and Hungarians. Of these two nationalities in 1890 very nearly two-fifths of the total number, and probably more than two-thirds of the males of voting age, were aliens. Of Austrians about one-fourth, and of Russians and Mexicans a little less than one-fourth, of the total number in 1890 were aliens. In all probability from one-third to one-half of all the males of voting age for these three nationalities were aliens.

On the other hand, those countries which have contributed to our foreign born element in the greatest numbers, namely, Germany, Ireland, Canada and Newfoundland, England, Norway, Sweden, and Scotland, had in 1890 relatively the smallest proportion of aliens to the whole number of persons of those nationalities. This is particularly the case regarding Ireland and Germany, which together have contributed over one-half of the total foreign born element, and which had in 1890 the smallest percentages of aliens of all the countries considered.

The following table shows the number and percentage of aliens in the 124 principal cities for each of the principal countries of birth, together with the percentage of total persons in the same cities, for purposes of comparison:

PRINCIPAL COUNTRIES OF BIRTH.	Number of aliens in the United States born as specified.	Number of aliens in the 124 principal cities born as specified.	Per cent of aliens in the 124 principal cities of total aliens born as specified.	Per cent of persons in the 124 principal cities of total persons born as specified.
Total	1,189,452	540,066	45.40	44.13
Canada and Newfoundland	142,313	46,061	32.37	31.36
Mexico	17,732	961	5.42	7.97
England (*a*)	105,738	48,979	46 32	40.70

Other countries	25,772	10,739	41.67	32.22

a Includes Great Britain, not specified.

In the case of the Hungarians, Italians, Austrians, and Poles the percentage of aliens in the 124 principal cities is considerably less than the percentage of the whole number of persons of those nationalities living in the same cities. Of all the Hungarians in the United States, 44.78 per cent were found in the 124 principal cities in 1890 as compared with 28.30 per cent of aliens of Hungarian birth. The Italian element in these same cities in 1890 constituted 58.79 per cent of the whole number of persons of Italian birth, while the aliens of Italian birth in the principal cities constituted only 48.30 per cent of all the aliens of that nationality. The percentage of aliens of Austrian birth in the 124 principal cities is over 6 per cent less than the percentage of the entire element of Austrian birth in the principal cities, and that of aliens of Polish birth very nearly 5 per cent less than the percentage of all persons of Polish birth in the same cities. This is also true as regards aliens of Mexican and Chinese birth, 5.42 per cent of all the aliens of Mexican birth and 39.18 per cent of all the aliens of Chinese birth being in the principal cities as against 7.97 per cent of all the Mexicans and 40.19 per cent of all the Chinese.

With these exceptions, there is relatively a larger proportion of aliens of the several nationalities found in the 124 principal cities than of the whole body of persons of the same nationalities. This is particularly the case with the Bohemians, 62.43 per cent of all the aliens of that nationality being found in the principal cities as compared with 48.32 per cent of all the Bohemians, including women and children, in the cities.

The following table shows the percentage of aliens of the total number of persons of each nationality living in the 124 principal cities as compared with the percentage living outside of these cities and in the country at large:

PRINCIPAL COUNTRIES OF BIRTH.	Per cent of aliens of total persons in the United States born as specified.	TOTAL PERSONS AND ALIENS IN THE 124 PRINCIPAL CITIES BORN AS SPECIFIED.			TOTAL PERSONS AND ALIENS OUTSIDE OF THE 124 PRINCIPAL CITIES BORN AS SPECIFIED.		
		Total persons.	Aliens.	Per cent of aliens of total persons.	Total persons.	Aliens.	Per cent of aliens of total persons.

a Includes Great Britain, not specified.

The aliens of Hungarian birth living in the 124 principal cities constituted a very much smaller percentage of the total number of persons of Hungarian birth than in the territory outside of those cities, or 23.65 per cent in the cities as compared with 48.59 per cent outside of the cities. They were closely followed in this respect by aliens of Italian birth, or 31.88 per cent in the cities as compared with 48.68 per cent outside of the cities. The aliens of Mexican, Austrian, Chinese, and Polish birth also constituted a somewhat smaller percentage of the total number of persons of those nationalities living in the principal cities than those outside of the cities. In all other cases there was a slightly larger percentage of aliens of total persons living in the 124 principal cities than in the remainder of the country.

OCCUPATIONS.

The statistics of occupations, as derived from the returns made by the census enumerators on the population schedule, comprehend only those persons 10 years of age and over who were reported as being occupied in some form of remunerative work. Children under 10 years of age are not included, although they were often reported as having been employed at gainful labor during a portion of the census year. This was the practice observed at the censuses of 1870 and 1880, and it has been adhered to in the census of 1890.

Before discussing the results of the present census with respect to occupations, the classification adopted in 1890 as compared with that of preceding censuses should be explained, and a brief statement made concerning the limitations to be borne in mind in considering the results presented in the tables of occupations in this report as compared with the return of employés given in the census reports relating to Manufactures and to Mineral Industries.

Prior to 1850 no effort was made to obtain through the census enumerators detailed statements as to the occupations of the people, although in 1820 and again in 1840 the number of persons engaged in certain general classes of occupations was called for.

At the census of 1850 an inquiry was made on the population schedule as to the occupations of free males over 15 years of age, the printed results comprising 323 occupation designations in an alphabetical list, without classification according to the number engaged in each of the great classes, as agriculture, manufactures, and the like, and without any details as to their age or nationality.

Again in 1860 a similar alphabetical list of the occupations of free persons over 15 years of age, without distinction of sex, was printed in the report for that census, this list comprising 584 occupation designations, but without classification or description of the persons so occupied.

At the census of 1870 occupations were tabulated for all persons 10 years of age and over, subdivided by sex, age, and nationality, and classified under four general heads, namely: agriculture; professional and personal services; trade and transportation; and manufactures and mechanical and mining industries. The presentation of occupations in 1870 covered 338 occupation designations.

In 1880 the classification of occupations used in the census of 1870 was maintained, but the number of occupation designations was reduced to 265. Similarly, the subdivision by sex, age, and principal nationalities was observed, but the number of separate nationalities was considerably less in 1880 than in 1870.

At the present census (1890) no radical departure was made from the general plan of classifying occupations adopted in 1870 and 1880, but several changes were made for various reasons, and the number of occupation designations still further reduced to 218.

The several changes in the classification of certain occupation designations under each of the general class heads in 1890, as compared with the classification shown in the printed reports of the censuses of 1870 and 1880, are summarized as follows:

First, by the transfer to "Agriculture, fisheries, and mining" of fishermen and oystermen, lumbermen and raftsmen, miners, quarrymen, and wood choppers, from "Manufacturing and mechanical industries".

Second, by the transfer to "Domestic and personal service" of barkeepers (1870 only), employés in warehouses (1880 only), laborers in trade and transportation (1870 only), saloon keepers and bartenders (1880 only), and stewards and stewardesses, from "Trade and transportation", and of engineers and firemen and ice cutters (1870 only), from "Manufacturing and mechanical industries".

Third, by the transfer to "Trade and transportation" of auctioneers, card writers (1870 only), claim agents (1870 only), collectors and claim agents (1880 only), clerks and copyists not otherwise described, clerks in government offices, clerks in hotels and restaurants, employés of companies not specified (1870 only), hostlers, intelligence office keepers (1870 only), livery stablekeepers, messengers, officials of companies not specified (1870 only), and shorthand writers (1870 only), from "Domestic and personal service", and of clerks and bookkeepers in manufacturing establishments, officials of mining companies (1870 only), and rag pickers, from "Manufacturing and mechanical industries".

Fourth, by the transfer to "Manufacturing and mechanical industries" of apprentices to barbers, dentists, and learned professions (1870 only) and whitewashers, from "Domestic and personal service", and of apprentices in stores (1870 only), from "Trade and transportation".

There has been no change in the classification of persons engaged in professional pursuits, given in 1870 and 1880 under the heading of "Professional and personal services", except to classify them in 1890 under the heading of "Professional service", separate from persons engaged in "Domestic and personal service".

The classification in 1890 of persons engaged in mining and fishing and in securing the products of the forests with persons engaged in agricultural pursuits, under the heading of "Agriculture, fisheries, and mining", is one mainly of convenience, which was also the governing reason for their classification originally in 1870, and again in 1880, with persons engaged in manufacturing and mechanical industries. On the score of convenience solely, therefore, it has seemed desirable to include them in a small class, so far as number of occupation designations is concerned, where they can be readily found, and from which they can be easily excluded, if it is desired to determine the number of persons engaged simply in agricultural pursuits.

With respect to the remaining transfers of occupations from one class to another which have been made, no explanation seems especially necessary, with one exception. This exception relates to the classification under "Trade and transportation" of accountants, bookkeepers, clerks, and copyists of all kinds, irrespective of where they may happen to be employed. In the case of the comparatively small number of persons who are occupied in the purely clerical part of the work incident to the production of goods or the conduct of professional and personal services, governmental or otherwise, there does not seem to be any particularly valid reason for reporting their number separate from that of the great body of clerks and bookkeepers who, on broad grounds, are engaged in practically the same kind of work. Clerks in government offices, as well as those in the offices of professional people, are, after all, largely occupied in keeping the "accounts" of the respective pursuits with which they are associated, and in this aspect have been very properly consolidated with bookkeepers and clerks engaged in purely mercantile pursuits.

The force of this statement becomes more apparent when it is considered that the primary purpose of the classification of occupations in 1890 has been to show, so far as the returns of the census enumerators would permit, the character of the service rendered or kind of work done rather than to indicate the place of employment or the particular article made or worked upon. From the standpoint of the "individual" return, this is really the only practicable basis for classifying occupations, especially as from the returns of the manufacturing, mechanical, and mining industries we are enabled to secure through the census an approximately accurate statement of the average number of persons of all sorts and kinds engaged in each particular industry, as derived from the returns of the establishments directly engaged in such production, and from which it is also possible to secure, wherever necessary, a much more minute subdivision and correct classification of the labor essential to the production of any specified kind of goods.

Following the idea expressed in the preceding paragraph, every effort was made in the printed instructions to guide the enumerator in making his returns of the occupations of the people in such manner as to enable this office to classify occupations according to the character of the service rendered, as will be plainly apparent in the following extracts from the printed instructions to enumerators:

A person's occupation is the profession, trade, or branch of work upon which he chiefly depends for support, and in which he would ordinarily be engaged during the larger part of the year. General or indefinite terms which do not indicate the kind of work done by each person must not be used. You are under no obligation to give a person's occupation just as he expresses it. If he can not tell intelligibly what he *is*, find out what he *does*, and describe his occupation accordingly. The name of the place worked in or article made or worked upon should not be used as the sole basis of the statement of a person's occupation. Endeavor to ascertain always *the character of the service rendered or kind of work done*, and so state it.

Be careful to distinguish between the *farm laborer*, the *farmer*, and *farm overseer;* also between the *plantation laborer*, the *planter*, and *plantation overseer*. These three classes must be kept distinct, and each occupation separately returned.

Do not confuse the *agricultural laborer*, who works on the farm or plantation, with the general or day laborer, who works on the road or at odd jobs in the village or town. Distinguish also between *wood choppers* at work regularly in the woods or forests and the laborer who takes a job occasionally at chopping wood.

Make a separate return for *farmers* and *planters* who own, hire, or carry on a farm or plantation, and for *gardeners, fruit growers, nurserymen, florists, vine growers*, etc., who are engaged in raising vegetables for market or in the cultivation of fruit, flowers, seeds, nursery products, etc.

Avoid the confusion of the *garden laborer, nursery laborer*, etc., who hires out his services, with the proprietor gardener, florist, nurseryman, etc., who carries on the business himself or employs others to assist him.

Return as *dairymen* or *dairywomen* those persons whose occupation in connection with the farm has to do chiefly with the dairy. Do not confuse them with employés of butter and cheese or condensed milk factories, who should be separately returned by some distinctive term.

Do not include *lumbermen, raftsmen, log drivers*, etc., engaged in hauling or transporting lumber (generally by water) from the forest to the mill, with the employés of lumber yards or lumber mills.

For *fishermen* and *oystermen* describe the occupation as accurately as possible. Be careful to avoid the return of fishermen on vessels as sailors. If they gain their living by fishing, they should be returned as "fishermen", and not as sailors.

Make a careful distinction between the *coal miners* and *miners of ores;* also between miners generally and *quarrymen*.

Do not return *proprietors* or *officials* of mining or quarrying companies as miners or quarrymen, but state their business or official position accurately.

Distinguish *journalists, editors*, and *reporters* from *authors* and other *literary persons* who do not follow journalism as a distinct profession.

Distinguish carefully between *housekeepers*, or women who receive a stated wage or salary for their services, and *housewives*, or women who keep house for their own families or for themselves, without any gainful occupation. The occupation of grown daughters who assist in the household duties without fixed remuneration should be returned as *"Housework—without pay"*.

As stated under agricultural pursuits, do not confuse *day laborers*, at work for the city, town, or at odd jobs, with the agricultural laborer, at work on the farm or plantation or in the employ of gardeners, nurserymen, etc. State specifically the *kind* of work done in every instance.

Clerks in hotels, restaurants, and saloons should be so described and carefully distinguished from *bartenders*. In many instances bartenders will state their occupation as "clerk" in wine store, etc., but the character of the service rendered by such persons will readily determine whether they should be classed as "bartenders" or not.

Stationary engineers and *firemen* should be carefully distinguished from *engineers* and *firemen* employed on locomotives, steamboats, etc.

Soldiers, sailors, and *marines* enlisted in the service of the United States should be so returned. Distinguish between officers and enlisted men, and for civilian employés return the kind of service performed by them.

Do not confound a clerk with a salesman, as is often done, especially in dry goods stores, grocery stores, and provision stores. Generally speaking, the persons so employed are to be considered as salesmen, unless the bulk of their service is in the office on the books and accounts; otherwise they should be returned as *salesman—dry goods; salesman—groceries*, etc.

Stenographers and *typewriters* should be reported separately, and should not be described simply as "clerks".

Distinguish carefully between *bank clerks, cashiers in banks*, and *bank officials*, describing the particular position filled in each case. In no case should a *bank cashier* be confounded with cashiers in stores, etc.

Distinguish between foremen and overseers, packers and shippers, porters and helpers, and errand, office, and messenger boys in stores, etc., and state in each case the character of the duties performed by them, as *foreman—wholesale wool house; packer—crockery; porter—rubber goods; errand boy—dry goods; messenger boy—telegraph*.

Distinguish *traveling salesmen* from salesmen in stores, and state the kind of goods sold by them.

Return *boarding* and *livery stable keepers* separately from *hostlers* and other stable employés.

Officials of railroad, telegraph, express, and *other companies* should be separately returned and carefully distinguished from the employés of such companies.

Telegraph operators, telephone operators, telegraph linemen, telephone linemen, electric light men, etc., should be kept distinct, and a separate return made for each class.

In reporting occupations pertaining to manufactures there are many difficulties in the way of showing the kind of work done rather than the article made or the place worked in. The nature of certain occupations is such that it is well nigh impossible to find properly descriptive terms without the use of some expression relating to the article made or place in which the work is carried on.

Do not accept "maker" of an article or "works in" mill, shop, or factory, but strive always to find out the particular work done.

Describe the proprietor of the establishment as a "manufacturer", and specify the branch of manufacture, as *cotton manufacturer*, etc. In no case should a manufacturer be returned as a "maker" of an article.

Distinguish between *butchers*, whose business is to slaughter cattle, swine, etc., and *provision dealers*, who sell meats only.

Distinguish also between *glovers, hatters*, or *furriers*, who actually make or make up in their own establishments all or part of the gloves, hats, or furs which they sell, and the persons who simply deal in but do not make these articles.

Do not use the words "factory operative", but specify in every instance the kind of work done, as *cotton mill—spinner; silk mill—weaver*, etc.

Do not describe a person in a printing office as a "printer" where a more expressive term can be used, as *compositor, pressman, press feeder,* etc.

Make the proper distinction between a *clock* or *watch "maker"* and a *clock* or *watch "repairer"*. Do not apply the word "jeweler" to those who make watches, watch chains, or jewelry in large establishments.

Avoid in all cases the use of the word "mechanic", and state whether a *carpenter, mason, house painter, machinist, plumber,* etc.

Do not say "finisher", "molder", "polisher", etc., but state the article finished, molded, or polished, as *brass finisher, iron molder, steel polisher,* etc.

Distinguish between *dressmakers, seamstresses, tailoresses,* etc.

The distinction to be made between *housewives, housekeepers,* and those assisting in *housework* has already been stated. For the large body of persons, particularly young women, who live at home and do nothing, make the return as "No occupation". With respect to infants and children too young to take any part in production or to be engaged in any stated occupation, distinguish between those at home and those attending school. For those too young to go to school, or who for some reason did not attend school during the census year, write the words *At home,* and for those who attended school during some part of the school year write the words *At school—public,* or *At school—private,* according to the kind of school. If taught by a governess or tutor, it should be so stated

The doing of domestic errands or family chores out of school hours, where a child regularly attends school, should not be considered an occupation. But if a boy or girl, whatever the age, is earning money regularly by labor, contributing to the family support, or appreciably assisting in mechanical or agricultural industry, the kind of work performed should be stated.

It is at once obvious, therefore, that it is impossible to have any substantial agreement between the returns of occupations on the population schedule and the statistics of persons employed derived from the returns relating to Manufactures, Mineral Industries, and other industrial operations where the establishment, and not the individual, is the basis of tabulation. The census report on Population in 1880 gives at length, under "Remarks upon the tables of occupations", the reasons for the seeming discrepancies between the results derived from the two widely different sources of information, the establishment and the individual, which are reproduced in part as follows:

Comparison of the numbers reported in the tables of occupations with the numbers found under corresponding titles in the tables of manufactures will discover discrepancies of very important extent which require to be here accounted for, not only in justification of these tables, but for the additional light which such an investigation throws upon the industrial capacity of the country.

Not only do important discrepancies exist, but they are found to be of two kinds, of diametrically opposite direction. In one class of cases the numbers reported in the tables of occupations appear to be too large; in the other, too small.

First, however, it needs to be stated just what constitutes a discrepancy. A failure in the numbers reported in the one place and in the other to balance exactly is not a discrepancy; on the contrary, this is to be expected; and if the numbers are found to be in excess in the proper set of tables, and to be in excess to only the proper extent, this furnishes statistical proof of a high character. The tables in which the numbers should thus be generally found in excess are the occupation tables. The reason for the excess being found in these tables and not in the others is that the schedule of manufactures gives an average return of the number of "hands employed", while the statistics of occupations are taken from a count of individuals upon the population schedule, and present, therefore, a maximum return, embracing, as they do, artisans of every class out of employment, temporarily disabled, or for some other reason not included in the actual return of any establishment.

The degree to which such excess should extend will depend, within certain limits, upon the nature of the special occupation, as well as upon the general condition of manufacturing industry throughout the country at the time.

First. Those cases where the numbers in the tables of occupations do not exceed those in the tables of manufactures, but even fall below them. Instances of this kind are principally confined to the returns of factory operatives.

A portion of these omissions undoubtedly may be accounted for by the large number returned under the head of "Mill and factory operatives not specified", as well as by the number of "Employés of manufacturing establishments not specified"; but, in the main, the explanation of the discrepancies is found in the fact that women and children employed in factories are omitted in large numbers.

Thus, omissions may take place either through the failure of the enumerators to ask the questions relating to occupation concerning such persons, assuming that they have no avocation outside their homes, or from the indisposition of the persons themselves or the heads of the families to speak of them as in employment. Especially in the case of children, who are part of the time in school and part of the time in the mill, would the mother or father be likely to give a preference to the former over the latter mode of statement, particularly when, as in tens of thousands of cases the country over, the child comes within the period of life respecting which there is a legal requirement of school attendance.

When we come, however, to occupations pursued mainly by adults, and, indeed, almost exclusively by adult males, like the trades of carpenter, blacksmith, mason, or painter, or the professions of lawyer, physician, or clergyman, the force of this cause is no longer felt.

Second. Those instances where the numbers appearing in the tables of occupations exceed those in the tables of manufactures by more than the probable or possible difference between a maximum and an average return. Unlike the class first noted, these discrepancies affect mainly the statistics of those occupations which are pursued singly, or by twos and threes, out of large mills and factories, and even in a considerable degree out of shops. Discrepancies of this character in no degree discredit the statistics of occupations. They arise from the fact that the return of "productive industry" is not, as indeed it is not expected to be, a complete return of the mechanical production of the country.

The census attempts the enumeration of mechanical industry only as it is carried on in shops, and thus fails to embrace that large body of individual labor which is not attached to distinct "establishments of productive industry". Moreover, the census law establishes a minimum (namely, the value of $500 annually), below which the production of shops shall not be returned.

Thus, the trades of blacksmith, carpenter, mason, painter, and, in a somewhat smaller degree, of plumber, locksmith, harness maker, are largely pursued by persons working singly and not occupying for the purpose of their respective trades what would be popularly recognized as "an establishment of productive industry", perhaps having only a chest of tools in some room of the house, and perhaps also engaged in their trades for only one season of the year and producing to less than the value of $500. The census has never obtained a full report of the production of these trades so far as they are pursued out of shops or factories.

Again, in making such comparisons between the tables of occupations and those of manufactures great care must be taken to ascertain whether the titles taken for the purpose really correspond. In some cases, where the apparent correspondence is greatest, the quantities are, in fact, not commensurable. An example may be found in the brick and tile manufacture. It would at first seem that the "hands employed" should answer to the "brick and tile makers" in the tables of occupations; but, on the contrary, a considerable portion of the hands employed in large brick yards, not infrequently exceeding, indeed, the number of craftsmen, are classed and known as common laborers, and are so returned in the census.

In the same way a factory producing fine furniture may report 100 hands employed, but of these only 80 may be cabinet makers in the usual, and indeed proper, sense of that term, while the others may be simply unskilled laborers, or painters, varnishers, and locksmiths. In a currier's shop not all the hands are necessarily curriers in the craftman's sense of that term. All textile factories employ persons who are not "operatives"—yard hands, watchmen, millwrights, or mechanics, and simple laborers, it may be, in considerable numbers.

There are, in addition, certain industries respecting which peculiar difficulties arise, from the distinct nature of the several avocations pursued under one roof in the same establishment. Thus, it might be supposed that the manufacture of "agricultural implements" is sufficiently distinct to secure a reasonably close comparison between the number of "hands employed" and the number of "agricultural implement makers" borne on the tables of occupations. But this is not so. A large establishment producing agricultural implements is really divided into a number of shops or factories, where perfectly distinct trades are carried on. There is the foundry, where the iron parts of the machine are cast, and the men working herein will report their occupation as that of foundrymen. There are carpenters' shops, where the wooden parts are made and shaped by carpenters, who call themselves by this term and no other. There are also machine shops, paint shops, etc., where the artisans employed know themselves as machinists or mechanics, or as painters and varnishers, and not as makers of agricultural implements. As a result of the peculiarities of this branch of industry, the "hands employed" in the statistics of manufactures will exceed many times over the number of persons reporting themselves as "agricultural implement makers". An examination of the schedules from those towns where this industry is pursued will reveal the operation of this cause.

In addition to the apparent deficiencies or discrepancies which have been noted, one general remark will suffice in explanation of many of the entries in the tables in respect to the accuracy of which question may naturally arise.

It must be borne in mind that the number of persons who are reported under a certain specified occupation does not necessarily embrace all the persons who perform the duties usually associated with that title, but only those who discharge such duties to the exclusion of other gainful occupations, or at least as their principal or sole professed means of support.

The organization of labor and the subdivision of industry vary in respect to completeness and minuteness with each successive community. As communities advance in industrial character functions become separated and distinct occupations become recognized. This country, from its peculiar conditions, presents almost every degree between the two extremes of industrial development in this particular. In many of the communities of the land it is difficult to draw distinctions much finer than those between the agricultural, the mining, the mechanical, and the commercial pursuit or profession. Indeed, even this is not always practicable, since it is matter of notoriety that in many of the states of the Union, and those not among the newest, the occupations of carpenter and farmer, or blacksmith and farmer, or farmer and fisherman, are frequently united in one person. In larger and more prosperous communities a clear separation between such occupations takes place; yet the carpenter, for instance, in nine out of ten counties in the United States, performs half a dozen functions which in cities are recognized as belonging to distinct trades.

If, therefore, we look at those occupations which emerge as distinct employments only in communities where the organization of industry and the subdivision of labor are carried to a high degree, the number of persons engaged will appear to be impossibly small unless the above considerations are borne carefully in mind.

Other seeming discrepancies, which demand at least an allusion here, occur where persons are returned as of certain special occupations in states where it is notorious that the industries represented are not carried on; or, again, where persons, not more than one, two, or five in number, are returned in a state under a description which implies a large body of workmen. An adequate explanation of all cases of this general nature is found in the consideration that the census takes account of persons where they are actually residing, and assigns them to their habitual occupation, whether it is being at the time pursued or not.

In the enumeration of hundreds of thousands of persons out of health or out of employment, traveling, or visiting friends in other states, it is inevitable that such apparent anomalies should arise.

The foregoing remarks will suffice to show the general plan pursued in tabulating the occupations of the people, as well as determining the limitations of the figures themselves when considered with respect to apparently similar data derived from entirely dissimilar sources.

OCCUPATIONS BY SEX.

The whole number of persons 10 years of age and over engaged in gainful occupations in 1890 was 22,735,661, constituting 36.31 per cent of the entire population of the country and 47.95 per cent of all persons 10 years of age and over. In 1880 there were 17,392,099 persons 10 years of age and over engaged in gainful occupations, constituting 34.68 per cent of the total population and 47.31 per cent of the whole number of persons 10 years of age and over at that census.

Of the 22,735,661 persons engaged in gainful occupations in 1890, 18,821,090 were males and 3,914,571 were females, constituting 58.69 and 12.81 per cent, respectively, of the whole number of males and females and 77.29 and 16.97 per cent, respectively, of all males and females 10 years of age and over. In 1880 there were 14,744,942 males and 2,647,157 females engaged in gainful occupations, constituting 57.78 and 10.74 per cent, respectively, of all males and females and 78.70 and 14.69 per cent of those of each sex 10 years of age and over.

The above figures are given in detail as follows:

SEX AND CENSUS YEARS.	Total population.	Population 10 years of age and over.	Persons 10 years of age and over engaged in gainful occupations.	PER CENT OF PERSONS ENGAGED IN GAINFUL OCCUPATIONS OF—	
				Total population.	Population 10 years of age and over.
Both sexes:					
1890	62,622,250	47,413,559	22,735,661	36.31	47.95
1880	50,155,783	36,761,607	17,392,099	34.68	47.31
Males:					
1890	32,067,880	24,352,659	18,821,090	58.69	77.29
1880	25,518,820	18,735,980	14,744,942	57.78	78.70
Females.					
1890	30,554,370	23,060,900	3,914,571	12.81	16.97
1880	24,636,963	18,025,627	2,647,157	10.74	14.69

The following table shows for 1880 and 1890, by states and territories, the total number of persons 10 years of age and over, and the number and percentage of such persons engaged in gainful occupations:

STATES AND TERRITORIES.	POPULATION 10 YEARS OF AGE AND OVER.		PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		PER CENT OF PERSONS ENGAGED IN GAINFUL OCCUPATIONS OF POPULATION 10 YEARS OF AGE AND OVER.	
	1890	1880	1890	1880	1890	1880
The United States	47,413,559	36,761,607	22,735,661	17,392,099	47 95	47.31

California	989,896	681,062	544,165	376,505	54.97	55.28

a Dakota territory.

The largest proportion of the population 10 years of age and over engaged in gainful occupations in 1890 was found in Montana, the second largest in Wyoming, and the third largest in Nevada. In each of these three states over 60 per cent of the population 10 years of age and over in 1890 were at work. In all the remaining states and territories of the Western division, with the exception of New Mexico and Utah, more than 50 per cent of the population 10 years of age and over in 1890 were at work, there being from 55 to 60 per cent in Washington, Colorado, Arizona, and Idaho, and from 50 to 55 per cent in California and Oregon. These large proportions are due to the preponderance of males in this section of the country, and also to the relatively small percentage of females engaged in gainful occupations there, owing partly to the character of its industrial pursuits.

In the North Atlantic division more than one-half of the population 10 years of age and over in 1890 were engaged in gainful occupations in Rhode Island, Massachusetts, New Hampshire, Connecticut, and New York, while in the remaining states of this division from 47 to 50 per cent were so occupied. These large proportions are due to the manufacturing interests in these states, in which large numbers of women and children find employment.

Excluding the District of Columbia, where the large proportion of persons at work is due to the number of women in government offices, there were five states in the South Atlantic and South Central divisions having more than 50 per cent of their population 10 years of age and over in 1890 at work, namely, South Carolina, Louisiana, Georgia, Mississippi, and Alabama.

Of the states of the North Central division, North Dakota was the only one in which more than 50 per cent of the population 10 years of age and over in 1890 were at work.

In the southern states these large proportions are due to the employment of women and children in the fields, while the large proportion in North Dakota is principally due to the same causes stated for the states and territories comprising the Western division.

The proportion of the population 10 years of age and over engaged in gainful occupations in 1890 as compared with 1880 has increased or decreased according to the section of the country considered. In the northern and eastern sections the proportion has generally increased, owing to the large increase in the number of women engaged in gainful occupations in 1890, while in the southern and western sections the proportion has decreased, principally on account of the very much smaller number of children employed in the southern states and the change in the character of the population of the western states, there being a somewhat larger proportion of females in those states in 1890 as compared with 1880.

The following table gives by states and territories the number and percentage of males and females 10 years of age and over engaged in gainful occupations at the censuses of 1880 and 1890:

STATES AND TERRITORIES.	MALE POPULATION 10 YEARS OF AGE AND OVER IN 1890.			MALE POPULATION 10 YEARS OF AGE AND OVER IN 1880			FEMALE POPULATION 10 YEARS OF AGE AND OVER IN 1890.			FEMALE POPULATION 10 YEARS OF AGE AND OVER IN 1880.

a Dakota territory.

The variations in the proportion of males engaged in gainful occupations in the different states and territories are due to several causes. In the extreme western states and territories there is relatively but a small proportion of minors, so that the proportion of males 10 years of age and over at work is very much larger than in other states and territories, and this proportion is only partly equaled in the eastern states, where manufacturing pursuits largely predominate and where relatively large numbers of young persons find employment. In the intervening states, north and south, the proportion is large or small, according to the relative influence of the causes stated.

The largest percentage of males 10 years of age and over at work in 1890 was 89.41 in Montana, followed by 87.94 per cent in Wyoming, 85.34 per cent in Washington, 85.24 per cent in Colorado, 85.10 per cent in Nevada, and 83.56 per cent in Arizona. The first eastern state having a large proportion of males occupied was Rhode Island, which in 1890 had 83.24 per cent of its male population 10 years of age and over at work. This was followed by 82.62 per cent in Idaho and 82.07 per cent in California, which were succeeded by 81.99 per cent in New Hampshire and 81.69 per cent in Connecticut, both in the North Atlantic division. New Mexico, in the Western division, came next, with 81.15 per cent, and was closely followed by three eastern states, namely, Massachusetts with 81.07 per cent, New Jersey with 80.81 per cent, and New York with 80.56 per cent. Besides the above, there were only two states in which more than four-fifths of the male population 10 years of age and over in 1890 were engaged in gainful occupations, these being North Dakota with 80.54 per cent and Delaware with 80.13 per cent.

The remaining states and territories, classified according to the percentage of males 10 years of age and over at work, follow in the order named: 79 per cent—Louisiana, Pennsylvania, Oregon. 78 per cent—Vermont, South Carolina, Maryland, Georgia, Maine. 77 per cent—Michigan, District of Columbia, Alabama, Minnesota, South Dakota. 76 per cent—Oklahoma, Illinois, Nebraska. 75 per cent—Ohio, North Carolina, Wisconsin, Florida, Utah. 74 per cent—Mississippi, Indiana, Virginia, Missouri. 73 per cent—Tennessee, Kentucky, Texas, Iowa. 72 per cent—Arkansas, Kansas. 71 per cent—West Virginia.

The largest proportion of females at work in 1890 was that for the District of Columbia, the females at work there constituting 32.17 per cent of all females 10 years of age and over, due almost wholly to the employment of women in the departments of the national government. The next largest percentages were 31.81 in South Carolina, 29.26 in Rhode Island, 27.72 in Mississippi, 27.64 in Massachusetts, 27.20 in Louisiana, 24.44 in Georgia, 24.18 in Alabama, 23.10 in New Hampshire, 23.09 in Connecticut, 21.09 in New York, and 20.87 in Maryland. There is no other state or territory in which the females at work constituted one-fifth of the total females 10 years of age and over in 1890. These large proportions are readily accounted for by the employment of women and children in the fields in the southern states and in the mills and workshops in the northern states.

The remaining states and territories, classified according to the percentage of females 10 years of age and over at work, follow in the order named: 19 per cent—North Carolina, Florida, New Jersey. 17 per cent—Virginia. 16 per cent—Maine, Pennsylvania, Delaware. 15 per cent—Colorado, California. 14 per cent—Vermont, Minnesota, Montana, Illinois, North Dakota, Nevada. 13 per cent—Wisconsin, Ohio. 12 per cent—Arkansas, Tennessee, Wyoming, Michigan, Kentucky, Nebraska. 11 per cent—Missouri, Iowa, Texas, Washington, South Dakota, Oregon. 10 per cent—Utah, Indiana. 9 per cent—Arizona, Kansas. 8 per cent—Idaho, West Virginia. 7 per cent—New Mexico. 5 per cent—Oklahoma.

Compared with 1880, the proportion of males at work has increased in all the states of the North Atlantic division, but in the South Atlantic and South Central divisions the only increases in the proportion were in Maryland and the District of Columbia. In the North Central division there has been an increase in the proportion of males at work in Ohio, Illinois, Wisconsin, and Minnesota, and in the Western division in all but four states and territories, namely, Colorado, Arizona, Idaho, and Oregon. The only states which do not show an increase in the proportion of females at work in 1890, as compared with 1880, were South Carolina, Georgia, and Florida, in the South Atlantic division, and Alabama, Mississippi, Louisiana, and Texas, in the South Central division. These losses in the proportion of persons of either sex at work are due in the case of males in the northern and western states to the changing character of the population and the nature of the occupations followed there, and in the southern states to the smaller proportion of young persons at work in 1890 as compared with the proportion reported at the preceding census.

The differences in the proportion of children and adults at work at the two censuses named will be more apparent if the proportion of children who were at work in 1890 is compared with the proportion at work in 1880, as shown by the table on the following page.

STATES AND TERRITORIES.	MALE POPULATION 10 TO 14 YEARS OF AGE IN 1890.			MALE POPULATION 10 TO 15 YEARS OF AGE IN 1880.			FEMALE POPULATION 10 TO 14 YEARS OF AGE IN 1890.			FEMALE POPULATION 10 TO 15 YEARS OF AGE IN 1880.

a Dakota territory.

It will be noticed in the preceding table that, owing to a difference in the classification of ages with respect to occupations at the two censuses, a direct comparison of children at work can not be made. Making allowance for the additional year covered by the figures for 1880, it is apparent that throughout the country there was a very much smaller proportion of children at work in 1890 than in 1880. Out of a total of 3,574,787 males from 10 to 14 years of age in the United States in 1890, there were but 400,586, or 11.21 per cent, reported as engaged in gainful occupations, and out of a total of 3,458,722 females from 10 to 14 years of age in 1890, those at work numbered but 202,427, or 5.85 per cent. At the census of 1880 there were reported 825,187 males 10 to 15 years of age at work, or 24.44 per cent, out of a total of 3,376,114 males between the ages specified, and 293,169 females 10 to 15 years of age at work, or 8.96 per cent, out of a total of 3,273,369 females between the ages specified.

Excluding the children who were at work, and comparing by states and territories the number and percentage of males and females 15 years of age and over at work in 1890 with those 16 years of age and over at work in 1880, the table on the following page is obtained.

STATES AND TERRITORIES.	MALE POPULATION 15 YEARS OF AGE AND OVER IN 1890.			MALE POPULATION 16 YEARS OF AGE AND OVER IN 1880.			FEMALE POPULATION 15 YEARS OF AGE AND OVER IN 1890.			FEMALE POPULATION 16 YEARS OF AGE AND OVER IN 1880.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.

a Dakota territory.

Bearing in mind the slight difference in the age classification, it will be seen that the proportion of males at work in 1890 does not differ materially from the proportion of males at work in 1880, except in some of the southern states, where it is considerably less. The difference in the proportion in these states, which contain a large colored population, is due in great measure to the employment of children in the fields, which was more prevalent in 1880, and also to the fact that owing to the higher age limit at that census there would be necessarily a somewhat larger proportion of the whole number at work. With respect to females, it will be seen that, notwithstanding the lower age limit in 1890, there was, generally speaking, a larger proportion at work in 1890 than in 1880, the only exceptions being South Carolina, Georgia, Alabama, and Mississippi. The very great increase in the number of female workers of all ages during the decade explains the general increase in the proportion of females at work in 1890 as compared with 1880, while the slight decreases in the proportion at work in the four states named are due to the same causes given for the losses in the proportion of males at work in the same section of the country.

The whole number of persons engaged in agriculture, fisheries, and mining in the United States in 1890 was 9,013,336, or 39.65 per cent of all persons engaged in gainful occupations; the number engaged in professional service was 944,333, or 4.15 per cent; in domestic and personal service, 4,360,577, or 19.18 per cent; in trade and transportation, 3,326,122, or 14.63 per cent, and in manufacturing and mechanical industries, 5,091,293, or 22.39 per cent.

The following statement shows the distribution of the whole number of males and females engaged in gainful occupations in 1880 and 1890, according to the number and percentage in each class of occupations:

CLASSES OF OCCUPATIONS.	1890						1880					
	Both sexes.		Males.		Females.		Both sexes.		Males.		Females.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent	Number.	Per cent.	Number.	Per cent.

Domestic and personal service	4,360,577	19.18	2,692,879	14.31	1,667,698	42.60	3,503,443	20.14	2,321,937	15.75	1,181,506	44.63
Trade and transportation	3,326,122	14.63	3,097,701	16.46	228,421	5 84	1,866,481	10.73	1,803,629	12.23	62,852	2.38
Manufacturing and mechanical industries	5,091,293	22.39	4,064,051	21.59	1,027,242	26.24	3,414,349	19.63	2,783,459	18.88	630,890	23.83

In the above table the figures showing the distribution of persons engaged in gainful occupations in 1880, according to the number in each class of occupations, have been readjusted to conform to the classification of occupations used in the census of 1890, as already explained, and they do not agree, therefore, with the totals given in the printed report of the census of 1880.

As compared with 1880, there has been a loss of more than 6 per cent in the proportion of persons engaged in agriculture, fisheries, and mining in 1890, and a loss of very nearly 1 per cent in the proportion of persons engaged in domestic and personal service, while in each of the other classes of occupations there has been a slight increase. Excluding persons engaged in fishing and mining in 1880 and 1890, the figures show that the percentage of persons engaged in agriculture only has decreased from 44.35 in 1880 to 37.68 in 1890, or a relative loss of 6.67 per cent.

There has been proportionately a similar loss in 1890, as compared with 1880, in the percentage of males and females engaged in agriculture, fisheries, and mining and in domestic and personal service, and an increase in each of the other three classes. The larger percentage of persons engaged in domestic and personal service in 1880 than in 1890 can only be explained by the statement that probably the number of "laborers not specified" in 1880 included very many laborers who should have been more properly credited to agriculture and to manufacturing and mechanical industries, particularly as the census of 1870 also showed a smaller proportion of persons in domestic and personal service as compared with 1880.

The following table gives by states and territories the percentages (derived from the figures given in Table 77) of males and females in each class of occupations, respectively, of total males and females 10 years of age and over engaged in gainful occupations in 1890:

STATES AND TERRITORIES.	PER CENT OF MALES IN EACH CLASS OF OCCUPATIONS OF TOTAL MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.					PER CENT OF FEMALES IN EACH CLASS OF OCCUPATIONS OF TOTAL FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS				
	Agriculture, fisheries, and mining	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.	Agriculture, fisheries, and mining. In Massachusetts, Rhode Island, and Connecticut the males engaged in manufacturing and mechanical industries in 1890 constituted very nearly one-half of all males in gainful occupations, the exact percentages being 47.10 for Massachusetts, 48.46 for Rhode Island, and 45.02 for Connecticut. In New Hampshire the males in manufacturing and mechanical industries constituted 38.48 per cent and in New Jersey the same class constituted 38.67 per cent, while in New York they constituted 33.01 per cent and in Pennsylvania 31.04 per cent. In 24 states and territories in 1890 the males engaged in agriculture, fisheries, and mining constituted more than one-half of all males in gainful occupations in the order named, the percentage following the name of the state in each case: Mississippi, 80.11; South Carolina, 76.93; Arkansas, 76.39; North Carolina, 75.49; Alabama, 72.85; North Dakota, 71.94; Oklahoma, 68.60; Georgia, 68.32; South Dakota, 67.65; Tennessee, 66.16; Texas, 65.25; West Virginia, 62.66; Kentucky, 61.98; Kansas, 61.42; Louisiana, 58.95; Iowa, 58.45; Virginia, 57.24; Idaho, 55.93; New Mexico, 52.15; Nebraska, 51.35; Florida, 51.10; Vermont, 51.05; Missouri, 50.84; Indiana, 50.41. These states and territories comprise all in the South Central division, all but Delaware, Maryland, and the District of Columbia in the South Atlantic division, and all but Ohio, Illinois, Michigan, Wisconsin, and Minnesota in the North Central division. In the North Atlantic division there was but one state, Vermont, and in the Western division but one state, Idaho, and one territory, New Mexico, in which the males engaged in agriculture, fisheries, and mining constituted more than 50 per cent of all males at work.

Of the females engaged in gainful occupations in 1890, by far the greater proportion were found in domestic and personal service in a large majority of the states and territories. This was not the case in several states of the North Atlantic division, where those engaged in manufacturing and mechanical industries constituted the larger percentage of all females at work. Of these states the largest percentage of females in manufacturing and mechanical industries was 62.53 in Rhode Island, followed by 60.28 per cent in New Hampshire, 51.99 per cent in Massachusetts, 50.16 per cent in Connecticut, and 45.75 per cent in Maine. In the same way, in a few of the southern states the larger percentage of females were engaged in agriculture, fisheries, and mining, as follows: 71.60 per cent in Mississippi, 68.34 per cent in South Carolina, 62.31 per cent in Alabama, 57.97 per cent in Arkansas, 50.99 per cent in Louisiana, and 48.31 per cent in North Carolina.

Of the whole number of persons engaged in gainful occupations in 1890, the males constituted 82.78 per cent and the females 17.22 per cent. The following statement shows the percentage of males and females in each class of occupations in 1890:

CLASSES OF OCCUPATIONS.	Males.	Females.
	Per cent.	*Per cent.*
All occupations	82.78	17.22
Agriculture, fisheries, and mining	92.46	7.54
Professional service	66.99	33.01
Domestic and personal service	61.76	38.24
Trade and transportation	93.13	6 87
Manufacturing and mechanical industries	79.82	20.18

The following table shows the number and percentage of increase in persons of each sex engaged in gainful occupations and in each class of occupations since 1880:

SEX AND CLASSES OF OCCUPATIONS.	INCREASE FROM 1880 TO 1890.		SEX AND CLASSES OF OCCUPATIONS.	INCREASE FROM 1880 TO 1890	
	Number.	Per cent.		Number.	Per cent.
All occupations	5,343,562	30.72	Domestic and personal service	857,134	24.47
Males	4,076,148	27.64	Males	370,942	15.98
Females	1,267,414	47.88	Females	486,192	41.15
Agriculture, fisheries, and mining	1,008,712	12.60	Trade and transportation	1,459,641	78.20
Males	923,843	12.47	Males	1,294,072	71.75
Females	84,869	14.27	Females	165,569	263.43
Professional service	341,131	56 55	Manufacturing and mechanical industries	1,676,944	49.11
Males	206,699	48.53	Males	1,280,592	46.01
Females	134,432	75.84	Females	396,352	62.82

As shown by the preceding table, there has been an increase since 1880 of 5,343,562 persons engaged in gainful occupations, or 30.72 per cent. This shows a slightly larger percentage of increase of persons engaged in gainful occupations than that of the population 10 years of age and over, which during the same period increased 28.98 per cent. There has been an increase since 1880 of 4,076,148 males engaged in gainful occupations, or 27.64 per cent, and of 1,267,414 females, or 47.88 per cent, as compared with an increase during the decade of 29.98 per cent in the male population 10 years of age and over and of 27.93 per cent in the female population 10 years of age and over.

Persons engaged in agriculture, fisheries, and mining have increased since 1880 to the number of 1,008,712, or 12.60 per cent, the percentage of increase for females exceeding slightly that of males. Persons engaged in professional service have increased 56.55 per cent since 1880, and those in domestic and personal service 24.47 per cent; in both of these classes the percentage of increase for females is largely in excess of that for males. Persons engaged in trade and transportation have increased 78.20 per cent since 1880, the percentage of increase for females being especially large, or 263.43, principally due to the large increase in the number of females employed as bookkeepers, clerks, stenographers, typewriters, and saleswomen. Persons engaged in manufacturing and mechanical industries have increased 49.11 per cent since 1880, the percentage of increase for males being 46.01 and the percentage of increase for females 62.82.

The following table shows the number and percentage of increase of persons 10 years of age and over engaged in gainful occupations from 1880 to 1890 in each state and territory, contrasted with the percentage of increase of the population 10 years of age and over during the same period:

STATES AND TERRITORIES.	NUMBER OF PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		INCREASE IN PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS FROM 1880 TO 1890.		Per cent of increase in population 10 years of age and over from 1880 to 1890.

a Dakota territory.

The preceding table confirms the statement already made as to the difference in the proportion of persons at work in 1890 as compared with that for 1880 in certain states and territories, and shows very clearly the influence of the manufacturing interests in the eastern and northern states, the changing character of the population of the western states, and the very great loss in the proportion of children at work in the southern states.

In all the states of the North Atlantic division the increase in persons engaged in gainful occupations since 1880 has been larger than that of the population 10 years of age and over. This is also true with respect to the states in the North Central division east of the Mississippi river, with the exception of Indiana, where the percentages of increase were practically the same. In Iowa, Missouri, the Dakotas, and Nebraska the increase in the population 10 years of age and over was only slightly larger than that of persons engaged in gainful occupations, but in Kansas there was an increase of nearly 50 per cent in the population 10 years of age and over as compared with an increase of only 40 per cent in persons at work. In the Western division there was a larger percentage of increase in the population 10 years of age and over in Montana, Colorado, Arizona, Idaho, and California, while in the remaining states and territories of this division the percentage of increase in persons at work was the larger. Maryland (excluding the District of Columbia), in the South Atlantic division, and Tennessee, in the South Central division, were the only southern states where the increase in persons at work was larger than the increase in the population 10 years of age and over.

As already stated, the statistics of occupations at the census of 1850 related to free males over 15 years of age, and at the census of 1860 to free persons over 15 years of age, the results being printed in each case in an alphabetical list only. At the censuses of 1870 and 1880 the statistics of occupations related to all persons 10 years of age and over by sex, and were arranged according to four general classes. At the census of 1890 the statistics of occupations comprehended all persons 10 years of age and over by sex, and were classified under certain general heads, following mainly the plan of 1870 and 1880, but with certain changes and modifications, as previously explained.

The differences in the designations of occupations at each of the preceding censuses as compared with the classification used at the census of 1890, and in those cases where two or more designations were given at any of the preceding censuses to denote occupations which in 1890 were embodied under a single designation, are noted in the subjoined statement. In certain cases, also, it was necessary to combine two or more of the designations used in 1890, in order to make them comparable, so far as possible, with the designations used at one or more of the preceding censuses. These consolidations in 1890 in most cases are apparent from the wording, as miners, professors and teachers, merchants and dealers, and the like, but wherever the designation used in 1890 is not fully descriptive of all the occupation designations which have been so combined, the necessary explanation is given in a footnote. In the column showing the difference in designations at preceding censuses, space has been economized for certain occupation designations by using but once any word common to many designations, which, wherever so used, is followed by its qualifying word, either noun or adjective, as the case may be, as "1850—* * * dealers—cattle; horse; ice; * * * " under "Merchants and dealers", meaning cattle dealers, horse dealers, ice dealers, etc., or "1870—officials of—banks; companies (not specified); express companies; * * * " under "Officials of banks, and of insurance, trade, transportation, trust, and other companies", meaning officials of banks, officials of companies (not specified), officials of express companies, etc. In the appended statement each separate occupation designation, if more than one for any census year, is followed by a semicolon, and in those cases where an abbreviated form is used, as just explained, each qualifying word denoting a separate occupation designation is followed by a semicolon, and the concluding word or words preceded by "and" to indicate the end of that particular class of abbreviated designations. With this preliminary explanation, there should be no difficulty in comprehending the plan of the detailed statement which follows.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
AGRICULTURE, FISHERIES, AND MINING.	
Agricultural laborers	1860—Farm laborers.
Dairymen and dairywomen	1850—Dairymen and milkmen. 1860—Dairymen.
Farmers, planters, and overseers	1850 and 1860—Farmers; planters. 1870 and 1880—Farm and plantation overseers; farmers and planters.
Fishermen and oystermen	1850—Fishermen; oystermen. 1860—Fishermen; oystermen; whalemen.
Gardeners, florists, nurserymen, and vine growers	1850—Gardeners and florists; marketmen; nurserymen. 1860—Florists; gardeners and nurserymen; horticulturists; marketmen; vine dressers; vine growers. 1870—Florists; gardeners and nurserymen; vine growers. 1880—Florists; gardeners, nurserymen, and vine growers.
Lumbermen and raftsmen	1850 and 1860—Lumbermen.
Miners	1850 and 1860—Colliers; miners.
Stock raisers, herders, and drovers	1850—Drovers; herdsmen, graziers, and rancheros. 1860—Drovers; graziers; herdsmen; rancheros; shearers; shepherds; wild-horse catchers. 1870 and 1880—Stock drovers; stock herders; stock raisers.
Wood choppers	1850 and 1860—Wood corders; wood cutters.
Other agricultural pursuits	1850—Turpentine makers. 1860—Thrashers; turpentine makers. 1870—Turpentine farmers; turpentine laborers. 1880—Turpentine farmers and laborers; others in agriculture.
PROFESSIONAL SERVICE.	
Artists and teachers of art	1850 and 1860—Artists; sculptors. 1870—Artists (not specified); painters; sculptors; teachers of drawing and painting.
Authors and literary and scientific persons	1850—Authors. 1860—Astrologists; astronomers; authors; explorers; geologists; librarians; naturalists; translators. 1870—Authors and lecturers; librarians; naturalists; translators. 1880—Authors, lecturers, and literary persons.
Chemists, assayers, and metallurgists	1850—Chemists. 1860—Assayers; chemists. 1870—Chemists (practicing); metallurgists.
Designers, draftsmen, and inventors	1850 and 1860—Draftsmen. 1870—Designers and draftsmen; inventors.
Engineers (civil, mechanical, electrical, and mining) and surveyors.	1850—Civil engineers; surveyors. 1860—Civil and mechanical engineers; electricians. 1870—Engineers (civil); land surveyors. 1880—Engineers (civil).
Journalists	1850 and 1860—Editors; reporters.
Lawyers	1860—Conveyancers; judges; lawyers; notaries public.
Musicians and teachers of music	1850—Musicians; music teachers. 1860—Musicians (vocal and instrumental); music teachers. 1870—Musicians (professional); teachers of music. 1880—Musicians (professional) and teachers of music.
Officials (government)	1850—City, county, and town officers; United States and state officers. 1860—Inspectors; officers (public); United States officers.
Physicians and surgeons	1850—Oculists; physicians; surgeons. 1860—Chiropodists; cuppers; oculists; physicians; surgeons. 1870—Chiropodists; physicians and surgeons.
Professors and teachers	1850 and 1860—Professors; teachers. 1870—Teachers (not specified). 1880—Teachers and scientific persons.
Theatrical managers, showmen, etc	1850—Showmen. 1860—Horse trainers; riding masters; showmen; ventriloquists. 1870—Showmen and showwomen. 1880—Showmen and employés of shows.
Veterinary surgeons	1850 and 1860—Veterinarians.
Other professional service	1860—Dancing masters. 1870—Teachers of dancing.
DOMESTIC AND PERSONAL SERVICE.	
Barbers and hairdressers	1850 and 1860—Barbers.
Boarding and lodging house keepers	1850 and 1860—Boarding house keepers.
Engineers and firemen (not locomotive)	1850—Engineers; firemen. 1860—Firemen. 1870 and 1880—Engineers and firemen.
Hotel keepers	1850 and 1860—Innkeepers.
Hunters, trappers, guides, and scouts	1850—Hunters, trappers, and rangers. 1860—Gunners; hunters; interpreters; trappers. 1870—Hunters and trappers; Indian scouts, guides, and interpreters.
Laborers (not specified)	1850—Laborers; pavers; stevedores. 1860—Cellar diggers; cistern builders; house movers; laborers; pavers; stevedores; well diggers. 1870—Ice cutters; laborers (not specified); laborers (trade and transportation); lamplighters. 1880—Employés in warehouses; laborers (not specified).
Launderers and laundresses	1860—Laundresses.
Nurses and midwives	1860, 1870, and 1880—Nurses; midwives.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890—Continued.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
DOMESTIC AND PERSONAL SERVICE—continued.	
Restaurant and saloon keepers and bartenders	1850—Barkeepers. 1860—Barkeepers; billiard saloon keepers; bowling saloon keepers; saloon keepers. 1870—Barkeepers; billiard and bowling saloon keepers and employés; restaurant keepers. 1880—Billiard and bowling saloon keepers and employés; restaurant keepers; saloon keepers and bartenders.
Servants (*a*)	1860—Cooks; domestics; housekeepers; matrons; servants; stewards. 1870 and 1880—Domestic servants; employés of hotels and restaurants (not clerks); stewards and stewardesses.
Soldiers, sailors, and marines (United States)	1850—Soldiers. 1870—Marines (U. S.); sailors (U. S.); soldiers (U. S.).
Watchmen, policemen, and detectives	1850—Watchmen. 1860—Watchmen and messengers. 1880—Watchmen (private) and detectives.
Other domestic and personal service	1850—Chimney sweeps; feather dressers. 1860—Bathroom keepers; bill posters; bootblacks; chimney sweeps; feather dressers; scavengers; submarine divers. 1870—Bath house keepers; billposters; bootblacks; chimney sweeps; employés of government; scavengers. 1880—Employés of charitable institutions; employés of government (not clerks); others in professional and personal services.
TRADE AND TRANSPORTATION.	
Agents (claim, commission real estate, insurance, etc.) and collectors.	1850—Agents; collectors. 1860—Agents; collectors; cotton samplers; insurance agents; intelligence agents; real estate agents; samplers. 1870—Agents; claim agents; intelligence office keepers; traders and dealers in real estate. 1880—Agents (not specified); collectors and claim agents; traders and dealers in real estate.
Bankers and brokers (*b*)	1850—Bankers; brokers; pawnbrokers. 1860—Bankers; brokers; cotton brokers; pawnbrokers; speculators. 1870—Bankers and brokers of money and stocks; pawnbrokers. 1880—Bankers and brokers (money and stocks); brokers (commercial).
Boatmen and canalmen	1850—Boatmen. 1860—Boatmen; canalmen; ferrymen. 1870 and 1880—Boatmen and watermen; canalmen.
Bookkeepers, clerks, and salesmen (*c*)	1850—Clerks. 1860—Bookkeepers; card writers; clerks. 1870—Bookkeepers and accountants in stores; card writers; clerks and bookkeepers in—banks; express companies; insurance offices; manufacturing establishments; railroad offices; and telegraph offices; clerks and copyists; clerks in—government offices; hotels and restaurants; and stores; salesmen and saleswomen; shorthand writers. 1880—Bookkeepers and accountants in stores; clerks and bookkeepers in—banks; express companies; insurance offices; manufacturing establishments; railroad offices; and telegraph offices (estimated for 1880); clerks and copyists (not otherwise described); clerks in—government offices; hotels and restaurants; and stores; salesmen and saleswomen.
Draymen, hackmen, teamsters, etc	1850—Carters; drivers; muleteers; teamsters. 1860—Carters; draymen; drivers; expressmen; stage proprietors; teamsters.
Foremen and overseers	1850—Overseers. 1860—Overseers; wharfingers.
Hostlers	1850 and 1860—Ostlers.
Hucksters and peddlers	1850—Peddlers. 1860 and 1870—Hucksters; peddlers.
Merchants and dealers	1850—Apothecaries and druggists; booksellers and stationers; clothiers; dealers—cattle; horse; ice; paper; produce and provision; wine and liquor; wood; wool; and not specified; fruiterers; furriers; grocers; hosiers; jewelers; merchants; music sellers; opticians; refectory keepers; storekeepers; toymen; traders. 1860—Booksellers and stationers; clothiers; commission merchants; dealers—cattle; coal; coal oil; fancy goods; fish; flour; furniture; grain; hardware; horse; ice; junk; leather; lime; oil; paper; pork; produce; provision; shoe; stock; stove; tea; wine and liquor; wood; wool; and not specified; druggists; fruiterers; furniture merchants; furriers; grocers; hosiers; importers; jewelers; lumber merchants; merchants; milkmen; music sellers; negro traders; opticians; refectory keepers; seedsmen; ship chandlers; shipping merchants; stationers; storekeepers; taxidermists; traders. 1870—Milkmen and milkwomen; traders and dealers in—agricultural implements; books and stationery; boots and shoes; cabinet ware; cigars and tobacco; clothing; cloths and textile fabrics; coal; coal and wood; cotton; crockery, china, and stone ware; dry goods; drugs and medicines; gold and silver ware and jewelry; groceries; hats and caps; ice; iron, tin, and copper ware; leather, hides, and skins; lime; liquors and wines; live stock; lumber; machinery (not specified); music and musical instruments; newspapers and periodicals; oils, paints, and turpentine; optical instruments; produce; provisions; sewing machines; and not specified. 1880—Milkmen and milkwomen; traders and dealers in—agricultural imple-

a Includes housekeepers and stewards. *b* Includes commercial brokers. *c* Includes stenographers and typewriters.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890—Continued.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
TRADE AND TRANSPORTATION—continued.	
	ments; books and stationery; boots and shoes; cabinet ware; cigars and tobacco; clothing and men's furnishing goods; coal and wood; cotton and wool; crockery, china, glass, and stone ware; dry goods, fancy goods, and notions; drugs and medicines; gold and silver ware and jewelry; groceries; hats, caps, and furs; ice; iron, tin, and copper ware; junk; leather, hides, and skins; liquors and wines; live stock; lumber; marble, stone, and slate; music and musical instruments; newspapers and periodicals; oils, paints, and turpentine; paper and paper stock; produce and provisions; sewing machines; and not specified.
Messengers and errand and office boys	1870 and 1880—Messengers.
Newspaper carriers and newsboys	1850 and 1860—Newsmen. 1870 and 1880—Newspaper criers and carriers.
Officials of banks and of insurance, trade, transportation, trust, and other companies.	1850—Bank and insurance officers. 1860—Bank officers; commissioners. 1870—Officials of—banks; companies (not specified); express companies; insurance companies; mining companies; railroad companies; street railway companies; telegraph companies; and trading and transportation companies (not specified). 1880—Officials of—banks; express companies (*a*); insurance companies; railroad companies; street railway companies (*a*); telegraph companies (*a*); telephone companies (*a*); and trading and transportation companies (not specified) (*a*).
Packers and shippers	1850 and 1860—Packers. 1870—Mule packers; packers; shippers and freighters. 1880—Packers; shippers and freighters.
Porters and helpers (in stores and warehouses)	1850—Porters and carriers. 1860—Carriers; porters. 1870—Porters in stores and warehouses. 1880—Porters and laborers in stores and warehouses.
Sailors	1850—Mariners. 1860—Mariners; sailing masters; ship masters.
Steam railroad employés (*b*)	1850 and 1860—Railroad men. 1870 and 1880—Employés of railroad companies (not clerks).
Street railway employés	1870—Employés of street railway companies (not clerks). 1880—Employés of street railway companies (*a*).
Telegraph and telephone operators	1850 and 1860—Telegraph operators. 1880—Employés of telegraph companies (*a*); employés of telephone companies (*a*).
Weighers, gaugers, and measurers	1860—Gaugers, weighers, and measurers.
Other persons in trade and transportation	1850—Gate keepers; rag collectors. 1860—Express riders; gate keepers; rag collectors; steamboat men. 1870—Employés of—banks (not clerks); companies (not specified); express companies (not clerks); insurance companies (not clerks); and trading and transportation companies (not specified); rag pickers; steamboat men and women; tollgate and bridge keepers; wreckers. 1880—Employés of—banks (not clerks); express companies (not clerks) (*a*); insurance companies (not clerks); and trading and transportation companies (not specified) (*a*); rag pickers; steamboat men and women; tollgate and bridge keepers; others in trade and transportation.
MANUFACTURING AND MECHANICAL INDUSTRIES.	
Agricultural implement makers (not otherwise classified).	1850, 1860, 1870, and 1880—Agricultural implement makers.
Apprentices	1870—Apprentices—in stores; to barbers; to dentists; to learned professions; and not specified. 1880—Apprentices to trades.
Blacksmiths	1850—Black and white smiths; farriers; spring makers. 1860—Axle makers; blacksmiths; farriers; spring makers; whitesmiths. 1870—Blacksmiths; spring and axle makers.
Bleachers, dyers, and scourers	1850—Dyers and bleachers; scourers. 1860—Bleachers; dyers and scourers.
Bone and ivory workers	1850 and 1860—Comb makers. 1870—Bone and ivory workers; comb makers.
Bookbinders	1850—Bookbinders; book and document folders. 1870 and 1880—Bookbinders and finishers.
Boot and shoe makers and repairers	1850—Cordwainers; shoe binders. 1860—Shoe binders; shoemakers. 1870 and 1880—Boot and shoe makers.
Bottlers and mineral and soda water makers	1850—Bottlers; mineral water manufacturers. 1860—Bottlers; mineral water makers. 1870—Mineral water makers. 1880—Bottlers and mineral water makers.
Box makers	1870 and 1880—Box factory operatives.
Brass workers (not otherwise specified)	1850—Bell and brass founders; brass and composition workers. 1860—Bell founders; brass founders; brass workers. 1870—Bell founders; brass founders and workers. 1880—Brass founders and workers.
Brewers and maltsters	1850—Brewers and distillers.
Brick and tile makers and terra cotta workers	1850—Brickmakers. 1860—Brickmakers; tile makers; 1870 and 1880—Brick and tile makers.

a Estimated. *b* Includes locomotive engineers and firemen.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890—Continued.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
MANUFACTURING AND MECHANICAL INDUSTRIES—continued.	
Britannia workers	1870 and 1880—Britannia and japanned ware makers.
Broom and brush makers	1850 and 1860—Broom makers; brush makers.
Builders and contractors	1850—Bridge and dock builders; builders; contractors. 1860—Bridge builders; builders; contractors; dock builders; house framers. 1870—Bridge builders and contractors; builders and contractors (not specified); house builders and contractors; railroad builders and contractors. 1880—Bridge builders and contractors; builders and contractors (not specified); railroad builders and contractors.
Butter and cheese makers	1870 and 1880—Cheese makers.
Button makers	1870 and 1880—Button factory operatives.
Cabinet makers	1850—Cabinet and chair makers.
Candle, soap, and tallow makers	1850 and 1860—Chandlers.
Carpenters and joiners	1850—Carpenters; joiners. 1860—Carpenters; joiners; stair builders.
Carriage and wagon makers (not otherwise classified)	1850—Coach makers; wagon makers. 1860—Coach makers; felloe makers; sleigh makers; wagon makers. 1870 and 1880—Carriage and wagon makers.
Charcoal, coke, and lime burners	1850 and 1860—Charcoal burners; lime burners. 1870 and 1880—Charcoal and lime burners.
Clock and watch makers and repairers	1850—Clock makers; watch makers. 1860—Case makers; clock makers; watch makers. 1870—Clock makers.
Coopers	1850 and 1860—Coopers; stave makers. 1870 and 1880—Coopers; stave, shook, and heading makers.
Copper workers	1850—Coppersmiths. 1860—Copper rollers; coppersmiths, copper workers.
Distillers and rectifiers	1860—Distillers; rectifiers; wine makers.
Door, sash, and blind makers	1850—Sash and blind makers. 1860—Blind makers; sash makers. 1870 and 1880—Blind, door, and sash makers.
Dressmakers, milliners, and seamstresses	1850—Suspender makers; window shade makers. 1860—Mantua makers; milliners; seamstresses; skirt makers; suspender makers; window shade makers. 1870—Fur workers; milliners, dress and mantua makers; window shade makers. 1880—Fur workers; milliners, dressmakers, and seamstresses.
Fertilizer makers	1870 and 1880—Fertilizer establishment operatives.
Gas works employés	1850 and 1860—Gas makers.
Glass workers	1850—Glass manufacturers; glass stainers. 1860—Glass cutters; glass makers; glass manufacturers; glass stainers. 1870 and 1880—Glass works operatives.
Glove makers	1850 and 1860—Glovers.
Gold and silver workers	1850—Gold and silver smiths; gold beaters; gold pen makers. 1860—Gold beaters; goldsmiths; silversmiths. 1880—Gold and silver workers and jewelers.
Gunsmiths, locksmiths, and bell hangers	1850—Bell hangers and locksmiths; gunsmiths. 1860—Bell hangers; gunsmiths; locksmiths. 1870 and 1880—Gun and lock smiths.
Hair workers	1860—Hair workers; wig makers. 1870—Hair cleaners and dressers. 1880—Hair cleaners, dressers, and workers.
Harness and saddle makers and repairers	1850—Saddle and harness makers; whip makers. 1860—Hame makers; harness makers; saddlers; whip makers. 1870—Harness and saddle makers; whip makers. 1880—Harness and saddle makers.
Hat and cap makers	1850—Hat and cap manufacturers. 1860—Cap makers; hat binders; hatters.
Hosiery and knitting mill operatives	1860—Knitters. 1870—Knitting and hosiery mill operatives.
Iron and steel workers	1850—Fire engine makers; iron founders; ironmongers; iron workers; needle makers; pipe makers; safe makers; scale makers; screw makers; surgical instrument makers. 1860—Chain makers; die sinkers; fire engine builders; forgemen; foundrymen; iron founders; ironmongers; iron workers; needle makers; pipe makers; rule makers; safe makers (iron); scale makers; screw makers; skate makers; smelters; steam engine builders; surgical instrument makers. 1870—Die sinkers and stamp makers; iron and steel rolling mill operatives; iron and steel works and shops operatives; iron foundry operatives; iron furnace operatives; needle makers; scale and rule makers; screw makers; steam engine makers. 1880—Iron and steel works and shops operatives; scale and rule makers; screw makers.
Lace and embroidery makers	1850—Lace manufacturers. 1860—Embroiderers; lace manufacturers. 1880—Lace makers.
Lead and zinc workers	1850—Lead workers; type cutters; type founders. 1860—Lead smelters; lead workers; type cutters; type founders. 1870—Type founders and cutters. 1880—Lead and zinc works operatives.
Leather curriers, dressers, finishers, and tanners	1850—Bellows makers; morocco dressers; tanners and curriers. 1860—Bellows makers; belt makers; curriers; leather workers; morocco dressers; tanners and curriers. 1870—Belting factory operatives; curriers, tanners, and finishers of leather; morrocco dressers.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890—Continued.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
MANUFACTURING AND MECHANICAL INDUSTRIES—continued.	
Manufacturers and officials of manufacturing companies.	1850—Manufacturers—blacking; card; chocolate; cloth; cotton; hardware; ink; linseed oil; oil cloth; patent leather; pin; porcelain; pot and pearl ash; spoon; steel; white lead; whiting; wooden ware; woolen; and not otherwise specified. 1860—Manufacturers—arrowroot; blacking; bonnet; chalk; chocolate; cloth; coffee mill; cotton cloth; fluid; gas fixture; hardware; hook and eye; hydraulic ram; ink; inkstand; iron railing; lard; lard oil; linseed oil; oil cloth; patent leather; pin; porcelain; pot and pearl ash; rosin; show case; soda; steel; tobacco; white lead; whiting; wooden ware; woolen; and zinc; treasurers. 1870—Manufacturers; officials of manufacturing companies. 1880—Manufacturers; officials of manufacturing and mining companies.
Marble and stone cutters	1850 and 1860—Stone and marble cutters.
Masons (brick and stone)	1850—Masons and plasterers. 1860—Bricklayers; masons (brick and stone).
Meat, fish, and fruit packers, canners, and preservers.	1860—Picklers and preservers; sausage makers. 1870—Meat and fruit preserving establishment employés; meat packers, curers, and picklers; oyster packers. 1880—Meat and fruit preserving establishment employés; meat packers, curers, and picklers.
Mechanics (not otherwise specified)	1860—Mechanics. 1870 and 1880—Mechanics (not specified).
Metal workers (not otherwise specified)	1850 and 1860—Armorers; platers. 1870—Bronze workers.
Mill and factory operatives (not specified)	1850—Factory hands; flax dressers; hemp dressers; mat makers; spinners; warpers; weavers. 1860—Bag makers; factory hands; flax dressers; hemp dressers; mat makers; spinners; tassel makers; thread makers; warpers; weavers; worsted makers. 1870—Bag makers; flax dressers; galloon, gimp, and tassel makers; linen mill operatives; mill and factory operatives (not specified). 1880—Bag makers; flax dressers; galloon, gimp, and tassel makers; mill and factory operatives (not specified); thread makers.
Millers (flour and grist)	1850, 1860, 1870, and 1880—Millers.
Model and pattern makers	1850 and 1860—Model makers; pattern makers. 1870 and 1880—Pattern makers.
Nail and tack makers	1850—Nail manufacturers. 1860—Nailers; nail manufacturers; tack makers. 1880—Nail makers.
Oil well employés	1870 and 1880—Oil well operatives and laborers.
Oil works employés	1850—Oil makers. 1860—Coal oil makers; oil makers. 1870—Oil refinery operatives. 1880—Oil mill and refinery operatives.
Painters, glaziers, and varnishers	1850—Painters and glaziers; japanners; stencilers. 1860—Decorators; fresco painters; gilders; glaziers; japanners; painters and varnishers; stencilers. 1870 and 1880—Gilders; painters and varnishers.
Paper hangers	1850—Paper hangers and upholsterers.
Paper mill operatives	1850—Paper manufacturers. 1860—Envelope makers; paper manufacturers.
Photographers	1850—Daguerreotypists. 1860—Daguerreotypists; photographers. 1870—Daguerreotypists and photographers.
Piano, organ, and musical instrument makers and tuners.	1850—Organ builders; pianoforte and musical instrument makers. 1860—Musical instrument makers; organ builders; pianoforte makers; pianoforte tuners; reed workers. 1870—Musical instrument makers (not specified); organ makers; pianoforte makers. 1880—Organ makers; pianoforte makers and tuners.
Plasterers	1860—Plasterers; stucco workers. 1870—Plasterers; plaster molders.
Plumbers and gas and steam fitters	1850 and 1860—Gas fitters; plumbers. 1870 and 1880—Plumbers and gas fitters.
Powder and cartridge makers	1850—Powder manufacturers; shot manufacturers. 1860—Percussion cap makers; powder manufacturers; shot manufacturers. 1870—Powder makers; shot, cartridge, and fuse makers.
Printers, lithographers, pressmen, etc. (a)	1850—Paper rulers; printers; stereotypists. 1860—Block printers; electrotypers; lithographers; paper rulers; printers; stereotypers. 1870—Plate printers; printers; stereotypers.
Print works operatives	1850 and 1860—Calico printers.
Publishers of books, maps, and newspapers	1850 and 1860—Map makers; publishers.
Rope and cordage makers	1850—Rope and cord makers. 1860—Corders; cord makers; net makers; rope makers; seine makers; twine makers.
Rubber factory operatives	1850—India rubber manufacturers. 1860—India rubber manufacturers; India rubber workers.
Sail, awning, and tent makers	1850 and 1860—Sail makers. 1870 and 1880—Sail and awning makers.
Salt works employés	1850, 1860, 1870, and 1880—Salt makers.
Saw and planing mill employés	1850—Lath makers; sawyers; shingle makers. 1860—Lath makers; planers (steam); sawyers; shingle makers. 1870—Sawmill operatives; sawyers; shingle and lath makers. 1880—Saw and planing mill operatives; sawyers; shingle and lath makers.

a Includes compositors and electrotypers and stereotypers.

DIFFERENCES IN DESIGNATIONS OF OCCUPATIONS: 1850 TO 1890—Continued.

OCCUPATION DESIGNATIONS IN 1890.	DIFFERENCE IN DESIGNATIONS AT PRECEDING CENSUSES.
MANUFACTURING AND MECHANICAL INDUSTRIES—continued.	
Sewing machine makers (not otherwise classified)	1860—Sewing machine makers. 1870 and 1880—Sewing machine factory operatives.
Sewing machine operators	1860—Sewing machine operatives.
Ship and boat builders	1850—Boat builders; calkers; mast makers; riggers; ship carpenters. 1860—Block makers; boat builders; calkers; mast makers; oar makers; riggers; ship carpenters; ship smiths. 1870—Boat makers; mast, spar, oar, and block makers; ship calkers; ship carpenters; ship riggers; ship smiths. 1880—Boat makers; ship carpenters, calkers, riggers, and smiths.
Shirt, collar, and cuff makers	1860—Collar makers; shirt makers. 1870 and 1880—Shirt, cuff, and collar makers.
Silk mill operatives	1850—Silk manufacturers. 1860—Silk manufacturers; silk operatives.
Starch makers	1850 and 1860—Starch manufacturers.
Steam boiler makers	1850 and 1860—Boiler makers.
Stove, furnace, and grate makers	1850 and 1860—Grate makers; stove makers.
Tailors and tailoresses	1850—Tailors. 1870—Tailors, tailoresses, and seamstresses.
Tinners and tinware makers	1850 and 1860—Tinsmiths. 1870—Tinners.
Tobacco and cigar factory operatives	1850—Tobacconists and cigar makers. 1860—Tobacco cutters; tobacconists. 1870 and 1880—Cigar makers; tobacco factory operatives.
Tool and cutlery makers	1850—Cutlers; file cutters; plane makers; razor makers; saw makers; tool makers. 1860—Auger makers; ax makers; cutlers; edge tool makers; file cutters; grinders; plane makers; saw makers; shovel makers; tool makers. 1870 and 1880—File makers, cutters, and grinders; tool and cutlery makers.
Trunk, valise, leather-case, and pocket-book makers	1850 and 1860—Pocket-book manufacturers; trunk makers. 1870—Carpetbag and satchel makers; trunk and valise makers. 1880—Leather-case and pocket-book makers; trunk, valise, and carpetbag makers.
Umbrella and parasol makers	1850 and 1860—Umbrella manufacturers.
Upholsterers	1850—Trimmers. 1860—Mattress makers; trimmers; upholsterers. 1870—Mattress makers; upholsterers.
Wire workers	1850—Wire makers; wire workers. 1860—Hoop makers; hoopskirt makers; sieve makers; wire cloth makers; wire makers; wire workers. 1870—Hoopskirt makers; wire makers and workers. 1880—Wire makers and workers.
Wood workers (not otherwise specified)	1850—Block and pump makers; carvers and gilders; cork cutters; frame makers; last makers; match makers; shoe peg makers; turners. 1860—Ax helve makers; billiard table makers; bobbin makers; cane makers; carvers; chair makers; cork cutters; frame makers; last makers; match makers; pump makers; saddletree makers; shoe peg makers; shuttle makers; spoke makers. 1870—Mirror and picture frame makers; pump makers; reed and shuttle makers; wood turners and carvers. 1880—Mirror and picture frame makers; pump makers; wood turners, carvers, and woodenware makers.
Woolen mill operatives	1850—Wool combers and carders. 1860—Carders; cloth finishers; wool combers and carders; wool sorters.
Other persons in manufacturing and mechanical industries.	1850—Enamelers; lapidaries; makers—astronomical, mathematical, and nautical instruments; boneblack; cement; cotton gin; fireworks; glue; grindstone and millstone; lamp; lathe; lightning rod; looking-glass; mold; mustard; patent medicine; pen; pencil; philosophical instrument; plaster figure; razor strop; saleratus; varnish; vinegar; and wine; millwrights; paper stainers; perfumers; polishers and finishers; refiners; whalebone workers; other occupations. 1860—Car builders; coffee grinders; coffee roasters; coiners; enamelers; finishers; furnishers; lapidaries; makers—artificial limb; artificial teeth; astronomical instrument; boneblack; buckle; card; cement; chandelier; cotton gin; faucet; fence; filter; fireworks; globe; glue; grindstone; hose; instrument; knob; lamp; lathe; lightning rod; looking-glass; mathematical instrument; millstone; military trimming; mold; mustard; nautical instrument; ornament; paint; paper tube; patent medicine; pen and pencil; philosophical instrument; plaster figure; razor strop; regalia; saleratus; spice; spindle; spoon; stencil plate; stock; tar; tarpaulin; thimble; truss; varnish; vinegar; wafer; and yeast; millwrights; paper stainers; pearl workers; perfumers; polishers and burnishers; refiners; turners (metal, ivory, and wood); wax workers; willow workers; other occupations and unknown. 1870—Employés in manufacturing establishments (not specified); makers—car; card and fancy paper; fireworks; glue; hose, leather and other; ink; macaroni and vermicelli; oil cloth; patent medicine; and truss; perfumers; quartz and stamp mill laborers. 1880—Car makers; employés in manufacturing establishments (not specified); quartz and stamp mill operatives and laborers; others in manufacturing, mechanical, and mining industries.

Following the plan indicated by the preceding statement, the results concerning occupations for the entire country at each census from 1850 to 1890 have been brought together, on the basis of the classification of 1890, in the three tables following, which show, first, the number of persons of each sex 10 years of age and over engaged in each specified occupation at the censuses of 1870, 1880, and 1890; second, the number of persons of each sex 16 years of age and over in 1870 and 1880, and of those 15 years of age and over in 1890, engaged in each specified occupation; and third, the number of free males 16 years of age and over in 1850 and of free persons 16 years of age and over in 1860 engaged in each specified occupation.

In these three tables explanatory notes are used in all cases where the figures presented do not cover substantially the same occupations or lines of work indicated by the designations used in the census of 1890, so far as this point could be determined from the printed census reports. Aside from the exceptions, as therein noted, these tables afford the means of giving for the United States a complete statement, on a comparable basis, of the number of persons at work, classified according to the various occupations in which they were engaged, so far as returned at each of the censuses named, and for purposes of general comparison are historically useful and valuable.

For the convenience of persons desiring to make detailed comparisons by states and territories, four tables are also appended, showing the number and percentage of males and females 10 years of age and over engaged in each of the great classes of occupations in 1870, 1880, and 1890, the totals for 1870 and 1880 being readjusted to conform to the plan of classifying occupations used at the census of 1890.

NUMBER OF PERSONS IN THE UNITED STATES 10 YEARS OF AGE AND OVER IN 1870, 1880, AND 1890 ENGAGED IN EACH SPECIFIED OCCUPATION, CLASSIFIED BY SEX.

OCCUPATIONS.	BOTH SEXES.			MALES.			FEMALES.

Professors and teachers	112,969	30,530
Theatrical managers, showmen, etc	278	33
Veterinary surgeons	392	46
Other professional service	171	.....
Domestic and personal service	1,678,960	989,952
Barbers and hairdressers	11,140	6,013
Boarding and lodging house keepers	12,148	2,554
Engineers and firemen (not locomotive)	d513	11,821
Hotel keepers	25,818	22,476
Hunters, trappers, guides, and scouts	1,362	619
Janitors	.....	.....
Laborers (not specified)	971,723	910,973
Launderers and laundresses	38,633	.....
Nurses and midwives	8,403	.....
Restaurant and saloon keepers and bartenders	14,861	e5,479
Servants (f)	588,435	22,243
Sextons	836	436
Soldiers, sailors, and marines (United States)	.....	g5,149
Watchmen, policemen, and detectives	h4,759	i2,119
Other domestic and personal service	329	70
Trade and transportation	801,607	481,741
Agents (claim, commission, real estate, insurance, etc.) and collectors.	18,844	7,757
Auctioneers	1,348	890
Bankers and brokers (k)	9,757	3,175
Boatmen and canalmen	26,749	32,454
Bookkeepers, clerks, and salesmen (l)	186,549	101,325
Commercial travelers	.....	.....
Draymen, hackmen, teamsters, etc	77,626	40,747
Foremen and overseers	37,968	18,859
Hostlers	8,581	4,029
Hucksters and peddlers	19,819	10,669
Livery stable keepers	5,361	2,741
Merchants and dealers	266,976	173,821
Messengers and errand and office boys	(m)	.....
Newspaper carriers and newsboys	943	209
Officials of banks and of insurance, trade, transportation, trust, and other companies.	3,234	1,375
Packers and shippers	1,921	622
Pilots	3,358	2,015
Porters and helpers (in stores and warehouses)	10,199	3,185
Sailors	71,743	70,603
Steam railroad employés (n)	36,567	4,831
Street railway employés	.....	.....
Telegraph and telephone operators	1,956	544
Telegraph and telephone linemen and electric light and power company employés.	.....	.....
Undertakers	835	495
Weighers, gaugers, and measurers	850	.....
Other persons in trade and transportation	10,423	1,395
Manufacturing and mechanical industries	1,877,403	1,186,495
Agricultural implement makers (not otherwise classified).	2,390	1,313
Apprentices	55,326	1,846
Artificial flower makers	600	45
Bakers	19,001	14,256
Basket makers	2,862	1,841
Blacksmiths	114 001	100,151
Bleachers, dyers, and scourers	3,867	3,280
Bone and ivory workers	689	1,786
Bookbinders	6,360	3,414
Boot and shoe makers and repairers	168,172	130,885
Bottlers and mineral and soda water makers	539	o452
Box makers	2,634	940
Brass workers (not otherwise specified)	2,609	1,926
Brewers and maltsters	6,307	p4,854
Brick and tile makers and terra cotta workers	13,740	11,514
Britannia workers	334	.....
Broom and brush makers	3,027	2,747
Builders and contractors	6,495	3,496
Butchers	30,103	17,733
Butter and cheese makers	.....	.....
Button makers	778	433
Cabinet makers	29,223	q37,359
Candle, soap, and tallow makers	2,971	2,388

a None reported, probably included under "Farmers, planters, and overseers".
b Dairymen and milkmen; milkmen classified in 1890 under "Merchants and dealers".
c Reported as civil and mechanical engineers and electricians; includes evidently stationary engineers and possibly locomotive engineers.
d Firemen only; see "Engineers (civil, etc.) and surveyors", under "Professional service".
e Barkeepers.
f Includes housekeepers and stewards.
g Soldiers.
h Watchmen and messengers.
i Watchmen.
k Includes commercial brokers.
l Includes stenographers and typewriters.
m Included with "Watchmen", under "Domestic and personal service".
n Includes locomotive engineers and firemen.
o Includes 86 returned as mineral water manufacturers.
p Brewers and distillers.
q Cabinet and chair makers.

Woolen mill operatives	*nn*2,430	*nn*3,266
Other persons in manufacturing and mechanical industries.	83,617	37,070

a Charcoal and lime burners.
b None reported; see "Mill and factory operatives (not specified)".
c See "Brewers and maltsters".
d Sash and blind makers.
e Includes 3,225 returned as glass manufacturers.
f Includes 3,237 returned as glass manufacturers.
g Returned as glovers.
h Includes 11,647 returned as hatters.
i Returned as hat and cap manufacturers.
k Knitters.
l Includes 353 returned as lace manufacturers.
m Returned as lace manufacturers.
n Not including persons returned as glovers, hatters, or glass, lace, nail, paper, pocket-book, powder and shot, rubber (india), silk, starch, sugar, or umbrella manufacturers, which have been classified as makers of the several articles specified.
o Not including persons returned as glovers, or glass, hat and cap, lace, mineral water, nail, paper, pocket-book, powder and shot, rubber (india), silk, starch, sugar, or umbrella manufacturers which have been classified as makers of the several articles specified.
p Masons and plasterers.
q Includes 2,065 returned as nail manufacturers.
r Returned as nail manufacturers.
s Paper hangers and upholsterers.
t Includes 4,578 returned as paper manufacturers.
u Returned as paper manufacturers.
v Included with "Masons (brick and stone)".
w Includes 357 returned as powder and shot manufacturers.
x Returned as powder and shot manufacturers.
y Includes compositors and electrotypers and stereotypers.
z Calico printers
aa Includes 208 returned as india rubber manufacturers.
bb Returned as india rubber manufacturers.
cc Includes 415 returned as silk manufacturers.
dd Returned as silk manufacturers.
ee Returned as starch manufacturers.
ff Returned as sugar manufacturers.
gg Includes 21,413 returned as tobacconists.
hh Returned as tobacconists and cigar makers.
ii Includes 261 returned as pocket-book manufacturers.
kk Includes 193 returned as pocket-book manufacturers.
ll Returned as umbrella manufacturers.
mm Trimmers; upholsterers included with paper hangers.
nn Principally wool combers and carders; see "Mill and factory operatives (not specified)".

The presentation of occupations in 1890 covers many important details not heretofore found in the reports of the federal census. The subdivision of persons at work according to age and nationality, as given in the census reports for 1870 and 1880, has not only been maintained in 1890, but the number of persons engaged in gainful occupations at the latter census have been subdivided in detail according to general nativity and color, age periods, conjugal condition, illiteracy, inability to speak English, months unemployed, country of birth, birthplace of mothers, and citizenship. The statistics of occupations with respect to each of these subdivisions are considered briefly in the order named.

OCCUPATIONS BY GENERAL NATIVITY AND COLOR.

As already shown, not quite one-half of the total population 10 years of age and over in 1890 were engaged in gainful occupations, but when considered with respect to general nativity and color the proportion varies widely, especially with regard to the proportion of males and females at work among each element of the population. These results are presented in detail by sex in the following statement:

GENERAL NATIVITY AND COLOR.	POPULATION 10 YEARS OF AGE AND OVER.			MALE POPULATION 10 YEARS OF AGE AND OVER.			FEMALE POPULATION 10 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent		Number.	Per cent.		Number.	Per cent.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

As shown by the above table, foreign white persons at work in 1890 constituted 58.10 per cent and colored persons at work 58.25 per cent, respectively, of the whole number of each element 10 years of age and over. Among the native white element, those of foreign parentage had only 45.60 per cent of their whole number 10 years of age and over at work and those of native parentage but 42.93 per cent. Of the foreign white males 10 years of age and over in 1890, fully nine-tenths were at work, and of the total colored males of the same age, very nearly four-fifths were at work. Native white males of native parentage 10 years of age and over had a larger percentage at work than native white males of foreign parentage of the same age, or 73.91 per cent for the former as compared with 70.28 per cent for the latter. For the females, however, the largest proportion at work in 1890 was found among the colored, this element showing 36.02 per cent of those 10 years of age and over at work. The foreign white element among the females had 19.35 per cent of its number 10 years of age and over at work, native white females of foreign parentage 20.78 per cent, and native white females of native parentage 10.90 per cent.

The tables following show, by states and territories, the number and percentage of males and females 10 years of age and over engaged in gainful occupations for each element of the population in 1890.

STATES AND TERRITORIES.	NATIVE WHITE MALE POPULATION OF NATIVE PARENTAGE 10 YEARS OF AGE AND OVER.			NATIVE WHITE MALE POPULATION OF FOREIGN PARENTAGE 10 YEARS OF AGE AND OVER.			FOREIGN WHITE MALE POPULATION 10 YEARS OF AGE AND OVER.			COLORED MALE POPULATION (a) 10 YEARS OF AGE AND OVER.

Manufacturing and mechanical industries	26.24	28.73	47.53	29.27	2.81	2.76

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the native white males of native parentage engaged in gainful occupations in 1890, over one-half (51.58 per cent) were engaged in agriculture, fisheries, and mining, while of the total male colored element at work in 1890 over three-fifths (61.40 per cent) were similarly occupied. Among the native white males of foreign parentage and foreign white males at work, those engaged in manufacturing and mechanical industries constituted in each case a slightly larger percentage than those engaged in agriculture, fisheries, and mining, the percentages being, respectively, 31.39 and 31.65 for those in the first-named class of occupations, as compared with 28.53 and 29.39 per cent for those in the latter class of occupations.

With the exception of native white females of foreign parentage, the largest percentage of females at work in 1890 were engaged in each case in domestic and personal service, foreign white females in this class of occupations constituting 59.37 per cent of all foreign white females at work. Colored females engaged in domestic and personal service in 1890 constituted 52.10 per cent of the whole number of colored females in gainful occupations, while those engaged in agriculture, fisheries, and mining constituted 43.93 per cent. Of the native white females of foreign parentage at work in 1890, very nearly one-half, or 47.53 per cent, were engaged in manufacturing and mechanical industries, and not quite one-third, or 30.86 per cent, in domestic and personal service.

The following table shows the distribution by general nativity and color of the whole number of persons of each sex engaged in all occupations and in each class of occupations in 1890, respectively:

SEX, GENERAL NATIVITY, AND COLOR.	ALL OCCUPATIONS.		AGRICULTURE, FISHERIES, AND MINING.		PROFESSIONAL SERVICE.		DOMESTIC AND PERSONAL SERVICE.		TRADE AND TRANSPORTATION.		MANUFACTURING AND MECHANICAL INDUSTRIES.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the whole number of males engaged in gainful occupations in 1890, practically one-half, or 50.67 per cent, were native whites of native parentage, 23.00 per cent were foreign white, 14.55 per cent were native whites of foreign parentage, and 11.78 per cent were colored. The distribution by general nativity and color of the entire male population 10 years of age and over in 1890 was as follows: native white males of native parentage, 52.98 per cent; native white males of foreign parentage, 16.00 per cent; foreign white males, 19.63 per cent, and colored males, 11.39 per cent. These percentages show no great differences in the distribution of males at work as compared with the whole number of males of working age, but when females are considered, very marked differences appear. Native white females of native parentage at work in 1890 constituted 34.72 per cent of the whole number of females in gainful occupations, native white females of foreign parentage 20.56 per cent, foreign white females 19.80 per cent, and colored females 24.92 per cent, while of the female population 10 years of age and over each element constituted, respectively, 54.09, 16.80, 17.37, and 11.74 per cent.

Considering the proportion in each class of occupations, it is seen for males that the native whites of native parentage constituted very nearly three-fifths of all males in agriculture, fisheries, and mining, more than two-thirds of those in professional service, practically one-third of those in domestic and personal service, somewhat more than one-half of those in trade and transportation, and a little more than two-fifths of those in manufacturing and mechanical industries. Of the total females in agriculture, fisheries, and mining, 63.07 per cent were colored and 30.01 per cent were native whites of native parentage, but of those in professional service more than two-thirds, or 68.01 per cent, were native whites of native parentage and 22.84 per cent were native whites of foreign parentage. The largest percentage of females in domestic and personal service was that for the colored, being 30.48, which was closely followed by 27.59 per cent for foreign white females and 27.04 per cent for native whites of native parentage. In both trade and transportation and manufacturing and mechanical industries the native white females largely predominated, the percentage of those of native parentage in each case exceeding that for those of foreign parentage.

In the following statement the total number of persons of each sex engaged in principal occupations in 1890 is distributed by number and percentage according to general nativity and color:

MALES.

a Persons of negro descent, Chinese, Japanese, and civilized Indians *b* Includes sewing machine operators and shirt, collar, and cuff makers.

In the preceding table many of the occupations are given in detail, but in other cases certain consolidations have been made so as to cover, as near as may be, substantially all the persons of each sex at work in 1890. Where the occupations have been so grouped, the designations given are usually self-explanatory; if not, the nature of the consolidation is indicated by a footnote.

Briefly considering the results shown by the table, it will be seen that the native white males of native parentage constituted in 1890 fully four-fifths of all the male lawyers, very nearly four-fifths of all the male physicians and surgeons, more than seven-tenths of all the male professors and teachers, and two-thirds, or very nearly two-thirds, of all the male officials of government, etc.; agents and collectors; bankers, brokers, and officials of banks, etc.; commercial travelers; telegraph and telephone operators, and millers (flour and grist). The largest proportion of foreign white males was found among the tailors, constituting 71.12 per cent of the whole number of male tailors, the second largest among the bakers, or 59.52 per cent, and the third largest among the hucksters and peddlers, or 53.13 per cent. The largest proportion of colored males in any one occupation was that for agricultural laborers, being 29.02 per cent, and for native white males of foreign parentage that for apprentices, or 47.80 per cent.

Among the females, native white females of native parentage constituted in 1890 more than two-thirds of all the female musicians and teachers of music and female professors and teachers, more than three-fifths of all the female farmers, planters, and overseers, and very nearly three-fifths of all the female milliners. Colored females in 1890 constituted 84.52 per cent of all the female agricultural laborers, 70.29 per cent of all the female laborers (not specified), and 70.22 per cent of all the laundresses. The largest proportion of foreign white females was found among the cotton, woolen, and other textile mill operatives, constituting 36.18 per cent of the whole number of females so occupied, while for native white females of foreign parentage the largest proportion was found among saleswomen, this class constituting 50.10 per cent of all the saleswomen.

Taking for each sex the whole number of each element of the population at work in 1890 and distributing it according to the number and percentage engaged in each of certain specified occupations, the following results are obtained:

MALES.

GENERAL NATIVITY, COLOR, AND OCCUPATIONS.	Number.	Per cent.
Native white—native parents	9,535,827	100.00
Farmers, planters, and overseers	3,340,291	35.03
Agricultural laborers	1,312,302	13.76
Laborers (not specified)	627,952	6.59
Merchants and dealers	367,886	3.86
Carpenters and joiners	351,330	3.68
Clerks, copyists, stenographers, and typewriters	280,157	2.94
Steam railroad employés (*a*)	221,408	2.32
Draymen, hackmen, teamsters, etc	155,307	1.63
Iron, steel, and other metal workers (*b*)	119,708	1.26
Salesmen	117,697	1.23
Agents (claim, commission, real estate, insurance, etc.) and collectors.	112,675	1.18
Miners and quarrymen	111,060	1.16
Painters, glaziers, and varnishers	109,984	1.15
Blacksmiths and wheelwrights	102,452	1.07
Physicians and surgeons	79,374	0.83
Bookkeepers and accountants	76,942	0.81
Machinists	75,759	0.79
Professors and teachers	73,677	0.77
Lawyers	71,972	0.75
Boot and shoe makers and repairers	70,325	0.74
Engineers and firemen (not locomotive)	68,836	0.72
Masons (brick and stone)	63,945	0.67
Saw and planing mill employés, etc. (*c*)	60,964	0.64
Cotton, woolen, and other textile mill operatives	58,067	0.61
Manufacturers and officials of manufacturing companies.	57,627	0.60
Printers and compositors	52,882	0.55
Officials (government), etc. (*d*)	51,500	0.54
Clergymen	49,232	0.52
Lumbermen and wood choppers	46,949	0.49
All other occupations	1,247,567	13.11
Native white—foreign parents	2,737,714	100.00
Farmers, planters, and overseers	424,786	15.52
Agricultural laborers	258,771	9.45
Laborers (not specified)	232,944	8.51
Clerks, copyists, stenographers, and typewriters	146,302	5.34
Merchants and dealers	110,989	4.05
Iron, steel, and other metal workers (*b*)	102,064	3.73
Draymen, hackmen, teamsters, etc	81,278	2.97
Carpenters and joiners	78,660	2.87
Steam railroad employés (*a*)	76,561	2.80
Miners and quarrymen	60,994	2.23
Salesmen	53,003	1.94
Cotton, woolen, and other textile mill operatives	52,660	1.92
Painters, glaziers, and varnishers	48,911	1.79
Machinists	44,150	1.61
Blacksmiths and wheelwrights	37,142	1.36
Restaurant and saloon keepers and bartenders	35,864	1.31
Apprentices	35,585	1.30
Printers and compositors	33,486	1.22
Bookkeepers and accountants	33,060	1.21
Messengers, packers, porters, etc	32,377	1.18
Boot and shoe makers and repairers	31,191	1.14
Butchers	27,139	0.99
Agents (claim, commission, real estate, insurance, etc.) and collectors.	26,127	0.95
Engineers and firemen (not locomotive)	26,075	0.95
Plumbers and gas and steam fitters	25,573	0.93
Masons (brick and stone)	24,790	0.91
Servants	21,601	0.79
Tobacco and cigar factory operatives	20,278	0.74
Saw and planing mill employés, etc. (*c*)	18,327	0.67
Barbers and hairdressers	17,813	0.65
Tailors	17,624	0.64
Manufacturers and officials of manufacturing companies.	16,907	0.62
Wood workers (not otherwise specified)	16,259	0.59
Watchmen, policemen, and detectives	14,633	0.53
Native white—foreign parents—Continued.		
Officials (government), etc. (*d*)	13,075	0.48
Marble and stone cutters	12,573	0.46
Hostlers and livery stable keepers	12,054	0.44
All other occupations	416,088	15.21
Foreign white	4,329,606	100.00
Farmers, planters, and overseers	743,161	17.16

All other occupations	11,550	1.18

a Includes sewing machine operators and shirt, collar, and cuff makers. b Persons of negro descent, Chinese, Japanese, and civilized Indians.

The occupations used in the preceding table are arranged under each element of the population in the order of their numerical importance, and consolidations have been made wherever necessary, as in the preceding table. The results shown herein are so plainly apparent that the figures need not be analyzed in detail.

OCCUPATIONS BY AGE PERIODS.

The following statement shows the whole number of males and females of each specified age in 1890, and the number and percentage in each case engaged in gainful occupations:

AGE PERIODS.	MALES 10 YEARS OF AGE AND OVER.			FEMALES 10 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	24,352,659	18,821,090	77.29	23,060,900	3,914,571	16.97
10 to 14 years	3,574,787	400,586	11.21	3,458,722	202,427	5.85
15 to 19 years	3,248,711	1,904,865	58.63	3,308,852	906,240	27.39
20 to 24 years	3,104,893	2,856,993	92.02	3,091,783	947,220	30.64
25 to 34 years	5,123,975	4,989,814	97.38	4,682,432	807,670	17.25
35 to 44 years	3,705,648	3,626,356	97.86	3,346,031	441,067	13.18
45 to 54 years	2,627,024	2,538,459	96.63	2,430,878	313,363	12.89
55 to 64 years	1,630,373	1,514,615	92.90	1,499,997	180,387	12.03
65 years and over	1,233,719	910,895	73.83	1,183,569	98,158	8.29
Age unknown	103,529	78,507	75.83	58,636	18,039	30.76

Of the whole number of males 10 to 14 years of age, 400,586, or 11.21 per cent, were engaged in gainful occupations, and of the whole number of females of the same ages, 202,427, or 5.85 per cent, were occupied. As compared with 1880, this shows a very great diminution in the proportion of children at work, although the exact decrease can not be determined on account of the slight difference in the age classification of persons occupied in 1880 as compared with 1890. At the census of 1880 there were 825,187 males and 293,169 females 10 to 15 years of age at work, constituting, respectively, 24.44 and 8.96 per cent of the whole number of males and females of the ages stated. All other persons at work in 1880 were classified with respect to age according to the number of each sex from 16 to 59 years and 60 years and over, so that no comparisons can be made according to the number and percentage at work of each of the specified ages as given in 1890. The whole number of males from 16 to 59 years of age at work in 1880 was 12,986,111, or 93.38 per cent of the whole number of males of those ages, while the females from 16 to 59 years of age at work in 1880 numbered 2,283,115 and constituted 17.07 per cent of all females of those ages. At the census of 1890 the males from 15 to 59 years of age (including "Age unknown") who were at work numbered 16,817,840 and constituted 89.53 per cent of the entire number of males of the ages specified, while of the females of the same ages those at work numbered 3,529,611 and constituted 19.92 per cent. Of the whole number of males 60 years of age and over in 1880, those at work numbered 933,644 and constituted 64.28 per cent, as compared with 1,602,664, or 80.44 per cent, in 1890. Among the females 60 years of age and over in 1880, those at work numbered 70,873 and constituted 5.15 per cent, as compared with 182,534, or 9.69 per cent, in 1890. The number of persons 60 years of age and over at work in 1890 does not appear in the preceding table. The number and percentage of persons at work for each specified period of years in 1890 are given in detail in the preceding table and do not require extended analysis.

The following table shows, for each element of the population in 1890, the number and percentage at work, classified by sex and age periods:

SEX AND AGE PERIODS.	NATIVE WHITE POPULATION OF NATIVE PARENTAGE 10 YEARS OF AGE AND OVER.			NATIVE WHITE POPULATION OF FOREIGN PARENTAGE 10 YEARS OF AGE AND OVER.			FOREIGN WHITE POPULATION 10 YEARS OF AGE AND OVER.			COLORED POPULATION (a) 10 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

From this table it is seen that the proportion of persons from 10 to 14 years of age at work is very much larger for the foreign white and colored, both male and female, than for the native white, whether of native or foreign parentage. This is also the case with those from 15 to 19 years of age, especially with respect to females, the largest proportion at work being found among the foreign white. It will also be noticed that the proportion of colored 65 years of age and over who were at work is large, as compared with the proportion at work among each of the other elements of the population of the same age.

The following table shows the distribution by age periods of the whole number of males and females engaged in gainful occupations and in each class of occupations:

SEX AND AGE PERIODS.	NUMBER AND PER CENT OF PERSONS OF EACH SPECIFIED AGE OF TOTAL PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS AND IN EACH CLASS OF OCCUPATIONS.

Males from 25 to 34 years of age engaged in gainful occupations in 1890 constituted 26.51 per cent of the whole number at work, and those from 35 to 44 years of age 19.27 per cent. The largest percentage of females engaged in gainful occupations was that for those from 20 to 24 years of age, or 24.20 per cent, the next largest being 23.15 per cent for those from 15 to 19 years of age, and the third largest being 20.63 per cent for those from 25 to 34 years of age, these three age periods combined constituting more than two-thirds of all the females at work. Taking the whole number of males from 15 to 45 years of age engaged in gainful occupations, it is seen that they constituted in 1890 more than seventh-tenths of all the males at work, while of the whole number of females at work those from 15 to 45 years of age constituted very nearly four-fifths.

The proportions of males and females of the various age periods engaged in each class of occupations vary considerably, as shown by the preceding table, the most noticeable being the large proportion of females engaged in professional service, principally teachers, represented by the two age periods, 20 to 24 years and 25 to 34 years, and comprehending 66.99 per cent of all the females in professional service.

The distribution of each sex engaged in gainful occupations according to the percentage in each class of occupations is shown for each age period in the following table:

AGE PERIODS.	PER CENT OF MALES ENGAGED IN EACH CLASS OF OCCUPATIONS OF TOTAL MALES ENGAGED IN GAINFUL OCCUPATIONS.					PER CENT OF FEMALES ENGAGED IN EACH CLASS OF OCCUPATIONS OF TOTAL FEMALES ENGAGED IN GAINFUL OCCUPATIONS.				
	Agriculture, fisheries, and mining.	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.	Agriculture, fisheries, and mining. For each of the six periods covering the ages from 15 to 64 years there was in 1890 very nearly the same proportion of males engaged in manufacturing and mechanical industries, the number in this class constituting in each case somewhat more than one-fifth of the whole number of males of the specified ages at work. The percentages of males engaged in agriculture, fisheries, and mining are especially large for those from 10 to 14 years of age and for those 65 years of age and over, while the smallest percentage shown for this class was that for males from 25 to 34 years of age.

Females engaged in manufacturing and mechanical industries in 1890 constituted a very considerable proportion of the whole number of females at work for the periods from 15 to 19 years, 20 to 24 years, and 25 to 34 years of age, respectively, and a somewhat less proportion for the period from 35 to 44 years of age. With the exception of the period from 10 to 14 years, females engaged in domestic and personal service constituted the largest proportion of all the females of each of the specified ages at work, but of those from 10 to 14 years of age there was a slightly larger proportion engaged in agriculture, fisheries, and mining. For the three older periods, comprehending females 45 years of age and over, the proportion engaged in agriculture, fisheries, and mining was also large, being very nearly equal to that for those in domestic and personal service for females 65 years of age and over, and only slightly less for females from 55 to 64 years of age.

The total number of males 20 years of age and over in the United States in 1890 was 17,529,161, and of this number 16,515,639, or 94.22 per cent, were engaged in gainful occupations. The number and percentage of males 20 years of age and over engaged in gainful occupations in each state and territory in 1890 are given in the following table:

STATES AND TERRITORIES.	MALES 20 YEARS OF AGE AND OVER.			STATES AND TERRITORIES.	MALES 20 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.			Total.	Number and per cent engaged in gainful occupations.

From the preceding table it is seen that there were in 1890, for the entire country, 7,193,534 males 20 years of age and over engaged in agriculture, fisheries, and mining, and that this number constituted 43.56 per cent of the whole number of males of that age who were occupied. The state containing the largest proportion of adult males engaged in this class of occupations in 1890 was Mississippi, where they constituted 78.70 per cent of all adult males at work. In Arkansas, North Carolina, and South Carolina practically three-fourths of all the adult males who were occupied were engaged in agriculture, fisheries, and mining, while in the remaining states of the South Atlantic and South Central divisions, with the exception of Delaware, Maryland, and the District of Columbia, from one-half to two-thirds of the adult males at work were so occupied. In the North Central division, the largest proportions of males of the specified ages who were engaged in agriculture, fisheries, and mining in 1890 were found in North Dakota, South Dakota, Kansas, Iowa, Nebraska, Missouri, and Indiana, in the order named; in each of these states the adult males who were so occupied constituted more than one-half, and in the Dakotas more than two-thirds, of all the adult males at work. In the Western division, males 20 years of age and over engaged in agriculture, fisheries, and mining constituted more than one-half of all the adult males at work in Idaho and New Mexico only, while in the North Atlantic division this was true of Vermont only.

Turning to manufacturing and mechanical industries, we find that Rhode Island has the largest proportion of adult males engaged in this class of occupations, constituting 46.03 per cent of all the adult males at work, closely followed by Massachusetts with 45.94 per cent and Connecticut with 44.01 per cent, and these by New Jersey with 37.89 per cent and New Hampshire with 36.93 per cent. In New York and Pennsylvania the adult males engaged in manufacturing and mechanical industries constituted somewhat more than three-tenths, in Delaware very nearly two-thirds, in Maine, the District of Columbia, and Maryland somewhat more than one-half, and in Ohio very nearly one-half, of all the adult males at work.

OCCUPATIONS BY CONJUGAL CONDITION.

In the tabulation of occupations according to the conjugal condition of the persons occupied, the small number for whom the conjugal condition was "unknown" were combined, for convenience of presentation, with the single.

The number and percentage of males and females at work, out of the whole number of single, married, widowed, and divorced, in 1890, are as follows:

CONJUGAL CONDITION.	MALE POPULATION 10 YEARS OF AGE AND OVER			FEMALE POPULATION 10 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	24,352,659	18,821,090	77.29	23,060,900	3,914,571	16.97
Single and unknown	12,282,893	7,378,971	60.08	9,708,194	2,733,825	28.16
Married	11,205,228	10,749,080	95.93	11,126,196	515,260	4.63
Widowed	815,437	648,457	79.52	2,154,615	630,268	29.25
Divorced	49,101	44,582	90.80	71,895	35,218	48.99

Of all the married males in 1890, those at work constituted 95.93 per cent, while of all the married females only 4.63 per cent were at work. Of the divorced females, very nearly one-half, or 48.99 per cent, were at work, and of widowed females, very nearly three-tenths, or 29.25 per cent.

The tables following show, for each state and territory, the number of single, married, widowed, and divorced males and females engaged in gainful occupations in 1890, and the percentage which they constituted in each case of the whole number of males and females of each conjugal condition:

STATES AND TERRITORIES.	MALE POPULATION 10 YEARS OF AGE AND OVER, CLASSIFIED BY CONJUGAL CONDITION.											
	Single and unknown.			Married.			Widowed.			Divorced.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations		Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.		Number.	Per cent.		Number.	Per cent.

a Persons of negro descent, Chinese, Japanese, and civilized Indians. b Includes all persons of negro descent.

From this table it appears that by far the larger part of the married females at work in 1890 were found among the colored, and that this class constituted 22.52 per cent of all the colored females who were married. Next to the colored, the largest percentage of married females at work was that for foreign white, those at work constituting 2.98 per cent of all foreign white females, while the percentage of married females at work among the native white elements of the population was slightly less. Among the widowed and divorced the percentages of colored females at work in 1890 were correspondingly large, being 62.29 per cent for the widowed and 79.52 per cent for the divorced.

For the males, it appears that of the colored very nearly all of those married, or 98.18 per cent, were at work, and if those of negro descent are considered alone, a slightly larger per cent, or 98.26, were at work. The largest percentages of widowed and divorced males at work were also found among the colored, those at work constituting 92.05 per cent of all the widowed and 96.72 per cent of all the divorced males who were colored.

The distribution of persons of each sex in each class of occupations according to conjugal condition is shown in the following table:

SEX AND CLASSES OF OCCUPATIONS.	SINGLE AND UNKNOWN.		MARRIED.		WIDOWED.		DIVORCED.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Males	7,378,971	39.21	10,749,080	57.11	648,457	3.44	44,582	0.24
Agriculture, fisheries, and mining	3,046,910	36.56	4,969,477	59.63	298,573	3.58	18,853	0 23
Professional service	205,195	32.43	400,243	63.27	25,192	3.98	2,016	0.32
Domestic and personal service	1,243,574	46.18	1,345,368	49.96	96,627	3.59	7,310	0.27
Trade and transportation	1,327,079	42.84	1,680,594	54.25	83,684	2.70	6,344	0.21
Manufacturing and mechanical industries	1,556,213	38.29	2,353,398	57.91	144,381	3.55	10,059	0.25
Females	2,733,825	69.84	515,260	13.16	630,268	16.10	35,218	0.90
Agriculture, fisheries, and mining	295,148	43.44	152,956	22.51	225,548	33.19	5,871	0 86
Professional service	273,898	87.88	21,649	6.94	14,337	4.60	1,803	0.58
Domestic and personal service	1,164,960	69.85	214,068	12.84	272,109	16.32	16,561	0.99
Trade and transportation	187,829	82.23	16,875	7.39	22,219	9.73	1,498	0.65
Manufacturing and mechanical industries	811,990	79.05	109,712	10.68	96,055	9.35	9,485	0.92

Of the whole number of males engaged in gainful occupations in 1890, the married constituted 57.11 per cent, the single and unknown 39.21 per cent, the widowed 3.44 per cent, and the divorced 0.24 per cent. The largest percentage of married males was found in professional service and the largest percentage of single and unknown males in domestic and personal service. As would be naturally supposed, very nearly seven-tenths,

or 69.84 per cent, of all the females at work in 1890 were single or unknown, married females at work constituting 13.16 per cent of the whole number at work, widowed females 16.10 per cent, and divorced females 0.90 per cent. Of the females engaged in agriculture, fisheries, and mining, 33.19 per cent were widowed, 22.51 per cent were married, and 0.86 per cent were divorced, leaving little more than two-fifths, or 43.44 per cent, who were single or unknown. Married females at work in 1890 constituted 12.84 per cent of all the females in domestic and personal service, and 10.68 per cent of those in manufacturing and mechanical industries.

The distribution according to conjugal condition of males and females engaged in principal occupations is shown in the following table:

MALES.

PRINCIPAL OCCUPATIONS.	SINGLE AND UNKNOWN.		MARRIED.		WIDOWED.		DIVORCED.

a Includes sewing machine operators and shirt, collar, and cuff makers.

Of all the occupations considered, the largest percentage of single and unknown males was found among apprentices, with 98.07 per cent; agricultural laborers, with 72.27 per cent; messengers, packers, porters, etc., with 71.65 per cent; servants, with 68.98 per cent; clerks, copyists, stenographers, and typewriters, with 68.04 per cent; telegraph and telephone operators, with 65.06 per cent, and bartenders, with 62.79 per cent. Other occupations in which the single and unknown males constituted more than one-half of all the males so occupied were printers and compositors; salesmen; plumbers and gas and steam fitters; professors and teachers; cotton, woolen, and other textile mill operatives; brick and tile makers and terra cotta workers; stock raisers, herders, and drovers; lumbermen, raftsmen, and wood choppers; bookkeepers and accountants, and tobacco and cigar factory operatives.

The statistics of occupations with respect to conjugal condition have their chief value relative to married females engaged in remunerative work. Taking this class of female workers, we find that, of the occupations considered, they constituted 31.60 per cent of all the laundresses, 27.32 per cent of all the female agricultural laborers, 26.78 per cent of all the female laborers (not specified), and 23.17 per cent of all the female boarding and lodging house keepers. Of the female operatives in tobacco and cigar factories, 16.53 per cent were married, and of those in cotton, woolen, and other textile mills, 10.29 per cent were married. More than three-fourths of all the female farmers, planters, and overseers were widowed, and of female boarding and lodging house keepers the widowed constituted fully three-fifths.

OCCUPATIONS BY ILLITERACY.

The illiterate male and female population engaged in gainful occupations in 1890 is classified by general nativity and color in the following table, giving in addition the percentages which those at work are of the whole number of illiterate males and females in each case:

GENERAL NATIVITY AND COLOR.	ILLITERATE MALE POPULATION 10 YEARS OF AGE AND OVER.			ILLITERATE FEMALE POPULATION 10 YEARS OF AGE AND OVER.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	3,008,222	2,538,765	80.06	3,316,480	852,306	25.70
Total white	1,517,722	1,278,077	84.21	1,691,852	218,758	12.91
Native white	978,408	788,468	80.59	1,086,595	130,536	12.01
Native parents	888,415	719,824	81.02	1,002,308	118,579	11.83
Foreign parents	89,993	68,644	76.28	84,287	11,957	14.19
Foreign white	539,314	489,609	90.78	605,257	88,222	14.50
Total colored (a)	1,490,500	1,310,688	87.94	1,624,628	633,548	39.07
Persons of negro descent	1,438,923	1,264,462	87.88	1,603,745	630,970	39.34

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Considerably more than four-fifths of the illiterate male population and a little more than one-fourth of the illiterate female population in 1890 were engaged in gainful occupations, as shown by the preceding table. The largest percentage of illiterate males at work was found among the foreign white and colored, 90.78 per cent of all the illiterate foreign white males and 87.94 per cent of all the illiterate colored males being at work. The illiterate colored females at work constituted 39.07 per cent of the whole number of illiterate colored females in 1890, this percentage being more than two and one-half times as large as that reported for any other class of the female population.

The proportion of illiterate males and females at work to the whole number of persons of each sex who were occupied is shown for each element of the population, as follows:

GENERAL NATIVITY AND COLOR.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		
	Total.	Illiterates.		Total.	Illiterates.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	18,821,090	2,588,765	13.75	3,914,571	852,306	21.77
Total white	16,603,147	1,278,077	7.70	2,939,041	218,758	7.44
Native white	12,273,541	788,468	6.42	2,163,890	130,536	6.03
Native parents	9,535,827	719,824	7.55	1,359,196	118,579	8.72

Total colored (a)	2,217,943	1,310,688	59.09	975,530	633,548	64.94
Persons of negro descent	2,101,379	1,264,462	60.17	971,785	630,970	64.93

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the whole number of males and females engaged in gainful occupations in 1890, 13.75 and 21.77 per cent, respectively, were returned as illiterate. As shown by the foregoing table, by far the larger proportion of these illiterates were colored, and for this class of the population the illiterate males constituted 59.09 per cent and the illiterate females 64.94 per cent of the whole number of persons of each sex at work.

The following table shows, by sex, the proportion of illiterates in each class of occupations in 1890:

CLASSES OF OCCUPATIONS.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		
	Total.	Illiterates.		Total.	Illiterates.	
		Number.	Per cent.		Number.	Per cent.
All occupations	18,821,090	2,588,765	13.75	3,914,571	852,306	21.77
Agriculture, fisheries, and mining	8,333,813	1,706,463	20.48	679,523	385,932	56.79
Professional service	632,646	3,863	0.61	311,687	270	0.09
Domestic and personal service	2,692,879	508,859	18.90	1,667,698	412,768	24.75
Trade and transportation	3,097,701	142,944	4.61	228,421	3,955	1.73
Manufacturing and mechanical industries	4,064,051	226,636	5.58	1,027,242	49,381	4.81

Illiterate persons engaged in agriculture, fisheries, and mining constituted 20.48 per cent of all the males and 56.79 per cent of all the females so occupied. The next largest percentages of illiterate males and females were found in domestic and personal service, constituting, respectively, 18.90 and 24.75 per cent of all the males and females in this class of occupations. In each of the other classes the percentages of illiterates were relatively small, as shown by the table.

The number and percentage of illiterates of the total number of males and females engaged in principal occupations in 1890 are shown in the following table:

MALES.

PRINCIPAL OCCUPATIONS.	PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			PRINCIPAL OCCUPATIONS.	PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.

Laborers (not specified)	54,815	34,509	62.96	Dressmakers	288,328	3,212	1.11
Laundresses	216,631	109,827	50.70	Milliners, seamstresses, etc. (*f*)	228,127	10,209	4.48
Nurses and midwives	41,396	3,594	8.68	Tailoresses	63,809	3,576	5.60
Servants	1,216,639	247,291	20.33	Tobacco and cigar factory operatives	27,991	4,014	14.34

a Includes officers of United States army and navy.
b Brokers (commercial) not included.
c Includes locomotive engineers and firemen.
d Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.
e Includes door, sash, and blind makers.
f Includes sewing machine operators and shirt, collar, and cuff makers.

The largest percentage of illiterate males of all the occupations considered was that for agricultural laborers, constituting 29.87 per cent of all the males so occupied. The next largest percentages of illiterates were 24.62 for fishermen and oystermen, 23.04 for male laborers (not specified), 21.44 for male brick and tile makers and terra cotta workers, 19.36 for lumbermen, raftsmen, and wood choppers, 19.27 for male servants, 18.26 for male hucksters and peddlers, 17.38 for male miners and quarrymen, and 16.10 for male farmers, planters, and overseers.

Among the females, it is seen that in 1890 more than two-thirds of all the agricultural laborers and more than three-fifths of all the laborers (not specified) were illiterate. Of the laundresses, the illiterates constituted more than 50 per cent, and of the female farmers, planters, and overseers, nearly 36 per cent.

OCCUPATIONS BY INABILITY TO SPEAK ENGLISH.

The following table shows the number and percentage of males and females who can not speak English engaged in gainful occupations, classified by general nativity and color:

GENERAL NATIVITY AND COLOR.	MALES 10 YEARS OF AGE AND OVER WHO CAN NOT SPEAK ENGLISH.			FEMALES 10 YEARS OF AGE AND OVER WHO CAN NOT SPEAK ENGLISH.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	858,889	765,152	89.09	859,607	116,094	13.51
Total white	773,029	685,879	88.73	836,040	111,056	13.28
Native white	106,533	74,472	69.91	131,492	11,163	8.49
Native parents	75,874	56,829	74.90	92,275	6,701	7.26
Foreign parents	30,659	17,643	57.55	39,217	4,462	11.38
Foreign white	666,496	611,407	91.73	704,548	99,893	14.18
Total colored (a)	85,860	79,273	92.33	23,567	5,038	21.38

a Persons of negro descent, Chinese, Japanese, and civilized Indians

From this table it appears that of the whole number of males 10 years of age and over who can not speak English, those engaged in gainful occupations in 1890 constituted 89.09 per cent, while of the whole number of females 10 years of age and over who can not speak English, 13.51 per cent were at work. The proportion of those unable to speak English at work among each element of the population is given in detail in the table, and need not be repeated.

Foreign white males and females who can not speak English engaged in gainful occupations in 1890 constituted 14.12 and 12.89 per cent, respectively, of all the foreign white males and females at work, as shown by the following table, which gives for each element of the population the proportion of persons of each sex at work who can not speak English:

GENERAL NATIVITY AND COLOR.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS		
	Total.	Can not speak English.		Total.	Can not speak English.	
		Number.	Per cent.		Number.	Per cent.

Total colored (a)	2,217,943	79,273	3.57	975,530	5,038	0 52
Persons of negro descent	2,101,379	7,200	0.34	971,785	3,482	0.36

a Persons of negro descent, Chinese, Japanese, and civilized Indians.

The number and percentage of males and females who can not speak English engaged in each class of occupations in 1890 were as follows:

CLASSES OF OCCUPATIONS.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS		
	Total.	Can not speak English.		Total.	Can not speak English	
		Number.	Per cent.		Number.	Per cent.
All occupations	18,821,090	765,152	4.07	3,914,571	116,094	2.97
Agriculture, fisheries, and mining	8,333,813	271,164	3.25	679,523	12,304	1.81
Professional service	632,646	4,921	0.78	311,687	583	0.19
Domestic and personal service	2,692,879	230,118	8.55	1,667,698	58,758	3.52
Trade and transportation	3,097,701	58,232	1.88	228,421	2,125	0.93
Manufacturing and mechanical industries	4,064,051	200,717	4.94	1,027,242	42,324	4.12

Of the whole number of males in domestic and personal service in 1890, 8.55 per cent can not speak English, and of those in manufacturing and mechanical industries, 4.94 per cent can not speak English. There were also 3.25 per cent of all the males engaged in agriculture, fisheries, and mining in 1890 who can not speak English. The largest percentage of females who can not speak English was found in manufacturing and mechanical industries, or 4.12 per cent, and the next largest in domestic and personal service, or 3.52 per cent.

The following table shows, for each of the principal occupations, the number and percentage of males and females who can not speak English:

MALES.

a Includes sewing machine operators and shirt, collar, and cuff makers.

So far as the occupations under consideration are concerned, the largest percentage of males who can not speak English was found among the tailors, 19.82 per cent of this class of male workers being reported in 1890 as unable to speak the English language. There was also a very considerable proportion of male stock raisers, herders, and drovers in 1890 who could not speak English, constituting 17.29 per cent of the whole number of males so occupied, and very nearly the same proportion, or 16.67 per cent, of male tobacco and cigar factory operatives. Males who could not speak English constituted 14.05 per cent of all the male brick and tile makers and terra cotta workers, 13.89 per cent of all the male hucksters and peddlers, 12.19 per cent of all the male miners and quarrymen, 10.41 per cent of all the male laborers (not specified), 10.10 per cent of all the male bakers, and 9.14 per cent of all the male cotton, woolen, and other textile mill operatives.

Of the occupations considered, the largest percentage of females who could not speak English was found among tobacco and cigar factory operatives, this element constituting 11.54 per cent of the whole number of females so occupied. The next largest percentages were 9.54 for female cotton, woolen, and other textile mill operatives, and 8.27 for tailoresses.

OCCUPATIONS BY MONTHS UNEMPLOYED.

This is the first time in the Federal Census that information of this character has been compiled and presented in connection with the statistics of occupations derived from answers made on the population schedule.

In using these figures it must be understood that they do not represent the number of persons who may have been unemployed at any one time, but simply the aggregate number of persons who were unemployed for different lengths of time and, to a very considerable extent, probably, at different times during the census year, covering the 12 months from June 1, 1889, to May 31, 1890.

It should be stated further that these figures only show the number and approximate length of time unemployed with regard to the principal occupation in which persons so reported were usually engaged and upon which they depended chiefly for a livelihood. They do not show, therefore, the actual length of time for which they were unemployed in any form of remunerative labor, that is, the net period, after making allowance for the time when not engaged at their principal or usual occupation, during which their services may have been utilized at some other kind of work. Although the census enumerators were fully instructed on this point, the returns were not considered complete enough to warrant their compilation.

The following table shows the number and percentage of males and females who were unemployed at their principal occupation during any portion of the census year ending May 31, 1890, subdivided according to general nativity and color:

GENERAL NATIVITY AND COLOR.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		
	Total.	Unemployed during portion of year. (a)		Total.	Unemployed during portion of year. (a)	
		Number	Per cent.		Number.	Per cent.
Aggregate	18,821,090	3,013,117	16 01	3,914,571	510,613	13 04
Total white	16,603,147	2,621,318	15.76	2,939,041	356,734	12.14
Native white	12,273,541	1,847,854	15 05	2,163,890	287,625	13 29
Native parents	9,535,827	1,408,089	14.77	1,359,196	175,647	12 92
Foreign parents	2,737,714	439,165	16.04	804,694	111,978	13 92
Foreign white	4,329,606	773,464	17.86	775,151	69,109	8 92
Total colored (b)	2,217,943	391,799	17.66	975,530	153,879	15 77
Persons of negro descent	2,101,379	374,638	17 83	971,785	153,546	15 80

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.
b Persons of negro descent, Chinese, Japanese, and civilized Indians.

As shown by the above table, there were 3,013,117 males and 510,613 females 10 years of age and over who were unemployed at their principal occupation during some part of the census year ending May 31, 1890, constituting 16.01 and 13.04 per cent, respectively, of the whole number of males and females engaged in gainful occupations. The total number of persons who were unemployed at their principal occupation during any portion of the census year was 3,523,730, being 15.50 per cent of the total number of persons 10 years of age and over engaged in gainful occupations in 1890.

Considered with respect to general nativity and color, it is seen that the foreign white males had the largest proportion of their number unemployed and the foreign white females the smallest proportion.

The length of time unemployed during the census year, expressed in periods of months, is shown for each element of the population as follows:

GENERAL NATIVITY AND COLOR.	MALES UNEMPLOYED DURING PORTION OF YEAR. (a)						FEMALES UNEMPLOYED DURING PORTION OF YEAR. (a)					
	1 to 3 months.		4 to 6 months.		7 to 12 months.		1 to 3 months.		4 to 6 months.		7 to 12 months.

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.
b Persons of negro descent, Chinese, Japanese, and civilized Indians.

Of the whole number of males who were unemployed at their principal occupation during any portion of the census year, 51.57 per cent were unemployed from 1 to 3 months, 39.14 per cent from 4 to 6 months, and 9.29 per cent from 7 to 12 months, while for the females, those unemployed from 1 to 3 months constituted 51.92 per cent, those from 4 to 6 months 37.01 per cent, and those from 7 to 12 months 11.07 per cent of the whole number of females unemployed.

Assuming, for want of more exact data, that the average number of months unemployed for all the persons reported for each period would be the mean in each case, as two months for those unemployed from 1 to 3 months,

five months for those unemployed from 4 to 6 months, and nine and one-half months for those unemployed from 7 to 12 months, and reducing the number of persons unemployed for the different periods to an equivalent of so many persons for one year, the approximate number of persons unemployed during the entire census year was 1,139,672, representing 5.01 per cent of the total number of persons engaged in gainful occupations (22,735,661) at the census of 1890. Divided as to sex, the approximate number of males unemployed for the entire census year was 972,000, representing 5.16 per cent of all the males at work (18,821,090) at the census of 1890, while the approximate number of females unemployed during the same period was 167,672, representing 4.28 per cent of all the females at work (3,914,571) at the census of 1890.

The distribution of the males and females who were unemployed according to classes of occupations is given in the following table:

CLASSES OF OCCUPATIONS.	MALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			FEMALES 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		
	Total.	Unemployed during portion of year. (a)		Total.	Unemployed during portion of year. (a)	
		Number.	Per cent.		Number.	Per cent.
All occupations	18,821,090	3,013,117	16.01	3,914,571	510,613	13.04
Agriculture, fisheries, and mining	8,333,813	1,120,827	13.45	679,523	108,973	16.04
Professional service	632,646	54,654	8.64	311,687	87,920	28.21
Domestic and personal service	2,692,879	689,307	25.60	1,667,698	130,774	7 84
Trade and transportation	3,097,701	247,757	8.00	228,421	15,114	6.62
Manufacturing and mechanical industries	4,064,051	900,572	22.16	1,027,242	167,832	16.34

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.

The largest proportion of males unemployed in any of the great classes of occupations is that for domestic and personal service, in which 25.60 per cent of the whole number of males so occupied were unemployed at their principal occupation during some part of the census year, and the next largest that for manufacturing and mechanical industries, or 22.16 per cent. For the females, the largest proportion was found in professional service, for which class those unemployed at principal occupation during any portion of the census year constituted 28.21 per cent of the whole number of females so occupied. The large proportion of females in this class who were unemployed is due to the great number of teachers who are not employed for the entire year in teaching school, especially in the rural sections of the country.

The following table shows for each class of occupations the length of time unemployed during the census year, expressed in periods of months:

CLASSES OF OCCUPATIONS.	MALES UNEMPLOYED DURING PORTION OF YEAR. (a)						FEMALES UNEMPLOYED DURING PORTION OF YEAR. (a)					
	1 to 3 months.		4 to 6 months.		7 to 12 months.		1 to 3 months.		4 to 6 months.		7 to 12 months.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number	Per cent.	Number.	Per cent.	Number.	Per cent.
All occupations	1,553,759	51.57	1,179,426	39.14	279,932	9.29	265,106	51.92	188,992	37.01	56,515	11.07
Agriculture, fisheries, and mining	615,824	54.94	424,368	37.86	80,635	7.20	60,636	55.64	43,973	40.35	4,364	4.01
Professional service	23,809	43.56	23,097	42.26	7,748	14.18	41,514	47.22	32,594	37.07	13,812	15.71
Domestic and personal service	317,566	46.07	300,004	43.52	71,737	10.41	62,788	48.01	52,674	40.28	15,312	11.71
Trade and transportation	126,931	51.23	92,637	37.39	28,189	11.38	6,990	46.25	5,423	35.88	2,701	17.87
Manufacturing and mechanical industries	469,629	52.15	339,320	37.68	91,623	10.17	93,178	55.52	54,328	32.37	20,326	12.11

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.

The smallest proportion of males and females unemployed more than 6 months during the census year was found in each case in agriculture, fisheries, and mining, and the largest proportion of males in professional service and of females in trade and transportation. In this connection it should be stated that in some cases the census enumerators misinterpreted the instructions relative to persons unemployed, and reported persons as unemployed from 7 to 12 months where it was plainly evident that they really meant that they were employed the number of months stated in the schedule. This was especially true with respect to such occupations as farmers, physicians, lawyers, merchants, bankers, brokers, and the like, where nonemployment for such periods of months would be the exception and not the rule. In all cases where this was clearly apparent the error was eliminated,

so far as possible, but in those cases where this point could not be fully determined the number and proportion of persons unemployed from 7 to 12 months are undoubtedly somewhat in excess of the fact. In a word, the statistics of occupations with respect to persons unemployed are approximately but not absolutely true, and this should be always borne in mind by those using the figures contained in the tables relating to this subject.

Considering the unemployed according to the number and percentage in each of the principal occupations, the following table is obtained:

MALES.

PRINCIPAL OCCUPATIONS.	PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.			PRINCIPAL OCCUPATIONS.	PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS.		
	Total.	Unemployed during portion of year. (a)			Total.	Unemployed during portion of year. (a)

Nurses and midwives	41,396	7,604	18.37	Tobacco and cigar factory operatives	27,991	7,605	27.17
Servants	1,216,639	84,742	6.97				

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.
b Includes officers of United States army and navy.
c Brokers (commercial) not included.
d Includes locomotive engineers and firemen.
e Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.
f Includes door, sash, and blind makers.
g Includes sewing machine operators and shirt, collar, and cuff makers.

The number of male miners and quarrymen who were unemployed at that occupation during any portion of the census year ending May 31, 1890, constituted very nearly one-half, or 47.87 per cent, of all the male miners and quarrymen. This proportion of unemployed males was nearly equaled in three other occupations, namely, brick and tile makers and terra cotta workers, masons (brick and stone), and plasterers, those unemployed for a part of the year constituting in each case more than two-fifths of all the males so occupied, while of fishermen and oystermen those unemployed more or less during the year constituted fully two-fifths. A third of all the male laborers (not specified) and fully three-tenths of all the males engaged in six other occupations were unemployed during some portion of the census year, these six occupations being carpenters and joiners; saw and planing mill employés, etc.; painters, glaziers, and varnishers; professors and teachers; marble and stone cutters, and lumbermen, raftsmen, and wood choppers. Of boatmen, canalmen, pilots, and sailors there were 28.83 per cent, of male coopers 26.36 per cent, and of male boot and shoe makers and repairers 25.28 per cent unemployed for a part of the time during the census year, while of the male iron, steel, and other metal workers the unemployed element during the same period constituted 22.12 per cent, of male tobacco and cigar factory operatives 21.50 per cent, of male agricultural laborers 20.54 per cent, of male leather curriers, dressers, finishers, and tanners 20.33 per cent, and of male cotton, woolen, and other textile mill operatives 19.43 per cent.

The largest percentage of females who were unemployed during any portion of the census year, of all the occupations considered in the preceding table, was that reported for female boot and shoe makers and repairers, the unemployed constituting 36.36 per cent of the whole number so occupied. There was one other occupation, namely, professors and teachers, in which the females unemployed for a part of the year constituted very nearly one third of the whole number. Female tobacco and cigar factory operatives had more than one-fourth of their number unemployed during some part of the census year, while of the female laborers (not specified) and female agricultural laborers considerably more than two-fifths, and of cotton, woolen, and other textile mill operatives very nearly two-fifths, were so unemployed.

It will be noticed that the occupations for which the number unemployed for a part of the time constituted the largest percentages of all the occupations considered are those which are either carried on to a considerable extent out of doors and for that reason wholly or partially suspended during the inclement seasons of the year, or from their nature are what may be considered "periodical" employments. It should be borne in mind, however, that it does not follow that the number of persons reported as unemployed in any or all of the occupations stated were necessarily unemployed at their respective occupations at the same time, nor can it be assumed that they were in reality idle during the period of unemployment at their principal occupation. As has been previously stated, an attempt was made to secure fairly accurate data concerning not only the extent of nonemployment at the occupation upon which each person depended chiefly for a livelihood, but also as to the period of actual nonemployment at any form of remunerative labor. The information secured relative to the latter point was not sufficiently complete to admit of its compilation, and the tabulations with respect to the unemployed were limited, therefore, to the principal or usual occupation of each person at work during the census year.

The relative lengths of time, expressed in periods of months, for which persons engaged in each of the occupations just considered were unemployed are given in detail in the following table:

MALES.

PRINCIPAL OCCUPATIONS.	PERSONS UNEMPLOYED DURING PORTION OF YEAR. (a)					
	Total.	1 to 3 months.		4 to 6 months.		7 to 12 months.	
		Number.	Per cent.	Number.	Per cent.	Number.	Per cent.

Wood workers (not otherwise specified)	11,362	6,989	61.51	3,228	28.41	1,145	10.08

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.
b Includes officers of United States army and navy.
c Brokers (commercial) not included
d Includes locomotive engineers and firemen.
e Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.
f Includes door, sash, and blind makers.

FEMALES.

FEMALES.			
Boot and shoe makers and repairers	65.79	25.65	8.56
Professors and teachers	47.61	36.73	15.66
Tobacco and cigar factory operatives	54.86	36.91	8.23
Laborers (not specified)	47.52	44.59	7.89
Agricultural laborers	55.57	40.59	3.84
Cotton, woolen, and other textile mill operatives	64.10	24.40	11.50

a Unemployed at principal occupation during any portion of census year ending May 31, 1890.

It will be noticed that the largest percentage of nonemployment for more than 6 months of the census year is given for professors and teachers, both male and female, although, generally speaking, it does not exceed 10 per cent, and in many cases is considerably less. The largest percentage of persons who were unemployed from 4 to 6 months was that for male brick and tile makers and terra cotta workers, and the second largest that for boatmen, canalmen, pilots, and sailors, constituting for each occupation more than one-half of all the males who were unemployed.

OCCUPATIONS OF FOREIGN BORN PERSONS 10 YEARS OF AGE AND OVER ACCORDING TO COUNTRY OF BIRTH.

Of the 22,735,661 persons 10 years of age and over engaged in gainful occupations in 1890, 17,517,736, or 77.05 per cent, were native born, and 5,217,925, or 22.95 per cent, were foreign born. In 1880 the foreign born persons at work numbered 3,494,647, and constituted 20.09 per cent of all persons 10 years of age and over at work.

The whole number of foreign born persons 10 years of age and over was not ascertained by the tabulations of the censuses of 1880 and 1890, so that no direct comparisons can be made as to the relative proportions of this element at work at each census. The only comparison that can be made is with respect to the whole number of such persons, including children less than 10 years of age. On this basis, the foreign born persons at work constituted 56.41 per cent of the whole number of foreign born in 1890 and 52.32 per cent of the whole number in 1880. Contrasted with similar percentages of the native born population in 1880 and 1890, these percentages show a very greatly increased proportion of the foreign born at work at each census, partly due to the very much larger number, relatively, of adults among this element of the population. Native born persons at work constituted 32.82 per cent of the total native born population in 1890 and 31.97 per cent in 1880. Taking each element of the population in 1890, the following percentages of those at work of the whole number, irrespective of age, in each case are obtained: native whites of native parentage, 31.71; native whites of foreign parentage, 30.79; foreign white, 55.96; native colored, 41.01; foreign colored, 88.63. The abnormal proportion of foreign colored at work is due, of course, to the Chinese, who are mainly adults and largely occupied.

At each of the two censuses considered, the occupations of the foreign born were tabulated according to the number born in certain specified countries. The results of the two censuses, so far as the number and percentage of persons of each nationality who were at work are concerned, are given in the following table:

PRINCIPAL COUNTRIES OF BIRTH.	FOREIGN BORN POPULATION IN 1890.			FOREIGN BORN POPULATION IN 1880.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.		Number.	Per cent.
Aggregate	9,249,547	5,217,925	56.41	6,679,943	3,494,647	52.32
Germany	2,784,894	1,501,063	53.90	1,966,742	1,033,190	52.53
Ireland	1,871,509	1,065,651	56.94	1,854,571	978,854	52.78
Great Britain	1,251,402	694,245	55.48	916,114	466,505	50.92
England and Wales	1,000,171	557,306	55.22	.....	.....	.....

Canada (English)	678,442	361,211	53.24	.....	.....	.....
Canada (French)	302,496	170,797	56.46	.....	.....	.....
Sweden and Norway	800,706	481,198	60.91	376,066	205,525	54.65
Other countries	1,560,098	943,760	60.49	849,293	459,470	54.10
Denmark	132,543	79,161	59.72	.....	.....	.....
France	113,174	68,172	60.24	.....	.....	.....
Italy	182,580	120,228	65.85	.....	.....	.....
Russia	182,644	101,391	55.51	.....	.....	.....
Bohemia	118,106	60,398	51.14	.....	.....	.....
Hungary	62,435	40,690	65.17	.....	.....	.....
All other countries	768,616	473,720	61.63	.....	.....	.....

Of the various nationalities considered in 1890, the Italians and Hungarians had the largest proportion at work, constituting in each case very nearly two-thirds of the whole number, while the smallest proportion was that for the Bohemians, being in this case but little more than one-half of the whole number. Comparing the results for those nationalities specified at both censuses, it is noticed that there was in every instance a somewhat larger proportion at work in 1890 than in 1880, and that with the single exception of the Germans the proportion was from 4 to 6 per cent larger.

Considering the whole number of persons engaged in gainful occupations in 1880 and 1890 according to the number of native and foreign born in each class of occupations, the following table is obtained:

SEX AND CLASSES OF OCCUPATIONS.	PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN EACH CLASS OF OCCUPATIONS IN 1890.			PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN EACH CLASS OF OCCUPATIONS IN 1880		
	Total.	Native born.	Foreign born.	Total.	Native born.	Foreign born.

Domestic and personal service	1,667,698	1,204,775	462,923	1,181,506	909,757	271,749
Trade and transportation	228,421	193,187	35,234	62,852	47,353	15,499
Manufacturing and mechanical industries	1,027,242	799,657	227,585	630,890	487,402	143,488

The percentages of native and foreign born persons engaged in gainful occupations and in each class of occupations in 1880 and 1890, respectively, were as follows:

SEX AND CLASSES OF OCCUPATIONS.	PER CENT OF NATIVE AND FOREIGN BORN PERSONS 10 YEARS OF AGE AND OVER ENGAGED IN GAINFUL OCCUPATIONS AND IN EACH CLASS OF OCCUPATIONS.			
	1890		1880	
	Native born.	Foreign born.	Native born.	Foreign born.
Both sexes	77.05	22.95	79.91	20.09
Agriculture, fisheries, and mining	85.25	14.75	87.86	12.14
Professional service	87.77	12.23	87.87	12.13
Domestic and personal service	67.02	32.98	72.40	27.60
Trade and transportation	78.22	21.78	76.45	23.55
Manufacturing and mechanical industries	68.36	31.64	69.45	30.55
Males	76.42	23.58	79 35	20 65
Agriculture, fisheries, and mining	84.46	15 54	86 98	13 02
Professional service	84.87	15.13	85.53	14.47
Domestic and personal service	63.79	36 21	70 05	29.95
Trade and transportation	77.75	22 25	76 48	23.52
Manufacturing and mechanical industries	65.96	34.04	67.68	32.32
Females	80.08	19.92	83.03	16.97
Agriculture, fisheries, and mining	94.98	5.02	98.83	1.17
Professional service	93.65	6 35	93.50	6.50
Domestic and personal service	72.24	27 76	77.00	23.00
Trade and transportation	84.57	15.43	75.34	24.66
Manufacturing and mechanical industries	77.84	22.16	77.26	22.74

Taking the results shown for 1890, we find that very nearly one-third, or 32.98 per cent, of all the persons engaged in domestic and personal service were foreign born, that the percentage of foreign born in manufacturing and mechanical industries was very nearly as large, or 31.64 per cent, and that in each of these two classes of occupations the foreign born males constituted more than a third of all the males so occupied.

Comparing the percentages of foreign born in each class of occupations at each census, it is seen that, with the exception of trade and transportation, there was a larger percentage in each class in 1890 than in 1880, and that the largest increase in the percentage of foreign born is that for domestic and personal service. The percentage of foreign born females in trade and transportation has decreased from 24.66 in 1880 to 15.43 in 1890, and there has also been a very slight decrease in the percentage of foreign born females in manufacturing and mechanical industries in 1890, as compared with 1880.

The following table shows the total number of foreign born persons, and those of each sex separately, who were engaged in gainful occupations and in each class of occupations in 1880 and 1890, distributed according to principal countries of birth:

SEX AND PRINCIPAL COUNTRIES OF BIRTH.	1890						1880					
	All occupations.	Agriculture, fisheries, and mining.	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.	All occupations.	Agriculture, fisheries, and mining.	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.

The percentages showing the distribution of all persons engaged in gainful occupations according to principal countries of birth, as given in the preceding table, do not differ particularly from those showing the proportion of persons of each nationality among the entire foreign born element at each census. The figures show, however, very marked differences in the proportion of each nationality in the several classes of occupations, when the percentage in any one class is considered relative to that stated for one or more of the other classes of occupations. Perhaps the most noticeable instance of this kind is the relative proportions of persons born in Ireland who were engaged in each class of occupations; that is to say, persons of this nationality constituted in 1890 more than three-tenths of all the foreign born persons engaged in domestic and personal service (31.45 per cent), as compared with only about one-eighth (12.43 per cent) of those in agriculture, fisheries, and mining, somewhat more than one-seventh (14.73 per cent) of those in professional service, and one-sixth (16.72 per cent) of those in manufacturing and mechanical industries. If this same element of the foreign born is considered by sex, it will be seen that females born in Ireland engaged in domestic and personal service in 1890 constituted two-fifths (40.47 per cent) of all the foreign born females in that class of occupations, while the males of Irish birth constituted but a little more than one-fourth (27.17 per cent) of all the foreign born males engaged in domestic and personal service at that census. The proportion of males of this nationality in each of the other classes of occupations named does not vary much from those already stated for all persons of Irish birth, without regard to sex, but the proportion of females of the same nationality is considerably larger in each of the other classes of occupations, especially in trade and transportation and in manufacturing and mechanical industries. The large percentage of persons born in Great Britain engaged in professional service in 1890, as compared with the percentage of persons of the same nationality shown for each of the other classes of occupations, is also noticeable, and this is true to a very considerable extent of persons born in British America of English extraction. The largest proportion of persons born in Sweden and Norway in any one class is that for agriculture, fisheries, and mining, while of the French Canadian element the largest proportion is found in manufacturing and mechanical industries when compared with the proportion of each element engaged in each of the other classes of occupations.

Taking the native and foreign born elements of the population engaged in gainful occupations in 1880 and 1890, and distributing them according to the percentage in each class of occupations, respectively, the following table of percentages is obtained:

SEX AND NATIVE AND FOREIGN BORN.	1890					1880				
	Agriculture, fisheries, and mining	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.	Agriculture, fisheries, and mining.	Professional service.	Domestic and personal service.	Trade and transportation	Manufacturing and mechanical industries.
	Per cent.	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent*	*Per cent.*	*Per cent*
Both sexes	39.65	4.15	19.18	14.63	22.39	46.03	3 47	20 14	10.73	19 63
Native born	43.87	4.73	16.68	14 85	19.87	50.61	3.81	18.25	10.27	17 06
Foreign born	25.47	2.22	27.56	13.88	30.87	27.81	2.09	27.67	12 58	29 85
Males	44.28	3.36	14.31	10.46	21.59	50.25	2 89	15.75	12 23	18 88
Native born	48.94	3.73	11.94	16.75	18 64	55.09	3.12	13.90	11.79	16 10
Foreign born	29.18	2.15	21.97	15.53	31.17	31.68	2.02	22.83	13.93	29.54
Females	17.36	7 96	42.60	5.84	26.24	22.46	6.70	44.63	2 38	23 83
Native born	20.59	9.31	38.43	6.16	25.51	26.74	7.54	41.39	2.15	22.18
Foreign born	4.37	2.54	59.38	4.52	29.19	1.54	2.57	60 50	3.45	31.94

As shown by the preceding table, there was relatively a much larger percentage of native born persons in agriculture, fisheries, and mining than of foreign born persons at each census, and a much smaller proportion of native born persons in domestic and personal service and in manufacturing and mechanical industries. There was also a somewhat larger proportion of native born persons in professional service, especially with respect to females, considered relatively, while for those in trade and transportation the percentage of native born persons was slightly larger than that of foreign born persons in 1890 and slightly smaller in 1880.

The following table shows the distribution of foreign born persons of each of the specified nationalities engaged in gainful occupations in 1880 and 1890, according to the percentage in each class of occupations:

SEX AND PRINCIPAL COUNTRIES OF BIRTH.	1890					1880				
	Agriculture, fisheries, and mining.	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.	Agriculture, fisheries, and mining	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries.

Of all the nationalities considered, the largest proportion engaged in agriculture, fisheries, and mining in 1890 was that for Denmark, being two-fifths of the whole number of persons of that nationality engaged in gainful occupations. Very nearly two-fifths, or 37.93 per cent, of all of the natives of Sweden and Norway at work were engaged in agriculture, fisheries, and mining, and very nearly one-third of all those of Bohemian birth. The French Canadian element, on the other hand, had the smallest proportion of those at work in 1890 engaged in agriculture, fisheries, and mining, but had by far the largest proportion in manufacturing and mechanical industries. More than two-fifths of all those of Irish and Italian birth at work in 1890 were engaged in domestic and personal service, while of the natives of Great Britain the largest proportion of those at work in 1890 was found in manufacturing and mechanical industries.

For the foreign born males of each nationality there are no very marked differences in the percentages of distribution by classes of occupations from those stated for the whole element of each nationality without regard to sex, but for the females of foreign birth the concentration in one or more classes of occupations is very pronounced, especially with respect to natives of Germany, Ireland, Canada (French), Sweden and Norway, and Denmark. Three-fifths of all the females of German birth, seven-tenths of all the females of Irish birth, very nearly four-fifths of all the females of Swedish or Norwegian birth, and more than three-fourths of all the females of Danish birth who were at work in 1890 were found in domestic and personal service, while of those of French Canadian birth at work in 1890, considerably more than four-fifths were in manufacturing and mechanical industries.

Comparing the results for each nationality in 1890 with those for 1880, without regard to sex, it is seen that there has been uniformly a decrease in the percentage engaged in agriculture, fisheries, and mining, this decrease being more than 10 per cent in the case of natives of Sweden and Norway, and 5 per cent in the case of natives of Great Britain and of "Other countries". There has been in each instance an increase in the proportion engaged in trade and transportation and in manufacturing and mechanical industries, and also, with the exception of those born in British America, in domestic and personal service. The changes in the percentages in professional service are very slight, being small increases in all but two instances, namely, for natives of Germany and of "Other countries".

In the following statement the total number of persons of each sex engaged in principal occupations in 1890 is distributed by number and percentage according to country of birth:

MALES.

COUNTRY OF BIRTH AND PRINCIPAL OCCUPATIONS.	Number.	Per cent.
Germany	1,337,660	100.00
Farmers, planters, and overseers	282,730	21.14
Laborers (not specified)	154,894	11.58
Agricultural laborers	78,868	5.90
Merchants and dealers	73,308	5.48
Carpenters and joiners	50,501	3.78
Tailors	36,351	2.72
Iron, steel, and other metal workers (*a*)	35,714	2.67
Boot and shoe makers and repairers	27,978	2.09
Draymen, hackmen, teamsters, etc	25,025	1.87
Butchers	24,402	1.82
Bakers	23,529	1.76
Blacksmiths and wheelwrights	21,233	1.59
Clerks, copyists, stenographers, and typewriters	20,931	1.56
Restaurant and saloon keepers	20,729	1.55
Steam railroad employés (*b*)	20,395	1.52
Miners and quarrymen	19,232	1.44
Masons (brick and stone)	19,043	1.42
Painters, glaziers, and varnishers	18,862	1.41
Machinists	16,441	1.23
Cabinet makers and upholsterers	16,114	1.20
Servants	15,048	1.12
Cotton, woolen, and other textile mill operatives	14,708	1.10
Tobacco and cigar factory operatives	14,316	1.07
Brewers and maltsters	13,174	0.99
Gardeners, florists, nurserymen, etc	11,435	0.85
Barbers and hairdressers	10,999	0.82
Salesmen	10,943	0.82
Manufacturers and officials of manufacturing companies	10,733	0.80
Saw and planing mill employés, etc (*c*)	10,166	0.76
Wood workers (not otherwise specified)	9,488	0.71
Agents (claim, commission, real estate, insurance, etc.) and collectors	8,908	0.67
Bartenders	8,511	0.64
Coopers	8,408	0.63
Engineers and firemen (not locomotive)	7,994	0.60
Hucksters and peddlers	7,109	0.53
Germany—Continued.		
Brick and tile makers and terra cotta workers	6,262	0.47
Leather curriers, dressers, finishers, and tanners	6,178	0.46
Harness, saddle, trunk, valise, leather-case, and pocket-book makers	6,110	0.46
Bookkeepers and accountants	6,000	0.45
Other occupations	164,881	12.32
Ireland	804,699	100.00
Laborers (not specified)	202,425	25.16
Farmers, planters, and overseers	93,358	11.60
Steam railroad employés (*b*)	36,481	4.53
Iron, steel, and other metal workers (*a*)	32,494	4.04
Draymen, hackmen, teamsters, etc	28,693	3.57
Miners and quarrymen	27,918	3.47
Merchants and dealers	26,660	3.31
Agricultural laborers	25,023	3.11
Cotton, woolen, and other textile mill operatives	18,446	2.29
Carpenters and joiners	16,126	2.01
Masons (brick and stone)	14,540	1.81
Servants	14,416	1.79
Blacksmiths and wheelwrights	13,926	1.73
Boot and shoe makers and repairers	13,307	1.65
Clerks, copyists, stenographers, and typewriters	12,875	1.60
Watchmen, policemen, and detectives	12,471	1.55
Engineers and firemen (not locomotive)	11,045	1.37
Machinists	8,203	1.02
Restaurant and saloon keepers	7,767	0.97
Marble and stone cutters	7,572	0.94
Hostlers and livery stable keepers	7,429	0.92
Gardeners, florists, nurserymen, and vine growers	7,067	0.88
Painters, glaziers, and varnishers	6,944	0.86
Leather curriers, dressers, finishers, and tanners	6,208	0.77
Foremen and overseers	5,998	0.75
Tailors	5,778	0.72
Salesmen	5,253	0.65

a Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.

b Includes locomotive engineers and firemen.

c Includes door, sash, and blind makers.

OCCUPATIONS OF WHITE PERSONS 10 YEARS OF AGE AND OVER ACCORDING TO BIRTHPLACE OF MOTHERS.

Of the 5,217,925 foreign born persons who were engaged in gainful occupations in 1890, all but 113,167 (principally Chinese) were white, but the discussion of this element of foreign birth alone does not show the relative proportion of white persons of foreign extraction in gainful occupations, or their distribution according to classes and specified occupations. The tabulation of the occupation data was extended to include, therefore, all white persons having mothers born in foreign countries, subdivided according to birthplace of mothers, the whole number of white persons (irrespective of age) having mothers born in foreign countries being 18,094,950, and the number 10 years of age and over engaged in gainful occupations was 8,020,036. The whole number of white persons 10 years of age and over having mothers born in foreign countries was not separately tabulated in 1890, so that no direct comparison can be made as to the percentage of those of each nationality who were engaged in gainful occupations. For this reason the following table shows, for each nationality, the total number only of white persons having mothers born in foreign countries, the number 10 years of age and over engaged in gainful occupations, and the percentage which the latter constituted, in each case, of the whole number of white persons having mothers born as specified:

BIRTHPLACE OF MOTHERS.	WHITE PERSONS HAVING MOTHERS BORN IN FOREIGN COUNTRIES.		
	Total.	Number and per cent engaged in gainful occupations.	
		Number.	Per cent.
Aggregate	18,094,950	8,020,036	44.32
Germany	6,146,255	2,611,123	42.48
Ireland	4,608,833	2,273,557	49 33
England and Wales	1,893,767	843,260	44.53
Scotland	519,330	245,963	47.36
Canada (English)	841,677	311,626	37.02
Canada (French)	481,689	209,326	43.46
Scandinavia	1,524,712	636,113	41.72
France	229,856	114,238	49.70
Italy	239,342	125,324	52.36
Hungary	72,043	38,488	53.42
Bohemia	215,085	73,799	34.31
Other countries	1,322,361	537,219	40.63

The percentage of white persons having mothers born in foreign countries who were engaged in gainful occupations of the whole number of such persons does not exceed 50 per cent in but two instances, namely, those having mothers born in Hungary and in Italy, although it was very nearly 50 per cent in the case of those having mothers born in France and in Ireland. It will be noticed that in all cases the percentages are considerably lower than those previously given for foreign born persons of the various nationalities, and this is due, of course, to the much larger proportion of women and children among the native born element of foreign extraction.

The following table shows the number of white persons having mothers born in each specified country engaged in each class of occupations in 1890, and the percentage in each case of the total number of white persons having mothers born in foreign countries similarly occupied:

BIRTHPLACE OF MOTHERS.	NUMBER OF WHITE PERSONS HAVING MOTHERS BORN IN FOREIGN COUNTRIES ENGAGED IN—						PER CENT OF WHITE PERSONS HAVING MOTHERS BORN IN EACH SPECIFIED COUNTRY OF TOTAL WHITE PERSONS HAVING MOTHERS BORN IN FOREIGN COUNTRIES ENGAGED IN—					
	All occupations.	Agriculture, fisheries, and mining	Professional service.	Domestic and personal service.	Trade and transportation.	Manufacturing and mechanical industries. Briefly analyzed, this table shows that of the whole number of white persons of foreign extraction, based upon the nativity of the mother, who were at work in 1890, those with German mothers constituted 32.56 per cent and those with Irish mothers 28.35 per cent. These two elements combined constituted more than three-fifths of the whole number at work, and this was the case in three of the five classes of occupations, namely, domestic and personal service, trade and transportation, and manufacturing and mechanical industries. In agriculture, fisheries, and mining, those with Irish mothers constituted only a small percentage of the whole number as compared with the percentage for those with German mothers, while in professional service the percentage of white persons with Irish mothers was slightly larger than the percentage of white persons with German mothers. Of white persons of foreign extraction engaged in domestic and personal service, those with Irish mothers constituted by far the larger percentage as compared with those with German mothers, while in trade and transportation there was nearly the same percentage of each element, and in manufacturing and mechanical industries a considerably larger percentage of those with German mothers. White persons with mothers of English or Welsh birth constituted 12.74 per cent and those with mothers of Scandinavian birth 12.90 per cent of the whole number of white persons having mothers born in foreign countries engaged in agriculture, fisheries, and mining.

The following table shows the number of white males and females having mothers born in each specified country engaged in each class of occupations in 1890:

BIRTHPLACE OF MOTHERS.	NUMBER OF WHITE MALES HAVING MOTHERS BORN IN FOREIGN COUNTRIES ENGAGED IN—						NUMBER OF WHITE FEMALES HAVING MOTHERS BORN IN FOREIGN COUNTRIES ENGAGED IN—

With the exception of agriculture, fisheries, and mining, white females with Irish mothers constituted in 1890 two-fifths, or very nearly two-fifths, of all white females having mothers born in foreign countries engaged in each class of occupations. In agriculture, fisheries, and mining, white females with Irish mothers constituted only 23.26 per cent, as compared with 38.72 per cent for white females with German mothers, while for each of the other classes of occupations the percentages for white females with German mothers were very much less than those for white females with Irish mothers.

If the percentages showing the distribution of white persons having mothers born in foreign countries in each class of occupations according to birthplace of mothers are compared with similar percentages of distribution for foreign born persons, as given in the discussion of the "Occupations of foreign born persons according to country of birth", it will be seen that, relatively, there is an increased proportion of white persons having mothers born in Germany, Ireland, and Great Britain, and a decreased proportion of white persons having mothers born in British America, Scandinavia, and "Other countries", owing to the more recent growth of the immigration of the latter

nationalities as compared with that of the former. This is especially marked with respect to those of Irish maternity, the percentages showing a very much larger proportion in each class of occupations than was the case where persons of Irish birth only were considered. There is also a considerable increase in the proportion of those with German mothers, and slight increases in the proportion of those with British mothers, with the single exception of manufacturing and mechanical industries, which shows a decrease.

The following table shows the distribution of white persons having mothers born in each specified country engaged in gainful occupations in 1890 according to the percentage in each class of occupations:

PER CENT OF WHITE PERSONS HAVING MOTHERS BORN IN EACH SPECIFIED COUNTRY ENGAGED IN EACH CLASS OF OCCUPATIONS OF TOTAL WHITE PERSONS HAVING MOTHERS BORN IN EACH SPECIFIED COUNTRY ENGAGED IN GAINFUL OCCUPATIONS.

In this table the whole number of white persons having mothers born in each of the specified countries at work in 1890 is taken as 100 per cent, and the percentage in each class of occupations is given in each case for both sexes combined and for each sex separately. The largest percentage in any one class of occupations is that for white persons having mothers born in Canada of French extraction who were engaged in manufacturing and mechanical industries, being 57.10 per cent for both sexes combined and 83.51 per cent for females alone. Of the whole number having Scandinavian mothers, very nearly two-fifths of those at work were engaged in agriculture, fisheries, and mining, the next largest proportion in this class of occupations being those with Bohemian mothers, or somewhat more than three-tenths of their whole number at work. There was, however, a much larger proportion of this last-named nationality in manufacturing and mechanical industries than in agriculture, fisheries, and mining, or 37.21 per cent as against 31.92 per cent. Practically one-third of all those at work whose mothers were born in Germany, Ireland, England and Wales, or Scotland were engaged in manufacturing and mechanical industries, while of those with mothers born in Canada of English extraction and in France, very nearly one-third were similarly occupied. Of white females at work whose mothers were of Scandinavian birth, more than three-fourths, and of those with mothers of Hungarian birth considerably more than one-half, were engaged in domestic and personal service.

In the following statement the total number of persons of each sex engaged in principal occupations in 1890 is distributed by number and percentage according to birthplace of mothers:

MALES.

BIRTHPLACE OF MOTHERS AND PRINCIPAL OCCUPATIONS.	Number.	Per cent.
Germany	2,223,583	100 00

a Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.

b Includes locomotive engineers and firemen.

c Includes door, sash, and blind makers.

per cent; first naturalization papers filed, 5.43 per cent; unknown, 8.68 per cent. In the various classes of occupations, however, the distribution according to citizenship shows wide differences, especially as to the percentages of the alien and naturalized elements. In domestic and personal service the aliens constituted 37.40 per cent of all the foreign born adult males so occupied in 1890, and those naturalized 49.71 per cent only. The alien element constituted 28.55 per cent of all the foreign born males of voting age engaged in manufacturing and mechanical industries in 1890, 24.10 per cent of those engaged in trade and transportation, 22.29 per cent of those engaged in agriculture, fisheries, and mining, and 20.81 per cent of those engaged in professional service.

Considering the distribution according to citizenship of foreign born males 21 years of age and over engaged in each of the principal occupations, the following table is obtained:

PRINCIPAL OCCUPATIONS.	ALIENS.		NATURALIZED.		FIRST NATURALIZATION PAPERS FILED.		UNKNOWN.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Agricultural laborers	89,752	45.56	69,650	35.36	12,173	6.18	25,412	12.90

a Includes officers of United States army and navy.
b Brokers (commercial) not included.
c Includes locomotive engineers and firemen.
d Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.
e Includes door, sash, and blind makers.

Of all the occupations designated in the preceding table the alien element was the most numerous among foreign born males of voting age who were returned in the census of 1890 as servants, and there was very nearly as large a percentage of aliens among adult male brick and tile makers and terra cotta workers of foreign birth, the exact percentages being 52.91 for the first-named occupation and 51.57 for the latter. The aliens constituted very nearly one-half of all the foreign born adult males returned as apprentices, fishermen and oystermen, hucksters and peddlers, agricultural laborers, and lumbermen, raftsmen, and wood choppers; considerably more than two-fifths of those returned as cotton, woolen, and other textile mill operatives, and very nearly two-fifths of those returned as laborers (not specified). More than one-third of all the adult males of foreign birth returned as miners and quarrymen, tailors, steam railroad employés, and stock raisers, herders, and drovers, and very nearly one-third of those returned as saw and planing mill employés, etc., tobacco and cigar factory operatives, hostlers and livery stable keepers, marble and stone cutters, bakers, and leather curriers, dressers, finishers, and tanners, were also reported as aliens. The smallest percentages of aliens were found among foreign born males of adult age who were returned as lawyers, officials of government, etc., restaurant and saloon keepers, farmers, planters, and overseers, hotel and boarding and lodging house keepers, watchmen, policemen, and detectives, builders and contractors, manufacturers and officials of manufacturing companies, and merchants and dealers, the percentages ranging from 6.61 for lawyers to 15.42 for merchants and dealers.

Information was obtained on the population schedule as to the length of residence in the United States for all foreign born males of voting age who were returned as aliens, and forms a part of the tabulation of occupations with respect to this element of the population. The following table shows the distribution of aliens engaged in gainful occupations and in each class of occupations in 1890, according to the number of years they had been in this country:

CLASSES OF OCCUPATIONS.	DISTRIBUTION OF ALIENS ENGAGED IN GAINFUL OCCUPATIONS ACCORDING TO NUMBER OF YEARS IN THE UNITED STATES.							
	Less than 1 year.		1 to 2 years.		3 to 4 years.		5 years and over.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent	Number.	Per cent.
All occupations	61,826	5.41	220,522	19.29	222,541	19.47	638,266	55.83
Agriculture, fisheries, and mining	13,414	4.98	50,545	18.76	44,906	16.67	160,501	59.59
Professional service	1,029	5.29	3,537	18.17	3,394	17.43	11,507	59.11
Domestic and personal service	21,862	6.45	70,231	20.74	67,222	19.85	179,383	52.96
Trade and transportation	6,897	4.46	26,854	17.37	30,377	19.65	90,460	58.52
Manufacturing and mechanical industries	18,624	5.16	69,355	19.21	76,642	21.23	196,415	54 40

The aliens who had been in this country 5 years or more constituted considerably more than one-half of all the aliens engaged in gainful occupations in 1890, while in agriculture, fisheries, and mining and in professional service the proportion was very nearly three-fifths.

The following table shows the length of residence in this country of aliens engaged in each of the principal occupations in 1890:

PRINCIPAL OCCUPATIONS.	DISTRIBUTION OF ALIENS ENGAGED IN GAINFUL OCCUPATIONS ACCORDING TO NUMBER OF YEARS IN THE UNITED STATES.							
	Less than 1 year.		1 to 2 years.		3 to 4 years.		5 years and over.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.

a Includes officers of United States army and navy.
b Brokers (commercial) not included.
c Includes locomotive engineers and firemen.
d Includes agricultural implement makers, brass workers, copper workers, iron and steel workers, lead and zinc workers, metal workers (not otherwise specified), molders, nail and tack makers, sewing machine makers, steam boiler makers, stove, furnace, and grate makers, tinners and tinware makers, and tool and cutlery makers.
e Includes door, sash, and blind makers.

Of the principal occupations named in the preceding table there were only 8 in which the aliens who had been in this country 5 years or more constituted less than one-half of all the aliens so occupied. These occupations and percentages for those who have been here 5 years or more are as follows: apprentices, 38.79; brick and tile makers and terra cotta workers, 42.90; miners and quarrymen, 43.03; saw and planing mill employés, etc., 45.65; laborers (not specified), 47.26; steam railroad employés, 47.30; iron, steel, and other metal workers, 47.38; marble and stone cutters, 49.07. In each of the other occupations considered at least one-half of all the aliens so occupied had been in this country 5 years or more, and in many cases the proportion was very much higher. The largest percentage of aliens who had been in this country 5 years or more was that for alien farmers, or 80.64 per cent, while for alien hotel and boarding and lodging house keepers and alien restaurant and saloon keepers those who had been in this country 5 years or more constituted, respectively, 75.92 and 75.61 per cent.

OCCUPATIONS IN CITIES HAVING 50,000 INHABITANTS OR MORE IN 1890.

The statistics of occupations were compiled in 1890 for each of the 58 cities having 50,000 inhabitants or more, and tables are presented in this report showing for each city in detail the number of persons of each sex engaged in gainful occupations and in each class of occupations, and according to general nativity, color, age periods, conjugal condition, illiteracy, inability to speak English, months unemployed, and nationality for those engaged in certain selected occupations.

The table on the following page shows the number of persons, without regard to sex, engaged in gainful occupations in 1890 in each of the 58 cities, and the percentage which they constituted of the total population in each case. Similar information was presented in the report of the census for 1880 for the 50 principal cities, which are also included among the 58 cities considered in 1890, with the single exception of Lawrence, Mass., which in 1890 had a population of less than 50,000. For 49 of these cities comparative figures for 1880 are also given.

CITIES.	POPULATION IN 1890.			POPULATION IN 1880.		
	Total.	Number and per cent engaged in gainful occupations.		Total.	Number and per cent engaged in gainful occupations.

The same causes which affect the proportion of persons at work in the several states and territories are operative in the principal cities of the country, as shown by the preceding table.

The largest proportions of the population at work are found in those cities where the adult males are largely in the majority or where the prevailing industries call for the employment in considerable numbers of women and

children. Conversely, the smallest proportions at work are found in those cities where the conditions of the population as to age and sex are normal or where the occupations are of such a character as not to call for a material concentration of any one element of the population to the partial exclusion of its other elements, commercially and industrially considered. The percentage of the total population at work in the principal cities of the country in 1890 varies in round numbers from 37 to 51 per cent, as shown by the following summary:

	PER CENT.
Milwaukee	37
Des Moines	38
Cleveland, Buffalo, New Orleans, Detroit, Toledo, Scranton, Reading, Lincoln	39
Pittsburg, Allegheny, Albany, Columbus, Dayton, Grand Rapids, Trenton	40
Brooklyn, St. Louis, Newark, Jersey city, Worcester, Cambridge, Los Angeles	41
Chicago, Baltimore, Cincinnati, Rochester, Indianapolis, Syracuse, New Haven, Camden, St. Joseph	42
Louisville, St. Paul, Richmond, Paterson, Nashville, Wilmington, Evansville	43
Washington, Memphis, Troy, Hartford	44
New York, Philadelphia, Atlanta, Charleston	45
Boston, Minneapolis, Kansas city, Providence	46
Omaha	47
Lynn	48
San Francisco, Fall River	49
Denver	50
Lowell	51

The statistics of occupations comprehend only persons 10 years of age and over, so that if only this element of the population is considered, excluding children less than 10 years of age, the proportion of those at work to the whole number of persons of that age in the principal cities in 1890 is very much increased, as compared with the proportion of the total population at work, as shown by the following table:

CITIES.	POPULATION 10 YEARS OF AGE AND OVER IN 1890.			CITIES.	POPULATION 10 YEARS OF AGE AND OVER IN 1890.

Albany, N. Y.	77,560	38,307	49.39	Des Moines, Iowa	39,394	19,039	48.33

In Lowell and Fall River, in Massachusetts, more than three-fifths of the population 10 years of age and over in 1890 were at work, while in but three of the 58 cities named did the proportion fall below one-half, and in those three cities, namely, Albany, N. Y., Columbus, Ohio, and Des Moines, Iowa, the proportion was very nearly one-half. Next to Lowell and Fall River, the largest proportions at work were found in Omaha, Neb., Denver, Colo., San Francisco, Cal., and Minneapolis, Minn., in the order named.

These large proportions are caused by the preponderance of adult males or by the employment of women and children in large numbers, as already stated. The relative influence of these and other causes is further illustrated by the following table, which shows the number and percentage of males and females 10 years of age and over in 1890 at work in each of the 58 cities named:

CITIES.	MALE POPULATION 10 YEARS OF AGE AND OVER IN 1890.			FEMALE POPULATION 10 YEARS OF AGE AND OVER IN 1890.

Des Moines, Iowa	19,897	15,393	77.37	19,497	3,646	18.69

The largest proportions of females 10 years of age and over at work in 1890 were found in Lowell and Fall River, constituting, respectively, 44.61 and 41.30 per cent of the whole number of females 10 years of age and over, while the largest proportions of males 10 years of age and over at work in 1890 were found in Denver, Colo., Minneapolis, Minn., and Kansas city, Mo.

The reasons for these large proportions of male and female workers in the cities named are at once apparent: the employment of females in large numbers in the textile industries of the first two cities named, and the undue proportion of males in the three western cities and the character of the prevailing industries there. These two examples serve to illustrate the purpose of the table, and the figures contained therein need not, therefore, be analyzed in detail.

SOLDIERS AND WIDOWS.

By the terms of the act governing the Eleventh Census, provision was made for obtaining through the census enumerators a list of "the names, organizations, and length of service of those who had served in the army, navy, or marine corps of the United States in the war of the rebellion, and who are survivors at the time of said inquiry, and the widows of soldiers, sailors, and marines", a special schedule being provided for the purpose. After this information, which from the nature of the inquiry was necessarily more or less incomplete, had been collected and some work done toward its verification and completion, it was temporarily set aside, and subsequently by an act of Congress all the schedules and papers relating to this special inquiry were turned over to the Commissioner of Pensions. By means of identification on the regular population schedule of all surviving veterans and widows of veterans for whom the inquiries on the special schedule had been made, it was possible to obtain, approximately, the number living on June 1, 1890, as well as much valuable statistical data concerning them. The special provisions of the census law related only to surviving United States soldiers, sailors, and marines, so far as the name, organization, and length of service was concerned, but, for statistical purposes, an inquiry was also made on the population schedule as to the number of surviving Confederate soldiers and Confederate widows, so as to determine the number of survivors of the war of the rebellion, both Union and Confederate, as well as the number of surviving widows of participants who had died.

As a result of this statistical inquiry, it was found that on June 1, 1890, there were 1,034,073 surviving United States soldiers, sailors, and marines; 145,359 surviving widows of United States soldiers, sailors, and marines; 432,020 surviving Confederate veterans of the civil war, and 60,564 surviving widows of Confederate veterans. In using these figures, it must be understood that they are approximate only, as derived from the answers made on the population schedule, and have not been subjected to careful revision and comparison with the returns made on the special schedule giving the name, organization, and length of service of each surviving veteran who had served in the United States army, navy, or marine corps during the war of the rebellion. If this special branch of the census work had been completed as originally outlined, the figures resulting therefrom would have shown very nearly the actual number of survivors of the late war on the Union side, as based upon the detailed returns concerning their records of service made to the census enumerators and carefully verified by the central office. The figures presented in this report are believed, however, to be reasonably correct, but it was deemed best that this qualifying statement should be made in the interest of all concerned.

The following table shows the distribution of surviving veterans and widows of veterans, both United States and Confederate, by general nativity and color:

GENERAL NATIVITY AND COLOR.	UNITED STATES SOLDIERS, SAILORS, AND MARINES.		WIDOWS OF UNITED STATES SOLDIERS, SAILORS, AND MARINES.		CONFEDERATE SOLDIERS AND SAILORS.		WIDOWS OF CONFEDERATE SOLDIERS AND SAILORS.	
	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.	Number.	Per cent.
Aggregate	1,034,073	100.00	145,359	100 00	432,020	100 00	60,564	100.00
Total white	980,274	94.80	135,892	93 49	428,747	99.24	60,022	99.10
Native white	807,701	78 11	108,368	74.56	415,234	96.11	58,366	96.37
Native parents	718,446	69.48	96,003	66.05	405,694	93.90	56,599	93.45
Foreign parents	89,255	8.63	12,365	8.51	9,540	2.21	1,767	2.92
Foreign white	172,573	16.69	27,524	18.93	13,513	3.13	1,656	2.73
Total colored	53,799	5.20	9,467	6.51	3,273	0.76	542	0.90

Of the whole number of surviving United States soldiers, sailors, and marines, 718,446, or 69.48 per cent, were native white of native parentage; 89,255, or 8.63 per cent, were native white of foreign parentage; 172,573, or 16.69 per cent, were foreign white, and 53,799, or 5.20 per cent, were colored. There were, on the other hand, 405,694 out of a total of 432,020 surviving Confederate soldiers and sailors, or 93.90 per cent, who were native white of native parentage, leaving only 26,326, or 6.10 per cent, for all other persons. Approximately the same conditions were found among the surviving widows of veterans as have been indicated for surviving veterans themselves, both United States and Confederate.

The distribution by age periods of surviving veterans of the civil war, both United States and Confederate, is shown in the following table:

AGE PERIODS.	UNITED STATES SOLDIERS, SAILORS, AND MARINES.		CONFEDERATE SOLDIERS AND SAILORS.	
	Number.	Per cent.	Number.	Per cent.
All ages	1,034,073	100.00	432,020	100.00
Under 45 years	129,438	12 52	50,666	11.73
45 to 54 years	575,746	55.68	216,280	50.06
55 to 64 years	238,489	23.06	114,752	26.56
65 to 74 years	75,214	7.27	43,714	10.12
75 years and over	11,149	1.08	5,867	1.36
Age unknown	4,037	0.39	741	0.17

Of the surviving veterans of the United States army and navy, 12.52 per cent were less than 45 years of age, 55.68 per cent from 45 to 54 years of age, 23.06 per cent from 55 to 64 years of age, 7.27 per cent from 65 to 74 years of age, and 1.08 per cent 75 years of age and over. Among the surviving Confederate veterans 11.73 per cent were less than 45 years of age, 50.06 per cent from 45 to 54 years of age, 26.56 per cent from 55 to 64 years of age, 10.12 per cent from 65 to 74 years of age, and 1.36 per cent 75 years of age and over. The Confederate veterans as a class, therefore, were somewhat older than the United States veterans, showing that they drew more largely upon the older elements of their population during the progress of the civil war.

A similar distribution by age periods is shown in the following table for the widows of veterans, both United States and Confederate:

AGE PERIODS.	WIDOWS OF UNITED STATES SOLDIERS, SAILORS, AND MARINES.		WIDOWS OF CONFEDERATE SOLDIERS AND SAILORS.	
	Number.	Per cent.	Number.	Per cent.
All ages	145,359	100.00	60,564	100.00
Under 35 years	3,662	2.52	1,530	2.53
35 to 44 years	29,720	20.45	9,936	16.41
45 to 54 years	51,946	35.74	22,866	37.75
55 to 64 years	38,332	26.37	17,890	29.54
65 to 74 years	16,985	11.68	6,891	11.38
75 years and over	4,088	2.81	1,274	2.10
Age unknown	626	0.43	177	0.29

Considered as regards geographical divisions, it is seen that of the surviving United States soldiers, sailors, and marines, 519,711, or 50.26 per cent, were living June 1, 1890, in the North Central division; 315,466, or 30.51 per cent, in the North Atlantic division; 93,942, or 9.08 per cent, in the South Central division, principally in Kentucky, Tennessee, and Arkansas; 54,841, or 5.30 per cent, in the South Atlantic division, and 50,113, or 4.85 per cent, in the Western division.

The largest number living in any one state was 110,780 in Pennsylvania, closely followed by Ohio with 101,602. Other large numbers were 86,041 in New York, 71,158 in Illinois, 63,747 in Missouri, 63,242 in Indiana, 50,627 in Kansas, 45,984 in Michigan, 42,855 in Iowa, and 39,606 in Massachusetts, as shown by the following statement, giving the states and territories in the order of the number of surviving United States veterans down to the lowest number:

Pennsylvania	110,780	California	17,260	Oregon	5,687
Ohio	101,602	Arkansas	14,464	North Carolina	4,133
New York	86,041	Connecticut	12,994	Alabama	4,014
Illinois	71,158	West Virginia	12,827	Delaware	3,559
Missouri	63,747	Maryland	12,618	Florida	2,814
Indiana	63,242	Colorado	9,715	Montana	2,616
Kansas	50,627	New Hampshire	8,996	Oklahoma	2,486
Michigan	45,984	Vermont	8,730	South Carolina	2,098
Iowa	42,855	Texas	8,722	North Dakota	2,064
Massachusetts	39,606	Virginia	8,365	Georgia	2,063
Kentucky	30,150	Louisiana	7,587	New Mexico	1,986
Wisconsin	29,575	Washington	7,409	Idaho	1,604
New Jersey	23,707	South Dakota	7,132	Wyoming	1,171
Nebraska	22,885	Mississippi	6,362	Arizona	1,163
Tennessee	20,157	District of Columbia	6,334	Utah	881
Minnesota	18,840	Rhode Island	6,301	Nevada	591
Maine	18,311				

Of the surviving Confederate soldiers and sailors, 214,347, or 49.62 per cent, were living June 1, 1890, in the South Central division; 183,676, or 42.51 per cent, in the South Atlantic division; 25,701, or 5.95 per cent, in the North Central division, mainly in Missouri; 5,863, or 1.36 per cent, in the Western division, and 2,433, or 0.56 per cent, in the North Atlantic division. The largest number of surviving Confederate veterans were found living in Texas, and the next largest numbers in Virginia, Georgia, and North Carolina, in the order named. These figures are given in detail for the states and territories containing at least 8,000 survivors, as follows:

Texas	66,791	Tennessee	32,201	Louisiana	16,199
Virginia	48,713	Mississippi	26,728	Kentucky	11,115
Georgia	47,080	Arkansas	26,706	West Virginia	9,117
North Carolina	43,947	South Carolina	23,650	Florida	8,232
Alabama	34,004	Missouri	17,558		

Of the surviving Confederate veterans not comprehended by the above statement, 8,148 were found in the North Central division, excluding Missouri; 5,863 in all the states and territories comprising the Western division; 2,937 in Delaware, Maryland, and the District of Columbia combined; 2,433 in all the states comprising the North Atlantic division, and 603 in Oklahoma.

Of the surviving United States soldiers, sailors, and marines, 964,587, or 92.31 per cent, and of the surviving Confederate soldiers and sailors, 382,089, or 88.44 per cent, were engaged in gainful occupations in 1890. The relatively small proportion of Confederate veterans at work, as compared with United States veterans, is due to the fact that their present average age is greater than that of the United States veterans, and they are, as a consequence, incapacitated to a greater extent for active work.

Of the widows of United Sates veterans, 39,944, or 27.48 per cent, and of the widows of Confederate veterans, 24,492, or 40.44 per cent, were engaged in gainful occupations in 1890. The large proportion of widows of Confederate veterans at work is due to the large number engaged in agriculture, fisheries, and mining, shown in Table 128.

Very nearly seven-tenths of all the Confederate veterans at work in 1890 were engaged in agriculture, fisheries, and mining, as compared with but little more than two-fifths of the United States veterans at work.

INMATES OF SOLDIERS' HOMES.

The total number of inmates of homes for disabled soldiers and sailors, June 1, 1890, was 22,080. Of this number 16,327, or 73.95 per cent, were found in national homes, including the United States Soldiers' Home at Washington, D. C.; 5,465, or 24.75 per cent, in state or private homes, and 288, or 1.30 per cent, in Confederate homes.

By geographical divisions, 3,942, or 17.85 per cent, were found in the North Atlantic division; 3,998, or 18.11 per cent, in the South Atlantic division; 13,389, or 60.64 per cent, in the North Central division; 86, or 0.39 per cent, in the South Central division, and 665, or 3.01 per cent, in the Western division.

There were 21,839 white inmates, 240 negroes, and 1 Indian. Of the whites, 10,346, or 47.37 per cent, were born in the United States, and 11,493, or 52.63 per cent, were foreign born. Of the 10,346 native whites, 9,034, or 41.37 per cent of all the whites, had native parents, and 1,312, or 6.01 per cent of all the whites, had foreign parents

In respect to age, inmates of soldiers' homes range from 40 to 100 years. One-sixth of them were still under the age of 50, one-third under 55, and one-half under 60. The average age was 59 years.

As to conjugal condition, 9,022, or 40.86 per cent, were single; 6,103, or 27.64 per cent, were married; 6,407, or 29.02 per cent, were widowed; 209, or 0.95 per cent, were divorced, and for 339, or 1.53 per cent, the conjugal condition was unknown.

The percentage of those who can both read and write is 85.09; of those who can read only, 1.80, and of those who can neither read nor write, 13.11. Of the negroes, nearly one-half can neither read nor write. The percentage of illiteracy among the foreign white is nearly three times as great as that among the native white.

There were 22 inmates who were reported as not able to speak the English language, 21 of whom were foreign white and 1 colored.

The percentage reported as in good health is 9.34; sick, 72.12; insane, 0.55; blind, 2.28; deaf mutes, 0.84; idiotic, 0.13; crippled, 14.74.

AGES.
